ISBN(softcover): 978-3-03785-590-4 ISBN(eBook): 978-3-03813-971-3

# Table of Contents

**Preface**

## Chapter 1: Advanced Technologies in Mechanical and Manufacturing Engineering

**Three-Dimensional Finite Element Analysis on Heavy Cutting for High Strength Steel**
Y.S. Zhai, X.L. Liu and Y. Wang 3

**Study on Modeling Design of CNC Machine Tool Based on Ergonomics**
X.M. Lu 7

**Real-Time Prediction of Seepage Field during Tunnel Excavation**
Y. Wang, H. Jin and L.J. Ouyang 11

**Study on Mechanism of Active Front Steering Based on Harmonic Drive**
P. Gu, G.B. Shi and Y. Lin 17

**Research on Piston Jitter Phenomenon of 8" Spinning Brake Cylinder**
J.L. Zhao and Z.J. Yang 23

**Maintenance Scheduling of Composite Generation and Transmission Systems Using Multi-Objective Evolutionary Optimization**
H.T. Sang, G.Q. Wang and Y.Q. Wu 28

**Virtual Production Line Design Based on the IDEF0 Method**
S.F. Chai, S.J. Luo, L.N. Bai and G.W. Chai 33

**The Application of Fault Diagnosis Based on EMD and Real Modulation Zoom Method**
J.Z. Xiang, F.P. Ge, H. Sun and X.J. Shi 37

**The Design of CNC Grinding Processing for Glass-Ceramic Convex**
Z.B. Wang, H.Y. Su and Y.C. Tang 41

**Research on Numerical Simulation of High-Speed Railway Noise Barrier Aerodynamic Pressure**
H.M. Li, Y. Xuan, L. Wang, Y.L. Li, X. Fang and G.H. Shi 45

**The Study of Reliability Modeling of Machining Center Based on Blocksim and Weibull++**
C.H. Chen, Z.J. Yang, F. Chen, Q.B. Hao, B.B. Xu, Y.N. Kan and G.F. Li 49

**The Stock Price Forecasting Comparative Research of the Use of Fractal Theory at Taiwan Traditional Industry and Technology Industry**
P.W. Ling 53

**Influence Research of Recess Shape on Dynamic Effect of Hydrostatic Thrust Bearing**
X.D. Yu, Z.G. Li, D.F. Zhou, H.W. Li, C.L. Gao, Z.X. Qiu, B. Wu, Y.Q. Zhang, B. Qin and X.Z. Dong 57

**Optimum Grinding Parameters for CRYSTOE and NEOPARIES Based on Orthogonal Experiment**
L. Xu, H.D. Li and L.L. Zhou 61

**Analysis of Fiberglass Winding Angle on Natural Frequency of Free Vibration of Cylindrical Shell with Asymmetric Boundary Conditions**
Z.W. Wang, B. Wu, Y.F. Wang and S.M. Bosiakov 65

**Fault Diagnosis of the Relief Valve Based on Fractal Box Dimension of Autoregressive Bispectrum Slices**
Y. Xiao, X.M. Liu and J.C. Chen 70

**Research of LS-WEDM Finishing in Gas Based on Gray Relation Grade**
Y.M. Lu, T. Wang, L. He, W.W. Yan and S.C. Fang 74

**Effect of Different Winding Angle of Fiberglass on Parametric Stability of Structurally Anisotropic Cylindrical Axisymmetric Shells**
Y.F. Wang and Z.W. Wang 78

**Influence of Working Parameters on Dynamic Pressure Effect of Heavy Constant Flow Hydrostatic Center Rest**
B. Wu, X.D. Yu, X.M. Chang and C. Yin 82

**Papermaking Waste Water Resource Recovery - A New Approach of Preparation of Coal Water Slurry**
Z.X. Zhao, W. Lv, R.Y. Li, X.H. Wang and D.L. Zhang 87

**Optimization for Matching Absorption of Infrared Radiation Heating in whole Wavelength Region**
X.J. Liu 91

**A Signal Conditioning Preposing Circuit for Portable Wheel Load Measure Plate**
X.T. Zhao, X.D. Lu, W.S. Lu, C.J. Jin, X.J. Zhang and G.D. Zhang 95

**Research on Simulation and Design of Dynamical Vibration Absorption Lathe Tool with Large Length to Diameter Ratio**
B. Qin, B. Zhang, Q.F. Wang, Y.J. Ji, Y.J. Zhao, X.D. Yu and Y.Q. Ma 99

**The Simulation Research of Double Fed Wind Generator Fault Diagnosis Based on MCSA**
X.J. Shi, F.P. Ge, H. Sun, Q.C. Meng and J.S. Si 103

**Simulation of Vehicle Dynamic Stability on Ro-Ro Ship Using MHS Measurement**
D.X. Zhao, Y. Zhao and J.W. Hou 107

**Effects of Masonry Infills on Seismic Response of Steel Structures**
M. Valente 112

**Innovative Systems for Seismic Protection of Precast Industrial Buildings**
M. Valente 117

**NURBS Curve Fitting Based on Arc Centripetal Parameterization for Tool Path Generation**
C.G. Yu 121

**Temperature Field of Hydrostatic Supporting Disk in Different Viscosity and Rotational Speed**
Y.Q. Zhang, R. Li, C.X. Dai, J.P. Shao, X.D. Yang and G.T. Sun 124

**The Nonlinear Characteristic of Vibration Signal in Milling Flutter Process**
S. Wu, Y.T. Jia and D. Qu 128

**Research on Hydrostatic Supporting Temperature-Rise of Heavy NC Machine Tool**
Y.Q. Zhang, R. Li, C.X. Dai, J.P. Shao, X.D. Yang and G.T. Sun 132

**The Research of Impact Ball End Mills Geometric Parameters on Processing Stable Region**
D.K. Jia, F. Xiao and S. Wu 136

**Force Loading Research on the Transfixion of High-Speed Train**
Y.B. Wang, M. Li, Q.T. Huang, H.G. Xu and J.W. Han 140

**Study of Screw Holding Capability of Micron Wood Fiber Molded Products**
C.Y. Pan and Y. Ma 145

**Calculation of Speed Ratio of Two-Stage Helical Gear Reducer for Minimum Mass**
C.Y. Pan 149

**The Research of Layer System Subdivision and Adjustment Methods in YSL Block of the Low Permeability Reservoirs**
R.H. Li, J.T. Zhang, C.L. Zhang, H.H. Zhang and P. Qu 153

**The Cutting Test Research of Cemented Carbide Face Milling Cutter**
C.Y. Hu, J.H. Ge, X.L. Sui and J.J. Zhang 157

**Large Margin Feature Selection for Support Vector Machine**
W. Pan, P.J. Ma and X.H. Su 161

**Effects of Die Tooth Profile on Forming Helical Tooth Shaft in Cross Wedge Rolling**
H.J. Yan, J.P. Liu, Z.H. Hu, P.B. Han, H.E. Mao and S.B. Ma 165

**Dielectric Charging Failure Analysis of RF-MEMS Switch**
M.X. Song, G.X. Zheng and R. Wu 170

**Assessment of the Three-Dimensional Surface Roughness Parameters**
B. Liu, H.Y. Yu, F. Ye and J.Y. Guo 174

**Research on the Friction Mechanism and Minimum Steady Speed of Electro-Hydraulic Servo Motor**
X.J. Wang, X. Cui, P. Li, X. Chen and L.W. Xiu 179

**The Characteristic Simulation Analysis Method Based on the Theory of Similarity for Combined Interface of Heavy Machine Tools**
S.L. Ren, Y. Dai, M. Che and X. Du 183

**An Investigation of Performance Characteristics of High-Voltage Trigatron**
Y. Chen and Y.S. Cheng 187

**Automobile Active Collision and Early Warning System Based on DSP**
M.Y. Li, L.L. Yang, B. Gao and Z.J. Yuan 192

**Research on Cutting Force Spectrum Character and Tools Vibration Character under Titanium Alloy End-Surface Turning**
W. Zhang, M.L. Zheng and Y.B. Li 196

**Optimal Classification of Hypersonic Inlet Start/Unstart Based on Manifold Learning**
R.S. Zheng, J.T. Chang, H.X. He and F. Chen 200

**Clipping Performance of the Structure with Cavities under Plane Impact Loads**
G.F. Gao, Y.C. Li, S.J. Yuan and X.Y. Li 204

**Research of Flow Field for Irradiation Box of Cable Ultraviolet Cross-Linking**
J.D. Tang, Y.P. Lu, J.D. Han and Z.M. Wang 208

**CFD Simulation of Installation Angle for Axial Flow Fan of a Motor**
J.D. Tang, Y.P. Lu, X.M. Sun and W.Q. Zhang 212

**The Application Profile of Water Transfer Printing in the Product Design**
Q. Du, L. Zhang and J.Y. Zhang 216

**Application and Research of Chinese Cultural Elements on Concept Car Design**
D.S. Song 220

**Reducer Vibration De-Noising Signal Research Based on Wavelet Transform**
G.B. Yu, L. Huang, B. Dai, X.M. Wu and W.S. Ma 225

**Research on Meshing Theory and Simulation of Noninvolute Beveloid Gears with Crossed Axes**
G.B. Yu, J.M. Wen, J.F. Nie and B. Dai 229

**Gearbox Fault Diagnosis Research Based on Wavelet Transform**
G.B. Yu, Y. Zhao, J.F. Nie, B. Dai and X.W. Song 233

**Eccentricity and Rotational Speed Effect on the Rotor-Bearing**
B. Dai, G.B. Yu, J.P. Shao and L. Huang 237

**The Application of Universal Design in the Elderly Electric Scooters Design**
D.S. Song 241

**Design of Deployment Mechanim of Steel Ball and Surface Defects Recognition**
Y.L. Zhao, W.B. Che, K. Zhou and J.P. Xuan 245

**Effect of Large Cross-Section Oxygen-Propane Flame Cutting on Microstructure in Heat-Affected Zone**
Z.X. Wang, Y.K. Han and Y.Q. Chen 249

**The Finite Element Analysis of Longmen Type Frame on Large Thickness Flame Cutting Machine**
Y.Q. Chen, Y.L. Ma and Y.K. Han 253

**The Application of Flywheel Energy Storage Device in Marine Gas Turbine Generator Set**
S.Y. Li, T.L. Li and Z.T. Wang 257

**Research through Design of a One-Dimensional Cable-Rod Deployable Mechanism**
G.P. Hao, F.Z. Meng and Y.D. Zhang 261

**Research on Linear Array TDI-CCD System with Noise Suppression**
K.M. Li and C. Zhang 266

**Structural Design and Simulation Analysis of Ejector Used in Automotive Power Steering Oil Discharge Equipment**
K. Cheng, H.L. Zou, X.C. Kong and J. Tang 270

**Simulation on Multi-Oil-Cavity and Multi-Oil-Pad Hydrostatic Bearings**
X.Q. Xu, J.P. Shao, X.D. Yang, Y.Q. Zhang, X.D. Yu and B.W. Gao 274

**Design of the Intelligent Vehicle System Based on CCD Camera**
Y.Q. Wang 278

**Hardware Design for Electric Locomotive Anti-Collision Warning System Based on AT89C52**
Y.Q. Wang 282

**Study on Fuzzy Control in Permanent Magnet Linear Synchronous Motor System**
C. Zhang, Y.Y. Zou and W. Wei 286

**Innovative Design of the Wind-Driven Efficient Feeding Mechanism**
B.G. Wang, Q.H. Song and G.C. Xu 290

**The Design of Yarn Constant Tension Feeder System**
M.L. Zhou, Y.H. Fu, Z.Q. He and R. Liu 294

**Study on Risk Assessment of Amusement Ride**
Y. Xiao, J.P. Ye, R.M. Chen and J.J. Qian 299

**The Finite Deformation Analysis of a Circular Membrane with an Embedded Rigid Inclusion under Uniform Pressure**
Z.K. Zhang, B. Liu, J.B. Sang and Y.H. Qie 303

**Research on Theory and Experiment of Milk Ingredients Analysis with Laser**
G.C. Ding, Z. Zhou, Y.L. Liu, Y.N. Liu and J.Y. Yin 307

**The Constant Current Charging Analysis Super Capacitor**
D.D. Zhang 312

**The Analysis on Humanity Design in the Shape Studio of Maize Harvesters**
G.Y. Yuan 316

**Journal Bearing Rotor Speed Effect on Dynamics Coefficients and Film Pressure**
N.W. Hu, G.B. Yu, X.M. Wu, C.S. Hu, Z.G. Qu, J.H. Ge and M. Chen 320

**The Method of Multiple Scales in Solving Nonlinear Dynamic Differential Equations of Gear Systems**
J.F. Nie, M.L. Zheng, G.B. Yu, J.M. Wen and B. Dai 324

**A Study on Semi-Physical Simulation for Marine Gas Turbine Generator Set Based on Hardware Agent**
Z.T. Wang, T.L. Li, S.Y. Li, Y.L. Ying and X.X. Huang 328

**Modal Analysis of CK52125 a New Type CNC Lathe of Ball Screw Based on ANSYS Software**
Y.J. Zhang and Y.Z. Cui 332

**Lane Model and Calculation of Lane Geometric Structure and Vehicle Deviation Angle and Position in Lane for Intelligent Vehicle**
Y. Chen and M.Y. He 336

**Research of Direct Drive Technology for Gear Measuring Center Based on Turbo PMAC2**
L. Yang, L. Chen, H.J. Tang and P. Zhao 340

**Optimized Fuzzy Logic Control Strategy for Parallel Hybrid Electric Vehicle Based on Genetic Algorithm**
M.L. Zhou, D.K. Lu, W.M. Li and H.F. Xu 345

**Design of Universal Detection System for Automobile Combination Dashboard**
H.J. Yuan, W. Liu, W. Hu and Y.Q. Sun 350

**A Research on Fuzzy Clustering Analysis Model of Gas Well Pipe of High Pressure and High Temperature and High $H_2S$**
R. Wu, P.F. Chen and X.T. Zhao 355

**Researching in Shallow Parsing Based on Function Invariance of Maximum Likelihood Estimation**
S. Zhang and S.X. Zhang 359

**Design of BLDCM Fuzzy Control System for Electric Vehicle Based on DSP**
J.B. Wen and B. Yang 363

**Research Switched Reluctance Motor Drive (SRD) Based on Fuzzy Sliding Mode Control**
Y.Q. Zhou, R. Liu, Y.G. Cui and X.D. Wang 369

**Modal Analysis on Rotor of Asynchronous Traction Motor Used in High-Speed Trains**
S. Chen, F. Wang and J.C. Cao 374

**The Gas Flow Simulation of Tokamak's Inflatable Pipeline**
H.W. Zhou, Y. Chen, J.C. Wang and X.Z. Huang 378

## Chapter 2: Material Engineering and Technology

**Preparation of High Insulating HDPE Optical Cable Sheath at Lower Cost with Doping Nano-Particles**
J.P. Zhang, H. Tang and S.S. Hao 385

**Interval Element-Free Method for a Bi-Material Cantilever Beam**
Y. Wen, S.F. Wang, Z.J. Yan and N. Liu 389

**Investigation of Compressive Damage Mechanisms in 3D Braided Composites by the Acoustic Emission Events Energy and Amplitude**
S. Yan, S.D. Pan, D.H. Li and J.C. Feng 393

**Preparation and Characterization of Aluminum Nitride Nano-Wire**
Y.L. Sun, Y.C. Liang, M.L. Zhi, Z.F. Zeng and L.M. Dong 398

**Study on Corrosion Resistance of 00Cr13Ni7Co5Mo4W Maraging Stainless Steel in Seawater**
Y. Jiang, Y.Y. Ai and Q.T. Wang 402

**Structural and Magnetic Behavior of Cobalt Doped Ba0.5Sr0.5Fe12O19 Nanoparticles Synthesized by Chemical Co-Precipitation Technique**
J.L. Zhang, Z. Wu, L.M. Dong, T. Jiang and X.Y. Zhang 406

**Synthesis and Characterization of Hexagonal Boron Nitride Nanosheets**
C. Guo, L.M. Dong, S.J. Gong, C.Y. Miao and X.Y. Zhang 411

**Preparation and Characterization of ZnO: Eu, Mn Luminous Material**
Y.N. Ye, L.M. Dong, H.Z. Che, S.Y. Mao, Z.Y. Chen and X.Y. Zhang 415

**Effect of Aging Temperature on Corrosion Behaviors of Maraging Stainless Steel in Seawater**
Y.Y. Ai, Y. Jiang and Q.T. Wang 419

**Real-Time Rendering for Multi-Layered Translucent Materials such as Human Skin under Dynamic Environment Lighting**
M.Z. Yang and K.Q. Wang 423

**Deformation Behavior and Processing Map of High Temperature of TC21 Titanium Alloy**
Y. Gong 427

**The Preparation and Characteristic of Superparamagnetic Core/Shell Nanoparticles**
H.X. Shen, Z.Z. Yin and Q. Cheng 432

**Model Design of Micron Wood Paring Bone Fracture Fixture**
H. Guo and Y. Ma 436

**Extraction Process of Selenium Polysaccharide in Hedgehog Fungus and Determination Analysis of Chemical Components**
J. Ding 440

**Simulation on Cutting Temperature during Milling Aluminum Alloy 7075- T7451**
J.H. Ge, G.Q. Yang, Y.P. Wang, J.Q. Zheng and H.L. Wang 444

**Development of Indoor Purification Materials in China**
Y.G. Zhuo, J. Liu, B.Q. Shi and Y.C. Zhang 448

**State Equation for an Advanced Ferromagnetic Base Composite Material**
G.F. Gao, S.J. Yuan, Y.C. Li and L.Y. Shen 451

**Orthogonal Design Investigation on Wear Resistance with Non-Smooth Surface**
Z.J. Yang, X.D. Yang and Q.C. Wang 455

**Experimental Study on Axial Compression Performance of High-Strength Aluminum-Alloy Columns with H-Section**
F. Fan, Y.J. Wang, L. Lin and H.L. Qian 459

**Dynamic Constitutive Relation and Fracture Model of Q235A Steel**
L. Lin, F. Fan and X.D. Zhi 463

**Study on Preparation and Luminescence of Green Phosphate Phosphor**
Z. Wu, T. Jiang, N.X. Liang, Y.L. Sun and L.M. Dong 467

**Study on Cu Passivation Film's Forming Condition in HEDP Electrolyte with BTA and Chloride Ion**
J.H. Wang and W.J. Zhai 471

**Design of Distributed Electric Vehicle Battery Management System**
Y.Q. Wang and Y.X. Liu 475

**Numerical Simulation and Test Research of Pneumatic Drying on Biomass Fuel**
X.H. Wang, W. Lv, D.L. Zhang, X.N. Zhang and Z.X. Zhao 479

## Chapter 3: Civil Engineering, Architecture and Building Applications

**An ALB Model of Eco-Industrial Parks**
F.L. Liu and X.J. Yu 485

**The Length Optimization of Non-Stayed Cable Segment to Low-Pylon Cable-Stayed Bridge**
H.T. Bi and L. Wu 490

**GIS Application in Analysis of Flood Inundation**
Y.Q. Liu, C.H. Zhang and X.P. Zhang 496

**Foundation Reinforcement Design for Sugar-Making Workshop of Hailun Sugar Plant**
Y.J. Chen 500

**Structural Additional Stories and Reconstruction Design for Sugar-Making Workshop of Hailun Sugar Plant**
Y.J. Chen 504

**Heat Transfer Performance of Glazed Units in Dual Airflow Windows**
B. Sun, G.Y. Hong, M.T. Xu and W.J. Wang 508

**Study on the Application of Kansei Engineering in Product Form Design**
Y.Q. Xu, K. Chen, H.B. Qin and Z.Y. Wang 513

**Health Office Chair Design Based on Ergonomics**
H.B. Yang, S.G. Sang and Y.T. Feng 517

**Numerical Investigation on the Reticulated Domes Subjected to the Multi-Point Impact**
L. Lin, F. Fan and X.D. Zhi 523

**Comparison of Temperature Field of French Windows Building with Different Types of Floor Radiant System**
Z.L. Liu, F. Wang, L.J. Niu, C.X. Li and G.M. Fu 527

**Analysis on the Public Street Furniture Design in Cold Cities**
T. Shen, W.W. Yu and L. Zhang 531

**Evaluation the Performance of Health Care System Based on Fuzzy Reasoning**
Y.J. Zhang and T.F. Zhang 535

**The Research of Three Significant Changes Resulted from Industrialization in the Development of Architecture**
X. Chen and H.Z. Yang 539

## Chapter 4: Modeling, Automation and Related Themes

**The Research of Visualization Data Mining in Industrial Data**
D.R. Yu, H.X. He, H.X. He, X.X. Zhang and J.F. Liu 545

**Nonlinear Module Control of Maglev Levitation System Based on Feedback Linearization**
J.H. Li and J. Li 550

**Design of Labview Based Equipment for Measuring Thermally Stimulated Current**
J.Q. Lin, M.H. Xia, W.L. Yang and J. Leng 555

**A Research on Analytical Life Prediction Model of Gas Well Pipe in $CO_2$ Corrosion**
R. Wu, P.F. Chen and X.T. Zhao 559

**Researching in Web Technology Classification Based on Improved Support Vector Machine**
S. Zhang and S.X. Zhang 563

**Impact on Perceptual Speed to Geometry Pattern**
N.Q. Wu and Y.J. Shi 567

**Analysis of Electrical Capacitance Tomography Plotting Field Method**
C.J. Yang, D.Y. Chen and L. Zhang 571

**The Feedback Control of an Ultralow Frequency Vibration Table Based on a Fuzzy Self-Tuning PID Controller**
T.L. She and Q.Y. Yang 575

**Self-Tuning Weighted Measurement Fusion Kalman Signal Filter**
W.Q. Liu, G.L. Tao, Z.Y. Gu and S. Li 579

**Research of Micromotion Reading Subdivision Method**
J.S. Wang, Y. Shi, Z.Y. An and M. Liu 583

**The Research on Detection Method of Multi-Gas Sensor Based on BP Neural Network**
W.J. Zhao, Z. Zhou, M.Y. Yu, M.M. Wang and Y.B. Shi 587

**Analysis of Defect Magnetic Flux Leakage Field Based on Dipole**
J.S. Gao, J. Wang and K. Wang 592

**Large Eddy Simulation of Gas - Second Order Moment of Particle Approach for Riser**
J.H. Chen, T. Hu and J.R. Li 596

**Simulation of Gas-Solid Two-Phase Flow Using LES-SOM Model**
J.H. Chen, T. Hu and J.R. Li 600

**A Wireless Sensor Network Routing Scheme for Timely Environmental Monitoring System**
X.X. Wan and G.M. Wu 604

**A New Automated Essay ScoringTeaching Resource Program**
J.J. Wang 608

**No-Contact Hydraulic Dynamic Seal Characteristic Study Base on CFD**
G.B. Yu, B. Dai, L. Huang, J.F. Nie and Y. Zhao 612

**A Fuzzy Logic Controller Application for Marine Power Plant**
Z.T. Wang, Y.L. Ying, S.Y. Li and T.L. Li 616

**Research on Site Selection of Aviation Overhaul Depot Based on Particle Swarm Optimization**
C.L. Liu, H.L. Fan, M.Y. Hou and X.L. Bao 620

**Design and Manufacture of a Temperature Adaptive MEMS Wind Speed Sensor**
J.J. Liu, W.J. Zhao, H.J. Nan, G.L. Li and Y.B. Shi 624

**Research on Control Strategy of Oil Film Stiffness Control System of Hydrostatic Center Frame**
Z.W. Wang, R.Z. Duan, W.L. Xu, F.C. Tao and X.Q. Xu 629

**Research on Lane Marking Lines Detection**
H. Tan, J.F. Wang, K. Zhang and S.M. Cui 634

**Using Fuzzy Switching to Achieve the Smooth Switching of Force and Position**
B.W. Gao, J.P. Shao, G.H. Han, G.T. Sun, X.D. Yang and D. Wu 638

**Simulation Analysis of Friction Nonlinear for NC Servo System**
Y.H. Dong and S.L. Tian 642

**Intelligent Campus Emergency Preparedness Managing Platform System**
Y. She, X.Y. Ben, K.J. Wang and Z. Wang 646

**Automated Essay Scoring: A Comparative Study**
X.M. Yao 650

**LSA-Based Automated Essay Scoring in Chinese Context**
X.M. Yao 654

**Dynamics Analysis of 6-DOF Platform under the Condition of Unbalanced Force**
L. Jie, T. Yi, L.H. Li, X.F. Li and X.D. Liang 658

**Reliability Prediction of RV Reducer Based on Fault Tree and Monte-Carlo Simulation**
Y.G. Sun, G.B. Yu, J. Zhang, F. Wang, Y.Q. Sun and J.H. Chen 663

**Feature Point Extraction Method of X-Ray Image Based on Scale Invariant**
Y.W. Wang, S.Q. Zhang, B. Lin, H. Liang and Y.M. Pan 667

**Experimental Study of Supporting Force of the Bionic Water Strider Model**
Q.C. Wang, X.D. Yang, G.H. Cao and H.J. Xu 671

**The Analysis of Remaining Oil in High Water Cut Stage**
C. Fu and B. Huang 675
