

Table of Contents

Preface

Chapter 1: Sustainable Metallurgical Technologies

Enhanced Reduction of Carbon-Iron Ore Composite Briquettes under Varying Pressing Forces via Direct Microwave Heating Q.D. Ngo, M.T. Nguyen and H.V. Nguyen	3
Reduction of Iron Ore Pellets Containing Blast Furnace Dust T.T.T. Hien and N.S. Long	11
Reduction of the Residue from the Leaching Process of Electric Arc Furnace Dust C.S. Nguyen, Q.D. Luu, H. Le and A.H. Bui	17

Chapter 2: Waste Recycling

Crystallization of Rice Husk Produced Silica and Silicon Carbide T.T.T. Hien and N.S. Long	27
Optimization of Ingredients in Polystyrene Waste-Based Adhesive for Wood-to-Wood Bonding Using Experimental Planning H.N. Cong, H. Nguyen and V.A. Doan	33

Chapter 3: Materials for Food and Biomedical Applications

Evaluation the Medicinal Potential of <i>Phallus indusiatus</i> as a Protein-Rich Source for Applications in Meat Analogs S. Sedtananon, C. Butsukon, N. Chukred, K. Piyarat, K. Choowonkamon and L. Tabtimmai	43
Synthesis of Magnetic Nanoparticles Coated with Chitosan for Biomedical Applications N. Albutt, S. Sonstup, T. Sinprachim and P. Thonglor	49

Chapter 4: Structural Engineering

Effect of Slenderness Ratio on the Behavior of RC Bearing Walls under Fire Exposure M. Assad, R. Hawileh, G. Karaki and J.A. Abdallah	61
Effect of Concrete Compressive Strength on the Bond Performance of Flexural Prisms Externally Strengthened with CFRP Laminates P. Gowrishankar, R. Hawileh and J.A. Abdallah	71
Investigating the Effect of Utilizing a Sustainable Stabilizer as a Partial Replacement of Cement on Soil Compressibility and Permeability A.R. Al-Adhath, N.N. Nik Daud, B. Yusuf and A.H. Al-Rkaby	79
Study on Mechanical Behavior of Concrete by Temperature and Steel Fiber Content X.C. Zhao, X.P. Wang, H.X. Yu and S.N. Kovshar	87
Variant of the Mathematical Theory of Non-Thin Multilayer Nonlinearly Elastic Plates of Symmetric Structures A.G. Zelensky	95
Exact Analytical Solution of the Problem of Elastic Bending of a Multilayer Beam with a Normal Trapezoidal Load S. Koval'chuk, O. Goryk, S. Yakhin and A. Antonets	107
Analytical Method for Calculating Ring Plates on an Elastic Foundation with an Arbitrary Continuously Variable Bedding Factor Y. Krutii, M. Surianinov, O. Klymenko, H. Karnaukhova and A. Perperi	121
