

Table of Contents

Preface and Organizing Committee

Chapter 1: Ceramic Materials and Technologies

Preparation of α-Al₂O₃ Powders via Non-Hydrolytic Sol-Gel Method T.Q. Zhou, T. Chen, W.H. Jiang, J.M. Liu, X.J. Zhang and L.F. Miao	3
The Study on the Property and the Microstructure of Pressureless Sintered h-BN Ceramics X.J. Gao, D.M. Yan, J.W. Cao, C. Zhang, X.M. Mu, Y.W. Zhou, M. Wang, F.Z. Qu, G.B. Li, G.J. Wang and D.J. Zhang	9
Preparation and Chromatic Properties of Encapsulated Carbon Black Pigment via Layer-by-Layer Self-Assembly Method X.J. Zhang, T. Chen, W.H. Jiang, J.M. Liu and T.Q. Zhou	15
Interface Reaction between Nd₂O₃ and Alumina Single Crystal S.L. Bi, B.L. Wu and Y. Wu	21
Mechanism Research of Pr₆O₁₁ Addition on Wear Resistance of Alumina Ceramics Y. Wu, B.L. Wu and S.L. Bi	27

Chapter 2: Chemical Engineering and Technologies

Factors Influencing Foam Height in Gas Injection Process for Aluminum Foams J.Y. Yuan, Y.X. Li, X. Chen and Y.T. Zhou	33
Computational Results Show Gas Phase Reactions Have Great Impact on the Deposition Rate of Silicon in Siemens CVD Reactors H.Y. Ni and C.X. Chen	39
Water Synthetic Jet Driven by a Piezoelectric Actuator – LIF and PIV Experiments Z. Broučková, S.S. Hsu, A.B. Wang and Z. Trávníček	45
Cs-P Oxide Catalysts for Aldol Condensation to Produce Methyl Acrylate S.F. Jiang, Z.Q. Li, H.N. Chen and E.Q. Wang	51
Optimal Conditions for Bio-Oxidation of Biodesulfurization in Natural Gas Sweetening Process Using <i>Thiobacillus</i> Q.S. Liu, B. Xu, J.L. He, R. Sun and H.G. Chang	57
Sensitivity Analysis of the Wall Shear Model to the Correlations for Frequency and Slug Holdup in the Gas-Liquid Slug Flow in Pipes L.E. Melo Lima and E.S. Rosa	61
Study of Defluidization Region of Large Particles in Fluidized Bed Using the Gaussian Spectral Pressure Distribution F.T. Silveira, F.C. Janzen and M.R. Parise	69
Production of Noval Turkish Delight (Lokum) with Fruit Syrups A. Batu	75
CFD Simulation of Enhanced Oil Recovery Using Nanosilica/Supercritical CO₂ M. Ghanad Dezhfuly, A. Jafari and R. Gharibshahi	81
Statistical Evaluation of Bioleaching of Mobile Phone and Computer Waste PCBs: A Comparative Study M. Arshadi and S.M. Mousavi	87

Chapter 3: Material Physics and Applied Chemistry

Effect of Heat Treatment on the Mechanical Property of PAN-PEO Hybrid Nanofiber Membrane X. Lu and L. Ni	95
Low Temperature Synthesis of Yttrium-Stabilized Zirconia (YSZ) Fibers by Non-Hydrolytic Sol-Gel Method Y. Xin, W.H. Jiang, G. Feng, J.M. Liu, Q. Zhang, Q. Wu and L.F. Miao	101

Study on the Preparation of BaTiO₃ Nano Powder via Non-Hydrolytic Sol-Gel Method Z.P. Shao, W.H. Jiang, G. Feng, J.M. Liu, L.F. Miao, Q. Zhang and Q. Wu	107
The Adsorption Properties of Ciprofloxacin by KMnO₄ Modified <i>Durio zibethinus</i> Murr Shells W.M. Shi, Y.C. Ding and L.H. Wu	111
Effects of Solvent on the Phase Composition and Microstructure of ZrSiO₄ Film F. Cao, T. Chen, W.H. Jiang, J.M. Liu, J.R. Zha and Q. Wu	119
First-Principles Study of Electronic Structure and Optical Properties of V-Doped CrSi₂ F. Gui, S.Y. Zhou, W.J. Yan, C.H. Zhang and S.B. Chen	125
Synthesis and Optical Properties of some Novel Bis-1,3,4-Oxadiazoles H. Liu, L. Lu and D.J. Wang	131
Delamination of GFRP Panels in Bridge Decks B. Stankiewicz	137
Thermoluminescence Properties of Doped YAP Crystals W.W. Yao	143
Effects of Casting Geometry on the Mechanical Properties of A201 Aluminum Alloy Castings in Chromite Sand Molds Y.S. Kuo	149
Dry Sliding Wear Resistance of the <i>In Situ</i> Al₂O₃/Al-Si Composites Fabricated in Al-SiO₂ by Reaction Hot Pressing E.O. Mokhnache, G.S. Wang and L. Geng	155
Retarding Bioactivity Effect of Ciprofloxacin Incorporated in Polyvinyl Alcohol/Bioglass Scaffold as Bone Graft S. Boulila, H. Oudadesse, B. Lefevre, K. Chaabouni, F. Makni-Ayedi, P. Pellen, H. El Feki, A. Barroug and A. El Feki	163
