

Table of Contents

Preface

Chapter 1: Steel and Alloys

Mechanical Properties and Microstructure of A356-T6 Aluminum Alloy Wheel Hub Based on Casting-Spinning Process Z.F. Wang, C.X. Ou, M.J. Wang, B.C. Chen and G.X. Fan	3
Effects of Tempering Temperature on the Microstructure and Mechanical Properties of Low Alloy Ultra-High Strength 45CrNiSiMnMoVA Steel H.X. Bi, M.H. Tang, Z.L. Ren and Y. Zhou	11
Research Progress of Effect of Heat Treatment on Microstructure, Phase Transformation Behaviors and Memory Properties in Ti-Ni Based Shape Memory Alloys J.J. Ye, Z.R. He, K.G. Zhang and Y.Q. Du	20

Chapter 2: Materials for Energy Storage, Electronics and Optoelectronics

Research Progress and Application of Modified Silicon-Based Anode Materials for Lithium-Ion Batteries L.F. Ruan, J.W. Wang and S.M. Ying	35
Synthesis of Self-Supporting ZnO Nanowire Array Film and its Optical Property and Room Temperature Ferromagnetism J. Yang, X.Y. Wang, P.K. Li, J.F. Huang and P.H. Deng	45
Study on Spectral Structure and Photoelectric Properties of LED Healthy Light Source M.X. Wang, Q.Q. Zhou, S.Q. Ma, X.Y. Wang, Y.F. Gang and Y. Wang	53
Patterning Method for Nanowire Transparent Conductive Films H.R. Xu and P. Liu	66
Research Progress in Silver Zinc Oxide Electrical Contact Material S.Q. Zhao, M. Xie, J.H. Fang, Y.T. Chen and S.B. Wang	77

Chapter 3: Nanomaterials and Composites

Research and Analysis of Graphene Coatings Based on Knowledge Mapping H.F. Guo, H. Jiang, Y.G. Cai and Z.Q. Zhao	93
Research on Purification Technology of Ultra-Large Flake Graphite Based on Alkali-Acid Method H.F. Guo, B. Chao, Z.Q. Zhao and D. Nan	104
Study on the Effect of Reduction Temperature on the Catalytic Activity of Fe-Mo/Al₂O₃ Catalyst and the Microstructure of Carbon Nanotubes T.Q. Tan, L. Geng, C.L. Yao, Y. Lin and Y. He	114
Preparation and Properties of Straw Fiber/Polylactic Acid Composites K. Chen, X.J. Li, Y.Q. Wu and Y.F. Zuo	122
The Influence of Fe/Al Molar Ratio on Microreactor-Based Catalyst Preparation and Carbon Nanotube Preparation T.Q. Tan, L. Geng, Y. Lin and Y. He	130
Adsorption Properties Graphene-Based Composites on Lead(II) Ions Z.B. Sheng, C.K. Wang, L.Z. Wu, W.L. Jin and S.Y. Song Jin	137
Preparation and Properties of a New Type of Coal Dust Suppressant C. Zhang, X.B. Xu and Q.S. Zhang	145

Chapter 4: Ceramic Based Materials

Research Progress of Preparation and Interfacial Reaction of Ceramic Particles Reinforced Iron-Based Alloy	
D.D. Jiao, Y.P. Bai, J.P. Li, Z. Yang, J. Zhou and K.K. Tian	153
Performance Comparison of Aerospace High-Temperature Resistant Ceramic Fiber Felt	
J.Y. Guo, L.J. Su, C.J. Wu, W.J. Li, J.Y. Yang and L.J. Zhang	168
Stability Analysis of Thermocapillary Convection of B₂O₃/Sapphire Melt in an Annular Pool	
D.M. Mo	175
Effect of Additives on Thermal Conductivity of Si₃N₄ Ceramics	
Z.H. Chen, Q. Gu, W.K. Ma and G.Q. Liu	185

Chapter 5: Cement Materials and Geopolymers

Influence of Uranium on the Hydration Properties of the Cement Clinker Minerals	
L. Du, X. Zhou, L. Li, Y.X. Li and X. Ma	199
Secondary Sintering Cement Clinker in SO₂ Atmosphere: Composition and Structure Effects	
R. Kang, S.H. Ma and X.D. Shen	208
Self-Healing Properties of Ultra-High Toughness Fly Ash Based Geopolymer under Air and Water Environments	
J.B. Huang, G.Y. Xiong and X.L. Guo	214
Synthesis of Belite-Ye'elimite-Ternesite Cement Clinker	
D.P. Ji, S.H. Ma and W.F. Li	223
Hydration Modification of Cement in the Presence of Diethanol-Isopropanolamine	
X.L. Liao, H. Huang, F.Q. He and C.H. Yang	230
Research Progress on the Hydration of Portland Cement with Calcined Clay and Limestone	
J. Tang, S.H. Ma, W.F. Li, H. Yang and X.D. Shen	240
Different Chlorides Attack on the Hydration of Calcium Aluminate Cement at 5~40°C	
Z.P. Wang, Y.T. Chen, X. Peng and L.L. Xu	247
The Influence of Various Gypsum Dosage, Specific Area of Cement and Water Reducers on Bleeding of Fresh Cement Paste Using Low-Field NMR	
Y.L. Ji, Z.P. Sun and M. Pang	255
Effect of Steel Slag on Shrinkage Characteristics of Calcium Sulfoaluminate Cement	
H.R. Huang, Y.S. Liao, S.A. Qunaynah, G.X. Jiang, D.W. Guo and W.J. Yuan	263
Synthesis of Fly Ash-Based Zeolite and its Research Progress in Wastewater Treatment	
X.Y. Li, D.D. Guan, J.Z. Xu and N.Z. Jiang	277
Effect of Styrene-Acrylic Emulsion on Crack Resistance of Cement-Based Materials	
J.P. Mei, H.N. Li and Z.D. Xu	288
Study on the Mechanical Properties and Heavy Metal Ions Immobilization Capability of Solidified Body for MSWI Fly Ash with Geopolymer	
Q. Wang, X.R. Wang, H. Cao, Z.Y. Ding and D.Y. Kong	301
Composition and Analysis of Domestic Patented Sleeve Grouting Material	
G.L. Liu, P. Zhao, L. Qin and H.W. Ren	309
Research on Grouting Materials for Underground Construction Projects	
H.R. Duan, P. Zhao, L. Qin and F.J. Shi	319
Experimental Study on Mechanical Properties and Micro-Mechanism of All-Solid-Waste Alkali Activated Binders Solidified Marine Soft Soil	
Y.L. Wu, J.J. Yang, S.C. Li and M. Wang	327
Performance Optimization of Cement-Fly Ash Grouting Material Based on Response Surface Methodology	
L.L. Wang, X.B. Xu, Q.S. Zhang and S.Y. Li	337

Chapter 6: Concrete

Research Progress on Carbonation Resistance of Alkali-Activated Slag Cement Concrete	
L.F. Zhang, L. Yang, B.H. Fu and Y. Yue	347

Development on the Corrosion of Steel Fiber and Prevention in the Ultra-High Performance Concrete (UHPC) Z.W. Guo, X.Z. Duan, Q. Wang, S.J. Wang and X.L. Guo	358
Application of Advanced Composite Cementitious Materials and High Performance Admixtures in High Performance Shotcrete J.H. Wang	371
Investigation on Electrical Resistance of Chloride Penetration of Alkali Activated Slag Concrete T. Wang, X.M. Wan, Q. Yu, Z.T. Sun and X. Han	378
Influence and Mechanism Analysis of Particle Size Distribution of Multi-System Mineral Admixture on Concrete Performance F.X. Cheng, Y. Liu, J. Xiao, X.X. Deng and H.L. Wang	386
Research on the Influence of Water Storage Medium on early Planting Performance of Portland Cement Foamed Concrete X. Li and T. Wang	395
Effect of All-Component Recycled GFRP on Physical-Mechanical Properties and Microstructures of Concrete B.Y. Zhou, M. Zhang and G.W. Ma	402
Influence of Glass Powder on Rheological Properties of Ultra-High Performance Concrete Paste X.L. Nan, J.R. Ji, R.Y. Li, Y. Wang, H. Chen and W.B. Tang	419
Misestimation of the ITZ Thickness around Non-Spherical Aggregates M.Q. Li and H.S. Chen	432

Chapter 7: Pavement and Insulation Materials

Preparation and Analysis of External Walls with the Phase Change Facing Tile for Energy Savings Y. Deng, Y.F. Ding and Y.C. Zhao	445
Compatibility and Storage Stability of Asphalt Binder Modified by Styrene-Butadiene-Styrene (SBS) Graft Copolymer H.G. Zhang, Q.H. Zhang, X.T. Wang, H. Tan, L.N. Gao and D.W. Cao	459
