

Table of Contents

Preface

Pentose Phosphate Pathway in Disease and Therapy

M. Rahman and M.R. Hasan 1

Advanced Materials for Gene Delivery

M.A.J. Mazumder, M.H. Zahir and S.F. Zaman 29

Weeds as Alternative Useful Medicinal Source: *Mimosa pudica* Linn. on Diabetes Mellitus and its Complications

T.S. Tunna, Q.U. Ahmed, A.B.M.H. Uddin and M.Z.I. Sarker 49

Substituted Quinoline Derivatives as Potent Biological Agents

B. Garudachari and A.M. Isloor 61

Congenital Heart Diseases and Biotechnology: Connecting by Connexin

N. Sultana, N. Nakamura, S. Hirose, K. Kutsuzawa, T. Akaike and K. Nag 85

NanoTiO₂-Enriched Biocompatible Polymeric Powder Coatings: Adhesion, Thermal and Biological Characterizations

M.S. Mozumder, A.I. Mourad, H. Perinpanayagam and J. Zhu 113

Nanomaterials in Electrochemical Biosensor

M.A. Aziz and M. Oyama 125
