

Table of Contents

Preface

Investigation of the Operational Durability of High Pressure Metal Hoses Made of Austenitic Steels V. Ivanov, E. Lavrova, D.P. Il'yaschenko, F. Morgay and N. Solidor	1
Investigation of the Nature of Damage to Welded Flexible Compensating Elements Made of Austenitic Stainless Steels V. Ivanov, F.V. Morgay, E.V. Lavrova, D.P. Il'yaschenko and E. Verkhoturova	9
Study on the Effects of Hydrostatic Pressure on the Structural State of Pure-Iron during Hardening Treatment with a Multiradius Roller V.Y. Blumenstein and K.S. Mitrofanova	17
The Residual Stress Modeling in Surface Plastic Deformation Machining Processes with the Metal Hardening Effect Consideration M.S. Makhalov and V.Y. Blumenstein	27
Resource Saving in Technologies of Extraction and Processing of Ores for Metallurgy D.A. Lubyanoi, E.G. Kuzin, V.N. Shahmanov and V.A. Narskiy	39
Features of Metallurgical Production in Small Foundries with Induction Furnaces D.A. Lubyanoi, E.Y. Pudov, E.G. Kuzin, O.S. Semenova and D.D. Lubyanoi	47
Study of Abrasive Grains for Susceptibility to Electrostatic Field Effect V.S. Lyukshin, D.B. Shatko and P.A. Strelnikov	57
Comparison the Preparation Methods of Powder Feedstock for Laser Powder Bed Fusion M. Khimich, E. Ibragimov, V.V. Chebodaeva, A. Saprykin, N. Saprykina and Y. Sharkeev	63
Structure, Magnetic Characteristics and Stress-Strain State of Structural Steel Welded Pipelines N.V. Ababkov, M.V. Pimonov and E.E. Levashova	73
<i>In Situ</i> Studies of Strain Fields in Titanium Welds under Tensile Loads by Digital Image Correlation Method A.A. Klopotov, M.S. Slobodyan, V.A. Klimenov, K. Kurgan and A. Ustinov	83
On Mechanism of Weld Crystallization in Arc Welding with Controlled Actions A.D. Razmyshlyayev and M.V. Ahieieva	93
Chromium-Lanthanide Multi-Ligand Complexes as Precursors of New Materials E.V. Cherkasova and T.G. Cherkasova	99
Modeling the Influence of Mechanical Control Impacts on the Distribution of the Temperature Field in the Base Metal during Surfacing with a Strip Electrode E. Lavrova, V. Ivanov and D.P. Il'yaschenko	107
Investigation of the Effect of Thermal Limiters on the Change in the Structure Formation of Deposited Multilayer Specimens from Steel AISI 308LSi D.A. Chinakhov, K.O. Akimov, A.S. Dubrovskiy and E.D. Rzaev	115
Influence of Forming Graphite Skids on the Change in Hardness of Deposited Multilayer Specimens D.A. Chinakhov, K.O. Akimov, A.S. Dubrovskiy and E.D. Rzaev	123
Heat-Induced Strength Behavior of "Steel - Wood" Composite Modified by Flame Retardant V.F. Torosyan and V.Y. Timofeev	131
