

Table of Contents

Preface

Chapter 1: Biomaterials

Characteristic, Microstructure and Properties of Dense Hydroxyapatite Ceramic from Cockle Shell for Biomaterials T. Sirisoam, C. Saelee, S. Thiansem and S. Punyanitya	3
Evaluation of Mechanical Properties of Dimpled PET Fiber Fabricated by Electrospinning Method K. Tanaka, R. Kawasaki, T. Katayama and Y. Morita	8
Linear and Hyperbranched Copolymers of PEG-Based Acrylates and Methacrylic Acid as pH-Responsive Hydrophobic Drug Carriers E.C. Atayde Jr., R.C.K. Montalbo and S.D. Arco	15

Chapter 2: Polymers, Composites and Ceramics

The Synergistic Effects of Multi-Filler Addition on the Mechanical and Thermo-Mechanical Properties of Phenolic Resins P. Chaiwan and J. Pumchusak	23
Synthesis of Graphene Oxide Grafted with Epoxidized Natural Rubber via Aminosilane Linkage P. Charoeythornkhajhornchai and A. Somwangthanaroj	28
Effect of Mixing of Carbon Support from Sawdust and Sugarcane Bagasse by Hydrothermal Carbonization for Synthesis of Molybdenum Disulfide (MoS₂) Catalyst P. Sumtong, V. Goodwin, N. Chollacoop and A. Eiad-Ua	35
Effects of Reaction Temperature and Electrolyte Concentration on Interfacial Reactions between Graphite and Propylene Carbonate-Based Solutions S.K. Jeong	40
Synthesis, Characterization and Properties of Forsterite Refractory Produced from Thai Talc and Magnesite S. Kullatham and S. Thiansem	46

Chapter 3: Properties and Processing Technologies of Steel and Alloys

Effect of Cooling Time on Microstructure and Properties of 2507 Super Duplex Stainless Steel Welding Heat-Affect Zone Y.Q. Zhou, D.N. Zou, K.X. Li, W. Zhang, R. Liu and Y. Han	53
Effect of Cl⁻ Concentration on Pitting Corrosion Property of Maraging Hardened Stainless Steel Based on Pourbaix Diagram X. Zhang, D.N. Zou, Y.Q. Zhou, X. Na, W. Zhang and Y. Han	59
Ratio of Cutting Force Components in Turning O. Ryabov, S. Kano, H. Sawada and J. Herwan	65
A Study on the Evaluation Indexes of Wear Process of Electroplated CBN Grinding Wheel F. Quan, Z.T. Chen, Q.T. Li and H. Ye	72

Chapter 4: Materials Mechanics, Testing and Modelling

Effect of Fiber Direction and Stress Ratio on Fatigue Property in Carbon Fiber Reinforced Epoxy Composites M.S. Ferdous, S.M.M. Rahman and C. Makabe	79
Hexahedral-Based Smoothed Finite Element Method Using Volumetric-Deviatoric Split for Contact Problem K. Oshiro, H. Miyakubo, M. Fujikawa and C. Makabe	84

Three Dimensional Fractography of Extruded Age-Hardened Al Alloys Subjected to Fatigue Tests	
Y. Nakamura, R. Iwamoto, Y. Kurigeno, H. Kamibayashi, K. Kariya and N. Kawagoishi	89
Evaluation of Fatigue Strength of Butt Joint by Intensity of Singular Stress Field	
T. Miyazaki, T. Matsuda and K. Naka	94

Chapter 5: Functional Materials

Design, Fabrication and Analysis of a Novel Membrane Dielectric Elastomer In-Plane Actuator	
Y.H. Zhao, Q.H. Gao, Q.C. He and W.M. Zhang	101
Development of New Glass Phosphor for Multimodal Artifact Metrics Applicable for Ceramics	
M. Fujikawa, M. Hara and S. Fuchi	109
Thermochromic Properties of Vanadium Oxide Films Prepared by R-HIPIMS Using Closed-Loop Controlled with Plasma Emission Monitoring	
C.J. Tang, W.H. Hsu and C.T. Li	114

Chapter 6: Building Materials and Structures

Analytical Study on the Flexural Behavior of Reinforced Concrete Beam with Mineral Admixture under Calcium Leaching Degradation	
I.S. Kim, Y.S. Choi, C.K. Lee and E.I. Yang	123
Design of Asphalt Mixtures with 30% of RCA as Replacement of Natural Aggregate by Means Marshall Methodology	
C.U. Espino González, W. Martínez-Molina, H.L. Chávez-García, J.A.V. Perez, R.R. Ruiz, C. Lara Gomez, F.J. Jeronimo Rodriguez and E.M. Alonso-Guzmán	128
Sustainability Assessment of Smart Materials in Buildings	
J.W. Yoon	133
Characteristics of Flexural Behavior of Reinforced Concrete Member Substituted Heavyweight Waste Glass as Fine Aggregate	
S.Y. Choi, S. Kim and E.I. Yang	141
Composite High-Rise Structures: Structural Health Monitoring (SHM) and Case Studies	
K. Gharehbaghi, M. Georgy and F. Rahmani	146
Practicalities and Developments of High-Rise Composite Structures: Case Studies	
K. Gharehbaghi and F. Rahmani	153
Deterioration of Transportation Infrastructures: Corrosion of Reinforcements in Concrete Structures	
K. Gharehbaghi and F. Rahmani	160
