

Table of Contents

Preface

Chapter 1: Chemical Engineering

Hydrolysis of Anhydrosugars over a Solid Acid Catalyst for Saccharification of Cellulose via Pyrolysis

S. Kudo, X. Huang, S. Sakai, K. Fujiki, S. Asano and J.I. Hayashi 3

Mass and Heat Transfer at the Bottom of Cylindrical Unbaffled Stirred Tank Reactor and Possible Applications

E.H. Abdel-Gawad, M.A. El-Naggar, M.A. Abdel-Kawi, G.H. Sedahmed and M.M. Taha 11

Assessing the Potential of Upcycling Waste Plastics into Mechanically Strong Water-Resistant Thermal Insulation Carbon Foam via Chemical Blowing Method and Low Temperature Carbonization

K. Mensah, H. Mahmoud, M. Fujii and H. Shokry 21

Chapter 2: Materials and Technologies for Environmental Protection

An Adsorbent Based on Humic Acid-Like and Carboxymethyl Cellulose for Efficient Pollutant Removal from Synthetic Wastewater

R. Basuki, B. Rusdiarso, S.J. Santosa and D. Siswanta 29

Copper Oxide Coupled Titanium Dioxide (CuO/TiO_2) Nanocomposite Photocatalyst for Degradation of Methyl Orange Dye

A.I.M. A'srai and M.H. Razali 39

Photodegradation of Reactive Blue 4 Using Suspension of Anatase-Titanium Dioxide and Corn Cob

S.S. Bahari, Y.M. Lian, R.A. Ramli and L.S. Ling 45

Adsorption of Methylene Blue Using Tea Waste Treated with Alkaline-Potassium Hydroxide

S.S. Bahari, F.N. Jahid, Y.M. Lian, R.A. Ramli and L.S. Ling 59

Synthesis and Characterization of Molecularly Imprinted Polymer with Oleic Acid as a Template

S.M.A. Azhar, B.S. Muyang, G.P. Maniam and N.A. Samah 71

Characterizing Groundwater Turbidity Reduction by Using a Magnetic Biocarbon Adsorbent Composite (MBAC): Process Optimization

H. Awang, N.A. Abdullah, H.Y. Ling, I.T.J. Lin, P.S. Abdullah, S.N.H.M. Azmin and F. Boukhlifi 77

PLA Degradation and PLA-Degrading Bacteria: A Mini-Review

J.C. binti Jalani and Z.I.M. Arshad 103

Suspended and Coated Iron Waste for Photo-Fenton-Like Degradation of Industrial Effluents under Neutral Condition

M. Samy and M.G. Ibrahim 111

Enhanced Removal of Methylene Blue Dye by Sustainable Biochar Derived from Rice Straw Digestate

H. Ezz, M.G. Ibrahim, M. Fujii and M. Nasr 119

Adsorption of Methylene Blue Dye Using Raw and Carbonized Peanut Shell

H.D. Gohoho, H. Noby, J.I. Hayashi and A.H. El Shazly 131

PVDF/UIO-66 Hybrid Membrane for Cation Separation in Electrodialysis System

A.U. Zeid, A.H. El Shazly and M.F. El Kady 139

Chapter 3: Surface and Interface Engineering

The Influence of Metal Coping Design on Fracture Resistance of Porcelain-Fused-to-Metal Crown

M. Volvina, T. Sumarsongko and D. Firman 147

Calcium Carbonate Coating on Ti by Transformation of CaO Coating Produced by Sandblasting

B.T. Le, L.B. Duc, N.H.T. Nguyen and Eddy

157

Evaluation of Zirconia Surface Roughness after Different Surface Treatment with Sandblasting, Hydrofluoric Acid Etching, and Combination Treatment

N.S. Rizky, R. Rikmasari and S. Bonifacius

163

Chapter 4: Reliability Assessment and Restoration of Concrete Structures and Elements**Color Stability of Colored Concrete over Time Depending on the Type of Pigment**

M. Utěšená and R. Pernicová

173

Corrosion of Steel Prestressing Reinforcement - The Influence of the Used Construction Technology of Concrete Suspension Footbridges

V. Vacek and P. Pokorný

179

Corrosion Properties and Bond Strength of Coated (PE/PAK; Pe/PPE; PAD) Reinforcement (B500B) with Normal Strength Concrete

P. Pokorný, N. Prodanovic, K. Hurtig and M. Holeček

185

Degradation of Colored Concrete Elements due to Frost

R. Pernicová, K. Hurtig and M. Utěšená

191

Resistance of Electrically Conductive Concrete to Sulphate Attack

I.S. Polyanskikh, A.N. Gumenyuk, A.F. Gordina, I.A. Pudov and G.I. Yakovlev

197

Corrosion of Zinc Dust in Cement Paste - Evaluation of Hydrogen Gas Evolution Time Period

P. Pokorný, N. Prodanovic, L. Topolář, L. Pazdera and I. Kusák

205

Chapter 5: Persistence to External Factors, Protection, Treatment and Insulation of Structural Elements in Construction**Assessment of Chemical Resistance of Polymer Repair Mortars**

R. Hermann, J. Majerová, R. Drochytka and P. Figala

213

Effect of Carbon-Containing Additives on the Properties of Fluoroanhydrite Compositions Used for Flooring

D. Kalabina, G.I. Yakovlev, Z. Saidova, G. Pervushin and A.F. Gordina

219

Experimental Testing Results of a Timber Structure's Fire Resistance in a Combustion Chamber

T. Žajdlík and K. Šuhajda

225

Influence of Moisture and Density of Wood on the Depth of Holes Made by a Kucera's Drilling Machine

P. Černý, E. Frimlová and V. Heřmánková

231

Influence of Physical and Chemical Stress on the Properties of CIPP Pipes Based on Vinyl Ester

J. Hodul, L. Mészárosová and J. Majerová

237

Study of the Preparation of Micronized Zinc Phosphate Dihydrate with Potential for Application in the Phosphating Process

A. Zabloudil, N. Prodanovic, P. Pokorný, J. Kolísko and K. Cech Barabaszova

245

The Use of Thin-Layer Insulation Material in Technical Installations in Building Reconstructions

P. Vrbová and L. Prokopová

253
