

Table of Contents

Preface

Chapter 1: Structural Metals

Effect of Strain Hardening on Wear Resistance Property of 316 Austenitic Stainless Steel A.M.Y. Taher and M. Shukuka	3
Regularities of Martensitic Transformations in New Medium-Entropy Single Crystals of CoNiAlFe Alloys A.S. Eftifeeva, I. Fatkullin, A. Tagiltsev, E.Y. Panchenko, S.G. Anikeev and Y. Chumlyakov	9
Influence of Silicon on Solidification Behavior, Microstructure and Oxidation Resistance of Gray Iron for Cookware Applications K. Amatachaya, N. Kallaya, K. Worakhut, W. Boonyarit, N. Wanmai and S. Boonmee	17
High-Speed Milling of Hardened AMS 6260 Alloy Using Radius End Mill (Effect of Cutting Conditions on Flank Wear and Surface Roughness) K. Kawasaki	25

Chapter 2: Technologies for Biobased Materials Production

Investigation on the Processability and Thermal Aspects of Date Palm Nanofiller/Polypropylene Biocomposites Processed via Melt Cast Film Extrusion H.M. Shaikh, O.Y. Alothman, B.A. Alshammari, A. Alhamidi and M. Jawaid	33
Analyzing the Impact of Annealed Steel Sludge Doses on the Physicochemical Properties of Biochar Obtained from Waste Date Palm Frond H.M. Almarri, S.M. Alluqmani, M. Alshammary, S. Alenzi and N. Alabdallah	43
Sustainable Approaches for the Fabrication of Nanocellulose-Polyamide Membrane Based on Waste Date Palm Leaves for Water Treatment S.S. Alterary, A.A. Alshahrani, A. Elhadi and M.F. El-Tohamy	53
Cost-Effective Hydrothermal Synthesis of Luminescent Carbon Dots from Date Palm Midrib O.H. Hassan, A.S. Saad and M. Ghali	75

Chapter 3: Materials for Biomedical Applications

Biomechanical Effects of Titanium Alloy Based Single versus Dual Cage Fusion Devices N.K. Singh, R. Verma, P. Kumar and N.K. Singh	83
Design, Processing, Testing and Characterizing for Orthodontics Material of Palm-Fibres Based Bio-Nanocomposite R. El-Sheikhy and A. Al Khuraif	95
The Effect of Combinations of Wall Materials on Encapsulation of Phenolic Contents from Extract of <i>Clitoria ternatea</i> T. Chimsook	113

Chapter 4: Synthesis of Inorganic and Organic Materials

Crystal Structure, Hirshfeld Surface, and Antibacterial Properties of [Ni(4-AP)₄(NCS)₂] (AP = Aminopyridine) M.R. Choir, S. Dwija Laksmana, H.W. Wijaya and I.W. Dasna	123
Synthesis and Characterization of Ni(II) Complex with Terephthalate and Pyrazine Mixed Ligands by Solvothermal Method Y.P. Prananto, Y. Finisia, R.T. Tjahjanto, M.M. Khunur and I.S.A. Alfath	135
Synthesis and Characterization of Hematite (α-Fe₂O₃) from Iron Sand Using Coprecipitation Method R. Ramelan, A.A. Bama, A. Johan, M. Naibaho and M. Ginting	145
