

Table of Contents

Preface

Optimization of Construction Cost Using Industrial Wastes in Alternative Building Material for Walls S. Madhusudanan and L.R. Amirtham	1
Simulation of Various Wall and Window Glass Material for Energy Efficient Building Design K.K. Gorantla, S. Shaik and A.B.T. Puttaranga Settee	9
Engineered Cementitious Composites for Sustainable Construction S. Arundhathy and V. Vasugi	17
Influence of Glazing Types on the Indoor Thermal Performance of Tropical High-Rise Residential Buildings N. Al-Tamimi and A. Qahtan	27
Experimental Studies on Strengthening of Reinforced Concrete Beams Using Ferrocement Wraps for Energy Efficiency M.M. Vijayalakshmi and A. Vijayalakshmi	38
An Overview of Energy Efficient Lighting System Design for Indoor Applications of an Office Building P. Mukherjee	45
Recycling of Fly Ash as an Energy Efficient Building Material: A Sustainable Approach M.A. Kamal	54
Flexural Capacity of Reinforced Concrete Beams Strengthened Using GFRP Sheet after Fatigue Loading for Sustainable Construction R. Djamaluddin, R. Irmawaty and A. Tata	66
Performance Study of Self-Compacting Concrete by Fly Ash and Silica Fume for Sustainability in Building Construction J.R. Thirumal and R. Harish	74
Thermal Performance Evaluation of Green Roofs in Warm Humid Climates: A Case of Residential Buildings in Madurai, India A. Madhumathi, S. Radhakrishnan and R. Shanthipriya	82
Rice Husk Ash as Fine Aggregate Sustainable Material for Strength Enhancement of Conventional and Self Compacting Concrete S.S. Samantaray, K.C. Panda and M. Mishra	94
A Comparative Study on Thermal Insulation Properties of Partial Replacement of Fine Aggregate by E-Waste Material (FR-4) in M₃₀ Grade with Conventional Concrete A.A. Dhanraj and C. Selvamony	104
Innovative Method of Shielding the SS Pipe Carrying Industrial Wastes by Using Self-Compacting Concrete for Sustainable Construction C. Sivathanu Pillai, A.R. Santhakumar and R. Murugan	110
Modelling of Formwork Pressure Using Self-Compacting Concrete by Numerical Methods for Attaining Environmental Sustainability S. Shanmughan and R. Kannan	119
Assessment of Chloride Ion Penetration of Alkali Activated Low Calcium Fly Ash Based Geopolymer Concrete S. Kumar and K. Ramujee	129
