

Table of Contents

Preface

Chapter 1: Materials Science

Studying the Effect of Fine Particles of Tungsten Carbide on the Macro-Structure, Hardness and Microhardness of Gradient Steel Billets A.N. Anikeev, I.V. Chumanov and V. Sedukhin	3
Prediction of Concrete Strength Using Support Vector Machines Algorithm A. Shaqadan	9
Investigating the Properties and Structure of Polyurethane Elastomers with Monoethylene Glycol Chain Extender P. Somdee, T. Lassu-Kuknyo, C. Konya, T. Szabó and K. Marossy	18
Hydrogen-Induced Microstructure Optimization of the Ti-6Al-4V Alloy M.K. Mohsun	24
Influence of Phases Stability on the Hydrogen Diffusion Coefficient in Ti-6Al-4V M.K. Mohsun	33
Influence of Special Additives on Characteristics of Concrete with SiC Based Filler R. Pernicová and T. Kolomaznik	41
Color Intensity of Architectural Concrete Depending on the Type of Cement M. Utěšená and R. Pernicová	50
Influence of Heat Treatment Parameters on the Functional Behavior and Corrosion Performance of a Shape Memory Wire Actuator G.M. Simsek and G.G. Yapici	55
Critical Study of a Residual Viscosity Correlation of JOSSI: Pure Hydrocarbons Case M.J. Malzi, A. Ettahir, C. Boned, B. Lagourette, K. Kettani and K. Amarray	61

Chapter 2: Manufacturing Technologies

A Study on Experimental on Bending-Shear Behavior of Concrete-Filled Double Skin Steel Tubular Beams L.S. Jo	71
Design of a Thin Metal Product with the Developable Middle Surface from a Sheet by Parabolic Bending S.N. Krivoschapko, M. Rynkovskaya and A. Razin	78
Evaluating the Mechanical Behavior of ARB Processed Aluminum Composites Using Shear Punch Testing D.H. Jawad, A. Hosseinzadeh, M. Misirli and G.G. Yapici	86
Use of Longitudinal Roughness Measurements as Tool End-of-Life Indicator in AISI 1045 Dry Longitudinal Turning L. Equeter, R. Devlaminck, F. Ducobu, C. Dutoit and P. Dehombreux	93
Tensile and Compressive Creep Behavior of IN718 Alloy Manufactured by Selective Laser Melting Z. Xu, C. Guo, Z.R. Yu, X. Li, X.G. Hu and Q. Zhu	102
Design of Acoustic Energy Harvesting Unit Using Piezo-Electric Diaphragm S. Salem, K. Fraña and I. Nová	109
