

Table of Contents

Preface

Chapter 1: Steel, Alloys and Intermetallic Compounds

Modelling of Mechanical Properties of Pearlitic Rail Steel P. Boonsukachote, S. Kingklang and V. Uthaisangsuk	3
Effect of Boron Addition and Sintering Atmosphere on Precipitation in Sintered Fe-Mo-C Steels N. Tosangthum, P. Kunnam, M. Morakotjinda, W. Koetniyom, R. Krataitong, P. Wila and R. Tongsi	9
The Quality Improvement of Molten Aluminium Alloy in Melting Process by Stirring Process and the Degassing Technique J. Tempiamwatcharothai, K. Sirivedin, P. Mungsantisuk and S. Thuanboon	17
Influence of Pre-Stretching Levels on the Forming Limit Strain and Stress Curves of High Strength Steel Sheet K. Laokor, B. Chongthairungruang and S. Panich	25
Application of Ultrasonic Inspection for Microstructure Analysis of Stainless Steel Grade 304L K. Sojiphan, P. Wangsupangkul and T. Chailampangsaksakul	32

Chapter 2: Biomedical Materials

Association between Extracellular Matrix Accumulation and Oxidative Stress-Induced Apoptosis in Chondrocytes Cultured on 3D-Porous Scaffolds in Static versus Dynamic Cultures T. Lertwimol, P. Sonthithai, W. Kosorn, M. Wongcumchang and W. Janvikul	41
Shear Bond Strength of Resin Cement to Saliva-Contaminated Metal Alloys after Various Surface Treatments A. Surintanasarn and N. Thamrongananskul	47
A Study of Sericin-Thunbergia Laurifolia Electrospun Fibre for Wound Healing Applications P. White, S. Chooprajong and P. Pankaew	53
Effect of Heat Treatment on Mechanical and Setting Properties of TTCP-Based Calcium Phosphate Cement K. Pooput, K. Sedchaicharn, A. Phuchamnong and W. Petcharoen	59
Tissue Integrated 3D Printed Porous Polyethylene Implant J. Suwanprateeb	65
In Vitro Resorbability of 3D Printed Hydroxyapatite in Two Different pH Buffered Solutions F. Thammarakcharoen, P. Palanuruksa and J. Suwanprateeb	71
Dual-Curing Polylactide for Resorbable Bone Cement S. Channasanon, P. Kaewkong and S. Tanodekaew	77
A Comparative Study of Granular Agglomeration between 3D Printed Hydroxyapatite and Commercial Bone Graft Granules F. Thammarakcharoen, A. Yampakdee, B. Buranawat and J. Suwanprateeb	83

Chapter 3: Materials for Energy Storage and Sensors

Physical and Electrical Property of TiO₂ Nanotube Arrays for Supercapacitors S. Chumphongphan	91
The Interconnected Open-Channel Highly Porous Carbon Material Derived from Pineapple Leaf Fibers as a Sustainable Electrode Material for Electrochemical Energy Storage Devices S. Kingsakklang, S. Roddecha and M. Sriariyana	97

Room Temperature Gas Sensor Based on Helical Carbon Coils

U. Pakdee, P. Phunudom, S. Nantakarat, A. Thaibunnak, P. Roipromma, S. Rungruang, P. Prajansri and G. Chaloeipote

105

Chapter 4: Tribology, Surfaces and Coatings

Impact of Oil Additive Characteristics on Biofuel Engine Wear Using Electron Microscopy and Confocal Microscopy

P. Rungsritanapaisan, P. Karin, D. Tanprayoon, R. Tongsri and K. Hanamura

113

Structure and Oxidation Behavior CrN Thin Films Deposited Using DC Reactive Magnetron Sputtering

A. Buranawong and N. Witit-Anun

122

Effect of SiO₂ Contents in TEOS-SiO₂-OTES Hybrid Coating on Glass

K. Tapasa, U. Pantulap, B. Petchareanmongkol and W. Kaewdang

128

Optical Transparent and Hydrophobic Properties of TEOS/OTES Hybrid Materials by Sol-Gel Processing

U. Pantulap, B. Petchareanmongkol, W. Kaewdang and K. Tapasa

134

Tribological Properties of Sintered Graphite-Steel Composites Containing Lignite Bottom Ash

C. Auechalitanukul, R. McCuiston, C. Saorerk, T. Limsombutan and E. Jindajia

140

Effect of Waste-Derived Calcium Sulfate Additions on the Tribological Properties of Sintered Steel-Based Material

C. Auechalitanukul, R. McCuiston, T. Sukantowong, W. Wachirapanee and T. Surmpakdeekul

146

Structure and Morphology Study of Very Thin TiCrN Films Deposited by Unbalanced Magnetron Co-Sputtering

C. Paksunchai, C. Chantharangsi, S. Denchitcharoen, S. Chaiyakun and P. Limsuwan

152

Surface Morphologies and Durability on Water Contact Angle of Titanium Dioxide Nanoparticle Thin Films

B. Toboonsung

158

Effect of Substrate-Target Distance on the Structure of TiCrN Films Deposited from Mosaic Target by Reactive DC Magnetron Sputtering

N. Witit-Anun and A. Buranawong

163

Determination of Internal and External Surface Area of Atomistic Porous Carbons

P. Phadungbut, C. Bunsaksit, K. Dachdecho and C. Kedtip

169

Chapter 5: Functional Ceramics

Effect of Binder Content on the Slip Rheology and Green Properties of Slip Cast Alumina

K. Somton, P. Laoratanakul and R. McCuiston

177

Effect of Ferric Oxide Nanoparticles Incorporation on Structure and Electrical Properties of Modified BNKT Ceramics

P. Jaita, S. Manotham, K. Sanjoom, N. Lertcumfu and T. Tunkasiri

182

Mechanical and Electrical Properties of La³⁺ Modified BNKZT Ceramics

P. Butnoi, S. Manotham, P. Jaita and T. Tunkasiri

188

Preparation and Characterization of Ceramic Waste-Based Geopolymer Ceramic Composites for Substrate Culture Application

K. Kaewapai, N. Lertcumfu, P. Jaita, S. Manotham, T. Tunkasiri, P. Malasri and G. Rujijanagul

194

Synthesis and Characterizations of Y-Doped BaCeO₃ Ceramic for Use as Electrolyte in Solid Oxide Fuel Cell

W. Somkhuan, P. Butnoi, P. Jaita, N. Lertcumfu, G. Rujijanagul and T. Tunkasiri

200

Glass Batch Modification to Improve the Weathering Resistance in Soda-Lime Silicate Glass

E. Meechoowas, P. Jampeerung, K. Tapasa, U. Pantulap and T. Jitwatcharakomol

206

Effect of Sintering Temperature on Mechanical and Electrical Properties of Lead-Free Bi_{0.5}(Na_{0.4}K_{0.1})Ti_{0.98}Zr_{0.02}O₃ Piezoelectric Ceramics

P. Butnoi, S. Manotham and T. Tunkasiri

212

Fabrication of Li_{0.06}(K_{0.5},Na_{0.5})_{0.94}NbO₃ Nanofibers by Electrospinning Technique

S. Wongsaenmai and T. Soitong

218

Characteristic and Preparation of TiO₂/PVP Nanofiber Using Electrospinning Technique	223
T. Soitong and S. Wongsaeenmai	
Influence of Thermal Treatment Temperature on Phase Formation and Bioactivity of Glass-Ceramics Based on the SiO₂-Na₂O-CaO-P₂O₅ System	229
P. Kantha, N. Barnthip, K. Pengpat, T. Tunkasiri and N. Pisitpipatbsin	
Influence of Mechanical Activation on the Phase Formation in the Synthesis of Cordierite from Talc and Andalusite	235
C. Vairojanakit and S. Sinchai	
Effects of Bituminous Coal Ash Addition in Pottery Products	242
Y. Wonghom, S. Nilpairach, C. Mongkolkachit, T. Pornphatdetaudom and T. Wasanapiarnpong	
Characterization and Properties of Lampang Kaolinite Clay for Standard Clay	248
S. Mulinta and S. Thiansem	
Effects of SnO₂-SiO₂-MgO-Bi₂O₃-Y₂O₃ Additions on Liquid Phase Sintering Silicon Nitride	254
S. Wattanarach, S. Nilpairach, C. Mongkolkachit, T. Pornphatdetaudom and T. Wasanapiarnpong	
Improvement of the Electrical Properties in Ba(Ti_{0.92}Sn_{0.08})O₃ Lead-Free Ceramics by Ca Addition and Sintering Profile	258
P. Bomlai and N. Kongthong	

Chapter 6: Polymers and Composites

The Effects of Replacement Metakaolin with Diatomite in Geopolymer Materials	267
S. Thammarong, N. Lertcumfu, P. Jaita, S. Manotham, T. Tunkasiri, N. Pimpha and G. Rujijanagul	
The Effects of Biochar Additive on the Properties of Geopolymer Materials	273
P. Khamlue, N. Lertcumfu, P. Jaita, S. Manotham, T. Tunkasiri, P. Malasri and G. Rujijanagul	
A Case Study of Recycled Poly(Lactic Acid) Contaminated with Petroleum-Based Thermoplastics Used in Packaging Application	279
P. Patanathabutr, P. Soysang, P. Leuang-On, P. Kasetsupsin and N. Hongsriphan	
Preparation and Properties of Composite Films from Poly(Butylene Succinate), Poly(Butylene Adipate-co-Terephthalate) and Zeolite	285
N. Hongsriphan, N. Viratchaiboot, P. Indrasook and S. Hanbuakaeo	
Poly(Butylene Succinate) and Recycled Poly(Ethylene Terephthalate) Blends Adding GMA as Compatibilizer: Mechanical Properties and Chemical Resistance to Household Chemicals	291
N. Hongsriphan, S. Samangain, Y. Siriteeraphan and N. Yangcheeypyuenyoodee	
Effect of ZrO₂ and MgO Addition on Structure, Mechanical and Thermal Properties of Metakaolin-Based Geopolymer Composites	298
R. Wongmaneerung	
Effect of Poly(Vinyl Alcohol) on Thermoelectric Properties of Sodium Cobalt Oxide	304
C. Oopathump, D. Boonthuma and S.M. Smith	
Hydroxylated Natural Rubber Effect on Crystallinity and Mechanical Properties of PLA	310
N. Triampanichkul and P. Boochathum	
Effect of Alternative Fillers on the Properties of Rubber Compounds	316
W. Khongwong, N. Keawprak, P. Somwongsa, D. Tattaporn and P. Ngernchuklin	
Injection Moldable Poly(Lactic Acid)-Poly(Butylene Succinate)-Activated Carbon Composite Foams: Effects of PLA/PBS Ratios	322
K. Hrimchum, D. Aussawasathien and T. Kajornprai	
Effect of Alumina Addition on the Rheological Behavior of Shear Thickening Fluids	331
N. Nuampakdee, S. Sinchai and C. Gamonpilas	
Dynamic Vulcanization of NR/PCL Blends: Effect of Rotor Speed on Morphology, Tensile Properties and Tension Set	337
C. Thongpin and T. Tanprasert	
The Effect of Poly(Butylene Adipate-co-Terephthalate) on Crystallization Behavior and Morphology of Poly(3-Hydroxybutyrate-co-3-Hydroxyvalerate)	343
S. Duangphet, D. Szegda, K. Tarverdi and J. Song	
Structural Modification of Styrene Maleic Anhydride Copolymers for Plant Bioactive Compound Extraction	351
P. Punyamoonwongsa, P. Kakumyan, N. Saichana and B. Tighe	

Effect of Zeolite on Early Strength of Portland Cement Mortars R. Tanasalagul, T. Pantongsuk, T. Srichumpong, J. Junsomboon, W. Prakaypan and D. Chaysawan	358
Use of Water Glass from Rice Husk and Bagasse Ashes in the Preparation of Fly Ash Based Geopolymer K. Gomonsirisuk and P. Thavorniti	364
Numerical-Experimental Model and Polynomial Regression Method for Interpretation of G-BHN Relation of Kraft-Based Fibrous Composites Evaluated by Using Brinell Analysis R. Muangma, S. Wongsaenmai and T. Soitong	370

Chapter 7: Materials and Technologies for Environmental Engineering

Activated Carbon Loaded Lignocellulosic Fibers by Pulp Refining Process for Dye and Metal Ion Absorbing Paper S. Witayakran, P. Somboon, J. Kongcrup, C. Sampoompuang and K. Lobyam	379
Hydrophobic and Oleophilic Filter Paper for Oil/Water Separation S. Jindasawan and S. Supothina	385
Light-Enhanced Adsorptive Desulfurization of Dibenzothiophene Using Supported TiO₂-ZrO₂ S. Thepwatee, N. Chekuntod, A. Chanchawee and P. Pitakjakpipop	391
Synthesis of Modified Chitosan with Thiamine Hydrochloride as the Adsorbent for Calcium (II) Ion Removal R. Sananmuang	397
Photoelectrocatalytic and Ultrasonic-Assisted Effects for Organic Dye Degradation Using Zinc Oxide (ZnO) Electrode C. Lunkham, P. Ngernchuklin and C. Ponchio	404
Impact of Engine Oil's Additives on Particulate Matter's Micro-and Nanostructure Using Electron Microscopy Image Analysis P. Koko, P. Karin, S. Rungsritanapaisan, R. Tongsri and K. Hanamura	412
Study of Underflow Diameter, Vortex Finder, Cylindrical and Conical Lengths of a Hydrocyclone to Achieve High Separation Sharpness P. Supachart, T. Swasdisevi and P. Wongsarivej	419
