

Table of Contents

Preface

Recipes of Knitting Systems Alkaline Activation Using Natural Raw Materials of the Chechen Republic

M. Salamanova, D. Bataev, A. Uzayeva and Z. Gacayev 1

Structural Formation of a Clinkless Cement Binding Alkali Battery with Thermoactivated Margel

M. Salamanova, S. Murtazayev, A. Alaskhanov and Z. Gacayev 8

Structural Formation of the Cement Pastes Based on the Concrete Modified Dispersed Mineral Components

A. Khalyushev, S. Stel'makh, E. Shcherban' and A. Chernil'nik 14

The Activation Technology for the Surface Modification High Voltage Electric Field Dispersed Mineral Additives for Concrete

A. Khalyushev, A. Mayilyan, S. Stel'makh and E. Shcherban' 23

The Cement Mechanical Activation Effective Application Field Determination

V. Kabanov 31

Silicate Brick with Reduced Density and Thermal Conductivity

O. Jivotkov, V. Kotlyar, G. Kozlov, I. Jivotkova and A. Kozlov 37

The Study of the Quartz Sand Bio Consolidation Processes as a Result of Carbonate Mineralization by Urolithic Bacteria

V.V. Strokova, U.N. Duhanina and D.A. Balitsky 44

Pressed Composites Based on Gypsum and Magnesia Binders Modified with Secondary Resources

A. Kaklyugin, N. Stupen, L. Kastornykh and V. Kovalenko 52

Effect of Calcium Synthetic Hydro Silicate Additives on the Cement Systems' Technological Characteristics

E.A. Shoshin, V.V. Strokova, D. Timokhin and A. Strakhov 59

On the Influence of Cross-Section and Reinforcement of Reinforced Concrete Constructions on the Concentration of Coarse Aggregate in Concrete with Frame Structure

G. Nesvetaev, E. Lesniak, A. Kolleganov and N. Kolleganov 66

The Reinforced Concrete Reinforcement Corrosion Degradation Inhibition with Nitrates of Alkali and Alkali-Earth Metals

V.E. Rumyantseva and V.S. Konovalova 72

The Production Technology of the Ceramic Brick Soft Molding Based on Opoka-Like Rocks

J. Bozhko, J. Teryokhina, K. Lapunova and R. Yashchenko 79

The Glass Powders' Dispersion Effect on the Glass-Reinforced Concrete Performance Properties

V.S. Bessmertny, O. Puchka, M. Bondarenko and V. Gorety 85

Theoretical Substantiation of the Foam Concrete Strength Formation Laws

L. Morgun, V. Morgun, A. Bogatina and A. Revyakin 92

Mass Compositions Calculation on the Basis of Argillites at Ceramic Tiles Production

Y. Lazareva, A. Kotlyar, M. Orlova and A. Naumov 97

The Effect of Fine Dispersed Slag Component on the Slag Portland Cement Properties

I.V. Kozlova, O.V. Zemskova and V. Semenov 103

Utilization of Waste from Thermal Power Plants in High Performance Materials' Production

I. Maltseva, S. Kurilova and A. Naumov 109

Raw Materials in East Donbass Based on Waste Piles Processing Screenings for the Large-Sized Ceramic Stones' Production

E. Gaishun, K. Yavruyan, V. Kotlyar and E. Lotoshnikova 116

Investigation of the Various Binders' Effect on the Lime Binder Carbonate Hardening Process for its Use in Additive Technologies

A. Bakhtin, N. Lyubomirskiy, T. Bakhtina and V. Nikolaenko 123

Fiber Foam Tuffcrete Structure and Properties Formation on the Basis of Volcanic Tuff Dusting Waste

T. Khezhev, A. Ansokov, I. Kerefov and R. Malkarov 130

| | |
|---|-----|
| Gypsum-Cement Composites Based on Volcanic Ash T. Khezhev, T. Badziev, T. Soblirov and T. Tamashev | 136 |
| Synthesis of Modifiers in the System $\text{CaO-SiO}_2\text{-H}_2\text{O}$ and their Influence on the Non-Autoclave Silicate Materials' Properties Using Aluminosilicate Binder A. Volodchenko | 144 |
| Physical and Mechanical Properties and Biological Resistance of the Calcareous Composites on Activated Mixing Water S. Khutorskoy, D. Emelyanov, A. Matvievsky and V. Smirnov | 151 |
| Some Questions of Shrinking Concrete Deformations with Extending Additive on Porous Fillers in Kabardino-Balkaria B. Beshtokov and A. Tsipinov | 158 |
| Frame Polymerbetons Based on Fillers of Different Nature V. Erofeev, D. Gubanov, A. Bogatov and A. Bulgakov | 164 |
| Cement Composites' Biostability A. Rodin, S. Karpushin and V. Smirnov | 171 |
| The Influence of Salts' Presence in the Materials on their Moisture and Thermal Conductivity T.F. Elchishcheva and V. Erofeev | 179 |
