ISBN(softcover): 978-0-87849-258-9 ISBN(eBook): 978-3-03813-332-2

Table of Contents

Preface and Committees

Optimization of Material Properties Using Genetic Algorithms
K. Wierzbanowski, J. Tarasiuk and A. Lodini 1

Residual Microstress of Austenitic Stainless Steel Due to Tensile Deformation
K. Suzuki and T. Shobu 7

Intergranular Strains in Pre-Strained and Welded Pipes
M.O. Acar, P.J. Bouchard, J.Q. da Fonseca, M.E. Fitzpatrick and S. Gungor 13

Synchrotron Strain Mapping of the Residual Strain Distribution around Foreign Object Damage in Laser Shock Peened Ti-6AL-4V Alloy
S. Zabeen, M. Preuss, P.J. Withers, S. Spanrad, J. Tong and J. Schofield 19

Determination of the Residual Stress Field around Scratches Using Synchrotron X-Rays and Nanoindentation
M.K. Khan, M.E. Fitzpatrick, L.E. Edwards and S.V. Hainsworth 25

Residual Stress Evaluation of Carburized Transmission Steel Gear Using Neutron and Synchrotron X-Ray Diffraction and Finite Element Methods
Y. Sakaida, T. Serizawa, M. Kawauchi and M. Manzanka 31

Combined Neutron and X-Ray Diffraction Analysis for the Characterization of a Case Hardened Disc
J. Epp, T. Hirsch, M. Hunkel and R.C. Wimpory 37

Numerical Modeling of Residual Stress and Prediction of Heat Affected Zone Induced by PTA Process
A. Nady, H. Bonnefoy, V. Klosek, M.H. Mathon and A. Lodini 44

Through-Thickness Residual Stress Measurement by Neutron Diffraction in Cu+W Plasma Spray Coatings
V. Luzin, J. Matějíček and T. Gnäupel-Herold 50

Residual Strain Profiles in Alumina-Zirconia Ceramic Composites
J. Ruiz-Hervias, A. Steuwer, J. Gurauskis, T. Buslaps and C. Baudín 57

Measuring Type II Stresses Using 3DXRD
J. Oddershede, S. Schmidt, H.F. Poulsen and W. Reimers 63

Grain Tracking at the High Energy Materials Science Beamline of the Petra III Synchrotron Radiation Source
A. King, N. Schell, R.V. Martins, F. Beckmann, H.U. Ruhnau, R. Kiehn, T.J. Marrow, W. Ludwig and A. Schreyer 70

Full Depth-Resolved Strain Mapping of a Three-Pass Slot Weld Specimen in Austenitic Stainless Steel Using the Spiral Slit Technique
R.V. Martins, C. Ohms and K. Decroos 74

Precise Determination of Residual Stresses in Large Specimens by Neutron Diffraction
T. Pirling, D.J. Hughes and J.S. Robinson 80

Kowari - OPAL's New Stress Diffractometer for the Engineering Community: Capabilities and First Results
O. Kirstein, U. Garbe and V. Luzin 86

A Challenge for a High-Resolution Ag-In-Cd Decoupler in Intensified Short-Pulsed Neutron Source
K. Kikuchi, M. Teshigawara, M. Harada, S. Saito, F. Maekawa, M. Futakawa and T. Ishigaki 92

Aspire to Become TAKUMI - TAKUMI Present Status and Research Topics -
S. Harjo, K. Aizawa, T. Ito, H. Arima, J. Abe, A. Moriai, K. Sakasai, T. Nakamura, T. Nakatani, T. Iwahashi and T. Kamiyama 99

First Results from the VULCAN Diffractometer at the SNS
X.L. Wang, T. Holden, A.D. Stoica, K. An, H.D. Skorpenske, A.B. Jones, G.Q. Rennich and E.B. Iverson 105

Residual Stresses in Overlapping Friction Taper Stud Welds
D.G. Hattingh, A. Steuwer, M.N. James and I.N. Wedderburn 111

Residual Stress Distribution in Austenitic Stainless Steel Pipe Butt-Welded Joint Measured by Neutron Diffraction Technique
A. Maekawa, T. Oumaya, M. Noda, S. Takahashi and T. Saito 116

Investigation of Residual Stress in Laser Formed Mild Steel Plates Using Neutron Diffraction
S.M. Knupfer, A.M. Paradowska, O. Kirstein and A. Moore 123

Search for Evidence of Stacking Faults in Austenitic Stainless Steel Alloys by Neutron Diffraction
T. Holden, D.W. Brown, B. Clausen and H. Suzuki 129

Size and Strain Analysis of Deformation Microstructure in High-Nitrogen Austenitic Stainless Steels
T.H. Lee, E.J. Shin, H. Ha, C.S. Oh and S.J. Kim 133

The Deformation of Face-Centred-Cubic Metals Measured by Diffraction Peak Profile Analysis
T.H. Simm, P.J. Withers, T. Ungár and J. Fonseca 139

Stress Estimation of Titanium Casting Alloy by X-Ray Measurement Technique of Single Crystal
N. Masayuki, H. Takao, A. Shiro and T. Matsue 143

Combined *In Situ* Neutron Diffraction and Acoustic Emission of Twin Nucleation & Twin Growth in Extruded ZM20 Mg Alloy
O. Muránsky, M.R. Barnett, D.G. Carr, S.C. Vogel and E.C. Oliver 149

Large Deformation and Mechanical Effects of Damage in Aged Duplex Stainless Steel
L. le Joncour, B. Panicaud, A. Baczmanski, M. François, C. Braham and A.M. Paradowska 155

Strain Measurement of Aged Duplex Stainless Steel Using SR White X-Rays
K. Kiriyama, T. Shobu, J. Shibano, T. Fujishiro, H. Kaneko and S. Miura 161

Non Destructive Characterization of Phase Distribution and Residual Strain/Stress Map of Two Ancient (Koto) Age Japanese Swords
F. Grazzi, L. Bartoli, F. Civita, A.M. Paradowska, A. Scherillo and M. Zoppi 167

The Influence of Casting Geometry on the Tensile Properties and Residual Stresses in Aluminium Castings
M. Sadrossadat and S. Johansson 174

Residual Stress Evaluation at Bone Implant Interfaces Using High Energy X-Ray Diffraction
B. Mireux, T. Buslaps, V. Honkimäki, A. Lodini and J.M. Sprauel 180

Characterization of New Bone Constituted at the Interface with Implant by Synchrotron Radiation
A. Benmarouane, H. Citterio-Bigot, P. Millet, T. Buslaps and A. Lodini 185

Thermal and Mechanical Response of Industrial Porous Ceramics
G. Bruno, A.M. Efremov, A.N. Levandovskiy, I. Pozdnyakova, D.J. Hughes and B. Clausen 191

The Robot Concept at STRESS-SPEC for the Characterisation or Semi-Finished Products
H.G. Brokmeier, C. Randau, W. Tekouo, M. Hofmann, W.M. Gan, M. Müller, A. Schreyer and W. Petry 197

Hybrid Measurement of CT and Strain Distribution of Internal Crack Using Synchrotron High-Energy Monochromatic X-Rays
K. Tanaka, T. Shobu and H. Kimachi 202

Measurements of Residual Stress in a Welded Compact Tension Specimen Using the Neutron Diffraction and Slitting Techniques
F. Hosseinzadeh, P.J. Bouchard and J.A. James 210

The Use of Diffraction to Study Fatigue Crack Tip Mechanics
J.F. Kelleher, P. Lopez-Crespo, F. Yusof and P.J. Withers 216

Internal Residual Strain of GlidCop for Materials of the High-Heat-Load Components
M. Sano, S. Takahashi, A. Watanabe, H. Kitamura, K. Kiriyama and T. Shobu 222

Effect of Initial Residual Stress on Stress Relaxation in Cold-Drawn Steel Rods
J. Ruiz-Hervias, J.M. Atienza, J.R. Santisteban and M. Elices Calafat 227

Tensile Deformation Behaviors of Metastable Austenitic Stainless Steels Studied by Neutron Diffraction
N. Tsuchida, K. Fukaura, Y. Tomota, A. Moriai and H. Suzuki 233

Application Software Development for the Engineering Materials Diffractometer, TAKUMI
T. Ito, T. Nakatani, S. Harjo, H. Arima, J. Abe, K. Aizawa and A. Moriai 238

Neutron Stress Measurement of Coarse Crystal Grain in Aluminum Casting Alloy
N. Masayuki, H. Takao, T. Matsue and H. Suzuki 243

Application of Göbel Mirror for Stress Measurement Using Grazing Incidence Geometry
A. Baczmanski, M. Marciszko, K. Wierzbanowski, G. Buturyn, J.T. Bonarski and L. Tarkowski 249

Applied Stress on Silicon Perfect Single Crystal for Controlling the Extinction Layer
M.R. Muslih, Ridwan, I. Kuntoro and N. Minakawa 255

Neutron Residual Stress Measurement of Railway Rails Using Image Plate
T. Sasaki, O. Yaguchi and H. Suzuki 260

Effect of Compressive Deformation on Carbide Precipitation in a Fe-C-Mo Alloy
H.W. Yu and K.M. Wu 266

Investigation on Microstructures of Multipass Deposited Metal for 9Cr-1Mo Ferritic Steels
H.H. Wang and K.M. Wu 270

Weldability of a Low Carbon High Strength Ti-Containing Bainitic Steel Produced by CSP
R. Wei, L. Cheng and K.M. Wu 275

Evolution of Residual Stresses and Stored Elastic Energy in Ferritic Steel during Recovery Process
R. Wawszczak, A. Baczmanski, C. Braham, W. Seiler, M. Wróbel and K. Wierzbanowski 279

***In-Situ* Observation for Elucidation of Stress Corrosion Cracking Mechanism in High-Temperature and High-Pressure Water**
T. Fujishiro, T. Shobu, K. Kiriyama and A. Yamamoto 285

Strain Measurement Near Fatigue Crack in Ultrafine-Grained Steel by Polychromatic Synchrotron Radiation
Y. Akiniwa, H. Kimura, J. Shibano, K. Kiriyama and T. Shobu 290

Residual Stresses of Cr-N Films Deposited by Arc Ion Plating Investigated Using Synchrotron Radiation
T. Matsue, H. Takao, K. Kusaka, O. Sakata and N. Masayuki 296

XRD Investigation of Residual Stresses in Electron Beam Deposited Pt-V Coatings
T.P. Ntsoane, M. Topic and R. Bucher 303

Neutron Diffraction Residual Strain Measurements in Plasma Sprayed Nanostructured Hydroxyapatite Coatings for Orthopaedic Implants
R. Ahmed, N.H. Faisal, S.M. Knupfer, A.M. Paradowska, M.E. Fitzpatrick, K.A. Khor and J. Cizek 309

Evaluation of Residual Stress in Shot-Peened Tool by Means of Synchrotron Radiation Using an Area Detector
Y. Miyazawa, O. Yaguchi and T. Sasaki 315

Residual Stress Measurements in Large Scale Component Sections
C.M. Davies, R.C. Wimpory, A.M. Paradowska and K.M. Nikbin 321
