

# Table of Contents

## Preface and Committee

## Chapter 1: Materials Science and Materials Engineering

<b>Lightweight Gypsum-Based Material, Foamed by Lime Dust and Acid Agent</b> M. Nazmunnahar and A. Vimmrova	3
<b>Experimental Researches of Fe-Cr Alloys and Cu-Zn Alloys Used for Microsurgical Instruments Manufacturing</b> D.I. Băilă and M. Gheorghe	9
<b>First-Principle Study on the Structural Phase Transition, and Electronic Structures of Cobalt under Pressure</b> H.B. Zhu, D.Q. Tan and Z.H. Xiong	15
<b>A New Pre-Treatment with Phosphoric Acid and Hydrofluoric Acid of Electroless Ni-P Plating on Mg Alloy</b> Z.H. Xie, J.L. Zhou, S.R. Xiang and F. Chen	21
<b>SEM-EDS Analysis of Composite <math>\text{Al}_2\text{O}_3\text{-ZrO}_2</math> Ceramics Eroded with SiC Particles</b> K. Grilec, L. Curkovic, M. Majic Renjo, S. Jakovljevic, M. Sakoman and M. Sladojevic	27
<b>Research of Soldering Silicon Substrate with Solder Type Sn-Ag-Ti</b> R. Koleňák and M. Prach	32
<b>Surface-Crosslinked Guar Gum-g-Sodium Polyacrylate Superabsorbents: Swelling Characteristics and Mechanics Performance</b> Y. Xiong, X. Zhang and M.Z. Liu	39
<b>The Study of Cement Composites with Inbuilt Hazardous Waste</b> B. Dohnalkova, R. Drochytka, J. Hodul and J. Hodna	47
<b>Selected Properties of Fiber Concrete after Heat Loading</b> J. Válek and P. Novosad	52
<b>Verification of the Possibility of the Use of Secondary Raw Materials of Tubular Solar Panels as Fillers of Polymer Industrial Floors</b> J. Hodná, V. Petranek and B. Dohnalkova	58
<b>Heat Resistance Increase of Chromium Cast Iron by Modifying</b> M. Levin and E. Ten	64
<b>An Investigation about Welding Parameters of Polypropylene Matrix Composite</b> U. Huner and E.S. Erdogan	67
<b>Review the Research Trends and Application in Car Body of Aluminum Foam</b> C.C. Ma and F.C. Lan	73
<b>L-Proline-Catalyzed Synthesis of Amino Thiazoles</b> Z.J. Li, D.M. Lu, L. Guo and Q.L. Zeng	79
<b>Synthesis of <math>\alpha</math>-Hydroxy Amides</b> D.M. Lu, Z.J. Li, F.J. Li and Q.L. Zeng	83

## Chapter 2: Applied Mechanics

<b>Multi-Objective Optimization of Stacking Sequences for Laminated Composite Beams by Genetic Algorithm</b> F. Karaçam and T. Timarci	89
<b>Research Progress and Prospects for Vehicle Dynamic Stability Parameters</b> X. Liu, W. Liu and Y.F. Zhao	95
<b>Review of Research Progresses in Unsteady Aerodynamic Model</b> X. Liu, W. Liu and Y.F. Zhao	101
<b>Increase Pressure and Homogeneity of Die Castings from EN AC 47100 Alloy</b> S. Gaspar and J. Pasko	108
<b>Measurement of Physical and Mechanical Properties of High-Speed Heated Casting Cores</b> I.N. Erdakov, V.V. Novokreshchenov, V.M. Tkachev and R.D. Gabbasov	114

<b>The Formation of Cracks in Cast-Iron Molds during the Casting of Zinc Blocks</b> M.A. Ivanov	119
<b>Experimental Determination of Thermal Kinetic Parameters in Case Study of Tubes with Smooth and Structured Surface</b> M. Kubín and J. Hirš	125
<b>Carrying Capacity Analysis and Numerical Simulation of Steel Reinforced Concrete Based on ANSYS</b> X.S. Luo, C. Gan and M. Xu	129
<b>The Current State-of-the-Art in the Field of Material Models of Concrete and other Cementitious Composites</b> F. Hokes	134

### **Chapter 3: Manufacturing and Mechanical Engineering**

<b>The Research on Thermal-Mechanical Coupled Analysis and the Lightweight Design of Engine Exhaust Valve</b> Z.Y. Deng, F.C. Lan, W. Huang, H. Guo and P.H. Chen	143
<b>Simulation of Lateral Extrusion of Spline Form Based on the Software DEFORM-3D</b> T. Altinbalik, S. Bingöl and Ö. Ayer	149
<b>Artificial Neural Network Modeling of Injection Upsetting Load Prediction</b> Ö. Ayer, S. Bingöl and T. Altinbalik	155
<b>Study on Energy Balance of Three-Cylinder HCPE</b> H.X. Zhang, F.S. Han, P. Shu and Y.Z. Ma	161
<b>Structure Principle and Property of Internal Combustion Stove</b> H.X. Zhang, F.S. Han, P. Shu and Y.Z. Ma	165
<b>Simulation Analysis and Experiment Research on Vehicle Interior Adaptive Active Noise Control System</b> J.G. Jiang and Y. Zeng	169
<b>A New Steering-by-Wire System Driving by Electric Wheels</b> P.X. Zhang, L. Gao and Y.Q. Zhu	175
<b>Failure Investigation of the Disc Harrow Profiles and Redesigning by CATIA Analysis</b> G. İrsel, T. Altinbalik and Y. Can	181
<b>The Research Progress of Intra-Row Mechanical Weeding Technology of Dry-Land</b> H.C. Wang and J. Tong	187

### **Chapter 4: Computational Methods and Information Technologies**

<b>The Cloud Computing and the Application of Cloud Computing in the Telecommunication Enterprise</b> J.N. Yang, J.K. Yang and K. Lin	195
<b>Signal Processing and Engineering Application of Ground Penetrating Radar (GPR) Based on Multi-Wavelet Transformation</b> Z.L. Shu, S. Huang, B.X. Liu and K. Xu	199
<b>A Complicated Transfer Design Method Based on Particle Swarm Optimization</b> X.L. Yao and Y.N. Wang	208
<b>Numerical Solution of the Nonlinear Wave Equation via Fourth-Order Time Stepping</b> M.A. Lahiji and Z.A. Aziz	213
<b>Solutions for a Class of the Higher Diophantine Equation</b> X.F. Kang	220
<b>Decreasing of Thermal Losses of the Light-Weight Building Envelope</b> T. Zhilina	224
<b>Research on Scales Reflecting Cup Based on Scheme Macro Language Programming</b> Z.Q. Huang, L.P. Huang and L.D. Zhao	228
<b>The Cooling Principle of the LED Finned Radiator and its Heat Dissipation Theory Analysis</b> K. Li, J.M. Liu and X. Zhang	234
