

Table of Contents

Preface

Chapter 1: Steel and Alloys

Effects of Minor Elements Additions to the Nanocrystalline FeAl Alloy Produced by Powder Metallurgy Z. Hamlati, F. Otmane, H. Mechri, W. Laslouni and M. Azzaz	3
Analysis of Peritectic Transformation Contraction of 304 Stainless Steel Using Surface Roughness J.L. Guo, G.H. Wen, P. Tang and J.J. Fu	10
Friction Characteristics of Surface Nitriding Modification Layer of Ti-6Al-4V ELI Titanium Alloy in Seawater Environment X.S. Lao, X.F. Zhao, Y. Liu, C.H. Dai and W.J. Lyu	18
Study on Surface Structure and Properties of Titanium Alloy Modified by Ion Nitriding Y. Liu, X.S. Lao, C.H. Dai and S.W. Yao	24

Chapter 2: Materials in Construction

Performance Assessment on Porous Paving Made with Fly Ash as Landscape Architecture Element in Bandung Urban Area S.H. Krisanti and E. Triningsih	31
Shear Characteristics between FRP-Concrete Bonding Interface B. Qian, L. Zhang, Y. Ma and X.L. Kong	39
Research on the Feasibility of Concrete Incorporating Water Purification Sludge C.H. Wu, H.S. Peng and H.J. Chen	47
Contemporary Architecture Design of Clay Material-Ecological Alternatives for Individual Houses in the Sahara Desert M.Y. Benyoucef	57
Influence of Alkali Treatment and Fiber Content on Mechanical Properties of Pineapple Leaf Fiber (PALF)-Reinforced Cement-Based Composites via Full Factorial Design C.D.H. Esper and H.A.R. Canseco	65
Evaluation of Fresh Properties and Rheology of Mortar Using Carbon-Free Fly Ash and Normal Fly Ash G. Nazari, S. Yamanaka and S. Date	76

Chapter 3: Chemical Technologies in Environmental Engineering and Textile Production

Utilization of Spent Coffee Ground Oil in Eco-Friendly Scouring and Reactive Dyeing Processes for Cotton K. Seemork, J. Setthayanond, P. Suwanruji and P. Tooptompong	85
Screening of Metal Oxides to Promote CO₂ Adsorption Performance over Polyethyleneimine Incorporated Solid Adsorbents Y. Meng, X.Y. Wu, Y.X. Yan, S. Liu, T. Wu and C.H. Pang	93
Response Surface Optimization of Graphene Oxide-Reinforced Dual-Crosslinked Alginate/Poly(Vinyl Alcohol) Hydrogel Beads for Methylene Blue Adsorption M.L.K.S.J. Celebre, M.L.P. Dalida and J.V.D. Perez	101
Fabrication and Characterization of PVDF/UiO-66(Zr) Mixed Matrix Membrane on Non-Woven PET Support J.R. Cementina, M.V. Torres, D.P. Bernabe, S. Lirio, M.B.M.Y. Ang and A.R. Caparanga	108
Development of Dyeing Process for Sulphatoethylsulphone Reactive-Disperse Dye on Natural and Synthetic Fibers J. Pukngam, P. Tooptompong, J. Setthayanond and P. Hansakulwat	116

Aroma Finishing and Pigment Printing of Thai Silk Fabric by 1-Step All-In Printing Process	
J. Setthayanond and P. Lim	123
Utilization of Graphite Rods from Waste Batteries to Produce Graphene Solvent for Augmented Mechanical Strength of Papers and Boards	
M.F. Lacsado and C. Lawagon	131

Chapter 4: Materials and Technologies of Additive Manufacturing

Investigation on the Effects of Acetone Vapor-Polishing to Fracture Behavior of ABS Printed Materials at Different Operating Temperature	
B.J. Tuazon, M.T. Espino and J.R.C. Dizon	141
3D Printed Injection Molds Using Various 3D Printing Technologies	
J.R.C. Dizon, A.D. Valino, L.R. Souza, A.H. Espera, Q. Chen and R.C. Advincula	150
Assessment of Interfacial Adhesion of Adhesively Bonded 3D-Printed Thermoplastics	
R.N.M. Delda, B.J. Tuazon and J.R.C. Dizon	157
Application of Taguchi Methodology in Evaluating the Rockwell Hardness of SLA 3D Printed Polymers	
M.T. Espino, B.J. Tuazon, G.S. Robles and J.R.C. Dizon	166
