

# Table of Contents

## Preface, Conference Committee

## Chapter 1: Biomaterials and Medicinal Chemistry

<b>Proteome Analysis of Colorectal Cancer Cell Line SW480 Released Extracellular Vesicles</b> I. Nakurte, K. Jekabsons, E. Zandberga, A. Abols, A. Line and R. Muceniece	3
<b>Anti-Bacterial Activity and Online HPLC-DPPH Based Antiradical Kinetics of Medicinal Plant Extracts of High Relevance for Cosmetics Production</b> D. Džabijeva, A. Boroduske, A. Ramata-Stunda, N. Mazarova, V. Nikolajeva, M. Boroduskis and I. Nakurte	8
<b>Characterization of Hydrothermal Processing Influence on Strontium Substituted Apatite by Investigating Stable Oxygen Isotope Ratio and Antibacterial Activity of Obtained Peroxyapatite</b> V. Valkovska, A. Osīte, L. Busa and V. Nikolajeva	14
<b>Study on Synthesis of N-Protected 2-Triazolyl Azetidines</b> V. Peipiņš, K. Suta and M. Turks	19
<b>Synthesis of Tetrahydroindazole-Triazole Conjugates and their Derivatization by the Ritter Reaction</b> K. Greitāns, D. Rībena and M. Turks	25
<b>Extracts of Peppermint, Chamomile and Lavender as Antioxidants</b> I. Mieriņa, L. Jakaite, S. Kristone, L. Adere and M. Jure	31
<b>Novel Ciprofloxacin Derivatives for Polymer-Based Drug Delivery Systems</b> T. Gerasimova, V. Rjabovs and M. Turks	36
<b>Hydrothermal Processing for Increasing the Hydroxyl Ion Concentration in Hydroxyl Depleted Hydroxyapatite</b> D. Ūbele, L. Pluduma, K. Gross and A. Viksna	42
<b>Production and Characterization of Oxyhydroxyapatites</b> L. Pluduma, K. Gross, C. Rey, A. Ubelis and A. Berzina	48
<b>Hydroxyapatite/Polyvinyl Alcohol Composite Hydrogels for Bone and Cartilage Tissue Engineering</b> A. Timofejeva and D. Loca	54

## Chapter 2: Materials and Technologies for Waste Recycling and Environmental Engineering

<b>Problems with Fat, Oil, and Grease (FOG) in Food Industry Wastewaters and Recovered FOG Recycling Methods Using Anaerobic Co-Digestion: A Short Review</b> E. Klaučans and K. Sams	61
<b>Interaction of Oily Water with Floating Porous Ceramic and Immobilized Microorganisms</b> A. Bērziņš, O. Mutere, R. Švinka and V. Švinka	69
<b>Evaluation of Glyphosate Ecotoxicity and Biodegradability in the Municipal Wastewaters</b> T. Birsa, K. Kalneniece, M. Jansons, M. Kalniņš, I. Ozoliņa, A. Bērziņš, V. Švinka, R. Švinka, V. Bartkevičs and O. Muter	75
<b>Optimization of the Adsorption Process of Bezaktiv Turquoise Blue «VG» Textile Dye onto Diatomite Using the Taguchi Method</b> H. Aguedal, A. Iddou and J. Locs	81
<b>Activated Carbon Design from Sludge to Remove Red Scarlet Nylosan “F3GL” in Aqueous Solution</b> F. Bensalah, A. Iddou, H. Hentit, A. Aziz and A. Shishkin	87
<b>Bioremoval of Lead (II) and Cadmium (II) in Single and Multicomponent Systems Using <i>Penicillium</i> sp.</b> H. Khodja, A. Iddou, H. Aguedal, A. Aziz and A. Shishkin	93
<b>Impact of Biomass Derived Raw Material on Nitrogen Doped Porous Carbon Structure</b> A. Plavniece, A. Zhurinsh, G. Dobeles and A. Volperts	99

<b>Synthesis of Symmetric Ethers Using Monocationic and Dicationic Acidic Ionic Liquids</b>	104
A. Eglīte, L. Pudnika, M.A. Balode and A. Priķšāne	
<b>Multilayer Adsorption of Purple NR5 Industrial Dye by <i>Aristeus antennatus</i> Shell in Aqueous Solution</b>	109
H. Benchekor, A. Iddou, H. Hentit, A. Aziz and J.S. Piccin	
<b>Pelletizing of Bark Residue Resulting from Debarking of Softwood Trees</b>	115
A. Andersone, A. Arshanitsa, V. Solodovniks and V. Kampars	
<b>Sustainable Utilization of Sewage Sludge: Review of Technologies</b>	121
A. Stunda-Zujeva, I. Kreicbergs and O. Medne	

## Chapter 3: Biotechnologies

<b>Production of Biodiesel and Triacetin by Interesterification of Rapeseed Oil</b>	129
K. Māliņš, V. Kampars, R. Kampare, Z. Sustere and A. Arenta	
<b>Growing and Drying <i>Spirulina/Arthrospira</i> for Producing Food and Nutraceuticals: A Review</b>	134
A. Stunda-Zujeva and K. Ruģele	
<b>Fast Pyrolysis of Rapeseed Oil in Presence of CuO Supported SBA-15 Catalysts</b>	141
V. Kampars, S. Žīriņa, A. Stanke and M. Roze	
<b>Suppression of Phyllospheric Microbiota Alters Content of Pharmacologically Relevant Compounds of <i>S. nigra</i> Flowers</b>	146
A. Boroduske, I. Nakurte and N. Rostoks	
<b>Stability Studies of Bioactive Compounds from Birch Outer Bark Ethanolic Extracts</b>	152
D. Godiņa, A. Paze, J. Rizhikovs, K. Stankus, I. Virsis and I. Nakurte	
<b>Competitive Interesterification-Transesterification of Rapeseed Oil with Methyl Acetate in Presence of Potassium Metoxide Solutions</b>	158
E. Sile, V. Kampars and Z. Sustere	
<b>Optimization of Proanthocyanidins Extraction from Bark of Local Hardwood</b>	163
S. Janceva, L. Lauberte, J. Akishin, A. Arshanitsa, T. Dizhbite and G. Telysheva	

## Chapter 4: Polymers and Composites

<b>Synthesis and Thermal Properties of Azobenzene Core Polyester Dendrimers with Trityl Groups at the Periphery</b>	171
L. Laipniece and V. Kampars	
<b>Hydrophilic-Hydrophobic Characteristics of Wood-Polymer Composites Filled with Modified Wood Particles</b>	176
J. Jaunslavietis, G. Shulga, J. Ozolins, B. Neiberte, A. Verovkins, S. Vitolina and T. Betkers	
<b>Water as Significant Factor Having Influence on Composite Material Properties Based on Scrap Tyres and Polyurethane Binder</b>	182
L. Malers and R. Kurme	
<b>A Study on Acidification and Intercalation of Illite Clay Minerals and their Potential Use as a Filler in SPEEK Composite Membranes</b>	186
A. Trubača-Boginska, R. Ādiņa, G. Vaivars and J. Švirksts	
<b>Effect of Algerian Halloysite on the Mechanical and Thermal Properties of Starch-Grafted-Polyethylene Nanocomposites</b>	192
W. Fermas, R. Merijs Meri, M. Kaci and J. Zicans	
<b>Polyols from Condensed Tannin Enriched Extracts for Rigid Polyurethane Foam Production</b>	197
L. Vevere, S. Janceva, A. Arshanitsa and G. Telysheva	
<b>Development and Characterization of Novel Conductive Nanofiller Based on Multi-Walled Carbon Nanotubes Grafted with Poly(3,4-Ethylenedioxythiophene)</b>	203
G. Vugule, I. Reinholds, J. Zicans, R. Merijs Meri and K. Ozols	
<b>On PEO-Based MWCNT and Graphene Composite Electrolyte Structure</b>	209
A. Jurkane and S. Gaidukov	
<b>Secondary Insulating Glass Sealant from Synthesized Mercapto Terminated Prepolymer Based on Polyether Polyol and Castor Oil</b>	215
R. Berzins, R. Merijs Meri and J. Zicans	

<b>Hydration Behaviour of Sulfonated Polyetheretherketone (SPEEK) Membranes</b>	220
K. Veldre, E. Sala, E. Āboltiņa and G. Vaivars	
<b>Rheological Properties of Wood-Plastic Composites Based on Polypropylene and Birch Wood Plywood Production Residues</b>	226
J. Kajaks, K. Kalnins and J. Matvejs	

## Chapter 5: Materials and Technologies for Opto- and Microelectronics

<b>Photoinduced Anisotropy of IWK-2D Azobenzene Molecular Glassy Films</b>	233
A. Ozols, E. Letko, P. Augustovs, D. Saharov, E. Zarins and V. Kokars	
<b>Comparison of Luminescent Properties in Solid-State and Polymer Films of Eu(III) Complexes Containing 2-Acylindandione Ligands</b>	239
I. Malina and V. Kampars	
<b>Electrical Dielectric Permittivity and Conductivity Analysis of Poly(N-Carbazole) (PVK) Blending with Polyvinylpyrrolidone (PVP)</b>	244
A.N. Alias, Z.M. Zabidi, N. Ramlee, Y. Yaacob, S.H.N. Alshurdin, A.M.M. Ali and M.Z.A. Yahya	
<b>Charge Transport Layer Doping Influence on Perovskite <math>\text{CH}_3\text{NH}_3\text{PbI}_{3-x}\text{Cl}_x</math> Solar Cell Performance</b>	249
A. Ivanova, K. Lebedeva, A. Tokmakov, M. Roze and I. Kaulachs	

## Chapter 6: Functional Ceramics and Metal Oxides

<b>Characteristics of Sintered Materials Obtained from Ferrite Nanopowders Synthesised with Different Methods</b>	257
I. Zālīte, G. Heidemane, A. Krumina, D. Rašmane, J. Grabis and M. Maiorov	
<b>Surfactant Effect on the Synthesis of Mesoporous <math>\text{TiO}_2</math>-<math>\text{SiO}_2</math> Coatings Using Sol-Gel Technology</b>	263
M. Karpe	
<b>Common and Different in Latvian Clay Minerals</b>	268
O. Lescinskis, R. Švinka and V. Švinka	
<b>Sol-Gel Synthesis of <math>\text{SnO}_2</math>-<math>\text{TiO}_2</math> System - Morphologic, Photocatalytic and Antibacterial Properties</b>	273
A. Zukuls, G. Mežinskis, A. Reinis, I. Skadins, J. Kroica and R. Durena	
<b>Morphologic, Photocatalytic and Antibacterial Properties of <math>\text{ZnO}</math>-<math>\text{TiO}_2</math> Sol-Gel System</b>	278
A. Zukuls, G. Mežinskis, A. Reinis, I. Skadins, J. Kroica, I. Staſecka and R. Durena	
<b>Preparation of Au, Pt, Pd and Ag Doped <math>\text{TiO}_2</math> Nanofibers and their Photocatalytic Properties under LED Illumination</b>	283
R. Drunka, J. Grabis and A. Krumina	
<b>Phase Composition and Morphology of Tungsten Oxide Nanoparticles Produced via a Pyrolytic Process</b>	288
V. Serga, D. Zablotsky, A. Krumina, M. Lubāne and G. Heidemane	
<b>Au Supported <math>\text{TiO}_2</math>-Nanofibers as Novel Catalysts for Glycerol Oxidation</b>	294
S. Chornaja, R. Drunka, K. Dubencovs, S. Zhizhkuna, D. Jankovica, J. Kunakovs, A. Krumina and E. Sile	
<b>Influence of Technological Parameters on Thermal Properties of Cordierite Ceramics</b>	300
M. Rundans, G. Sedmale, A. Krumina and A. Ivdrē	
<b>Characterization of <math>\text{Fe}_2\text{O}_3</math>-<math>\text{TiO}_2</math> Thin Films Prepared from Sonicated and Unsonicated Sols</b>	306
G. Mežinskis, D. Larionova and L. Grase	
<b>Catalytic Pyrolysis of Wood by Presence of Clay Minerals</b>	311
R. Švinka, V. Švinka, O. Lescinskis and L. Lindina	
<b>Synthesis of Nanoporous <math>\text{SiO}_2</math> Based Ceramic Materials via Sol-Gel Technology</b>	317
M. Karpe	

## Chapter 7: Steels and Alloys, Processing Technologies

<b>Revealing the Inhibition Efficiencies of Artesunate and Rutin for Corrosion of Steel: A Theoretical Study</b>	
G. Gece	325
<b>2D Computational-Numerical Hardness Comparison between Fe-Based Hardfaces with WC-Co Reinforcements for Integral-Differential Modelling</b>	
F. Casesnoves	330
<b>A Study on Friction Stir Welding Process for AA2219/AA2195 Joints</b>	
H.S. Lee, K.K. No, J.T. Yoo and J.H. Yoon	339
<b>A Study on Solid State Welding of Aerospace Materials</b>	
H.S. Lee, J.H. Yoon and J.T. Yoo	343

## Chapter 8: Building Materials

<b>Effect of Various Additives and Aeration on the Properties of Lightweight Concrete</b>	
G. Sahmenko, E. Namsone, K. Rubenis, A. Dubnika and G. Niparts	351
<b>Hydration of Cement Minerals in a Hydraulic Dolomitic Binder</b>	
I. Kirilovica, I. Vitina and L. Lindina	356
<b>Effect of the Fibre Type on the Rheological and Mechanical Properties of Cementitious Composites for Thin Overlays</b>	
A. Lukasenoks, R. Cepuritis and A. Krasnikovs	362
<b>Determination and Toxicology Studies of Quaternary Ammonium Salts in Solution after Organoclay Processing</b>	
M. Pals, I. Putna-Nimane, J. Kostjukovs, J. Karasa, S. Kostjukova and I. Nakurte	368

## Chapter 9: Textile and Clothing Technology

<b>Studies on the Properties of Raw Flax and Hemp Fibres after Two Step Initial Treatment</b>	
A. Bernava and S. Reihmane	375
<b>Evaluation of Antibacterial Properties of Flax Textiles Coated by Sol-Gel Technology</b>	
S. Vihodceva	380
<b>One-Bath Dyeing Technology for Cotton Blended Fabric - Part 1: Elaboration of a Dyebath Content</b>	
A. Borisova	385
<b>One-Bath Dyeing Technology for Cotton Blended Fabric - Part 2: Assessment of Colouration Effectiveness</b>	
A. Borisova	390
<b>Application of Additional Coating for Conductive Yarns Protection against Washing</b>	
N. Baribina, I. Baltina and A. Oks	396
<b>Comfort in Sportswear</b>	
I. Ziemele, I. Sroma and A. Kakarāne	402
<b>Photocatalytically Active Cotton Fabrics Produced with Anatase Synthesized Using a Low-Temperature Sol-Gel Process</b>	
R. Eglītis and G. Mežinskis	408
