

## Table of Contents

### Chapter 1: Materials and Processing Technologies for Mechatronic Systems

<b>Magnetosensitive Polymer Composites and Effect of Magnetic Field Directivity on their Properties</b>	
E. Dragašius, E. KOROBKO, Z. Novikava and E. SERMYAZHKO	3
<b>Investigation of the Laser Polishing Influence on the Parts Built by SLS</b>	
V. Markovič, Z.A. Mierzejewska, G. Vaitkūnaitė, S. INDRIŠIŪNAS, R. Lukauskaitė, O. Černasėjus and V. GOLUBEV	8
<b>Investigation of Application Possibilities of Re-Ni Alloy Powder to Tungsten Heavy Alloys Production</b>	
T. Majewski and K. LESZCZYŃSKA-SEJDA	14
<b>Friction and Slip Property Investigation of Nanostructured Metal Surface Coatings</b>	
J. Lungevics, J. Rudzitis, E. Gerins and A. Leitans	20
<b>Experimental Investigation on the Friction Stir Spot Welding Process of Non-Ferrous Metals</b>	
P. KRASAUSKAS, S. KILIKEVIČIUS, R. ČESNAVICIUS and J. JALOVECKAS	25
<b>Characteristics of Processing Water-Soluble Crystals</b>	
R. VILKELIS, M. Jurevičius and I. ŠVAGŽDYTĖ	30
<b>The Influence of the Specimen Shape on the Fatigue Life under Bending</b>	
E. Marcisz and D. Rozumek	35
<b>Simplified Method of Resin Infusion Process Simulation on Example of Formula Student Lightweight Components</b>	
M. WNUK and A. Iluk	41

### Chapter 2: Measurements and Nondestructive Testing

<b>The Research of Wire Rope Defect Using Contactless Dynamic Method</b>	
E. ŠUTINYS, V. Bučinskas and A. Dzedzickis	49
<b>A Laboratory System to Testing Characteristics Wind Turbine at Low Speeds of Wind</b>	
J. Spychała, P. Majewski and M. Źokowski	55
<b>Model Based Determination of Gait Parameters Using IMU Sensor Data</b>	
H. Loose and K. Orlowski	61
<b>Review of Ultrasonic Signal Acquisition and Processing Techniques for Mechatronics and Material Engineering</b>	
L. SVILAINIS	68

### Chapter 3: Applied Research of Mechatronic Systems

<b>Modelling of Mechanical Structure of Atomic Force Microscope</b>	
A. Dzedzickis, V. Bučinskas, N. ŠEŠOK and I. ILJIN	77
<b>Investigation of High Frequency Mechanical Vibrations in PMN-32%PT Crystals by Laser Interferometry</b>	
R.J. KAZYS, R. SLITERIS, J. SESTOKE and M. ZIENIUS	83
<b>Research of Frictional Force in Respect to Magnetized Surface</b>	
I. Skiedraite, S.G. KRISHNAMOORTHY and A. KONDRTAS	89
<b>FEM Investigation of Load Carrying Capacity of Magnetic Vibration Isolating Supports</b>	
A. GEDVILA and V. Mokšin	94
<b>Application of the Complementary Functions Method to an Accurate Elasticity Solution for the Radially Functionally Graded (FG) Rotating Disks with Continuously Variable Thickness and Density</b>	
C. Boğa and V. YILDIRIM	100

<b>A Combined Smart-Materials Approach for Next-Generation Airfoils</b>	
J. Scheller, G. JODIN, K. RIZZO, E. Duhayon, J.F. Rouchon, M. TRIANTAFYLLOU and M. Braza	106
<b>Improved Controller Performance for Electromechanical Axes</b>	
H. Schlegel, A. Hellmich, K. Hipp, J. QUELLMALZ and R. Neugebauer	113
<b>Flexible Tunable Interdigital Transducer for Lamb Wave Generation</b>	
M. Mańska	120
<b>Antagonistic Shape Memory Alloy Actuators in Soft Robotics</b>	
T.S. Le, H. Schlegel, W.G. Drossel and A. Hirsch	126
<b>The Problem of Negative Vibration Isolation in Various Discrete Mechatronic Systems</b>	
A. Buchacz and D. Gałeziowski	133
<b>Investigation of the Effect of Gravity Anomalies on the Precession Motion of Single Gyroscope Gravimeter</b>	
I. KOROBIICHUK, A. KOVAL, M. Nowicki and R. Szewczyk	139
<b>Practical Solution for Temperature Control for Inertial Object</b>	
J. Mężyk	146
<b>Performance Index for Servo Drives under PI Speed Control</b>	
J. QUELLMALZ, H. Schlegel, M. Rehm, H. KIRCHNER and R. Neugebauer	152
<b>A Concept for Intelligent Tool Exchange System for Industrial Manipulators</b>	
J. Mężyk	158
<b>Unmanned Ground Vehicle Energy Efficiency Validation in Territory Surveillance Mission</b>	
E. Väliaots, R. Sell and M. RIMASAUSKAS	164
<b>Electro- and Magnetosensitive Adhesive Compositions</b>	
E. Dragašius, A. Bubulis, A. Dostanko, Z. Novikava, V. Kuzmin and E. KOROBKO	171
<b>Design and Numerical Analysis of a Roof-Mounted Bicycle Carrier</b>	
M. Ptak, J. Karliński, D. DERLUKIEWICZ and P. DZIAŁAK	177
<b>Analysis of Compact Bone Vibration Assisted Drilling</b>	
R. Zakrasas, V. JURENAS and J. Baskutiene	183
<b>Correction of Characteristics of Transverse Vibration Subsystems of Complex Mechanical or/and Mechatronic Systems</b>	
A. Buchacz	188
<b>Analysis of Crack Growth Path under Simple and Mixed-Mode Loading in Specimens with Rectangular Section</b>	
S. Faszynka and D. Rozumek	194
<b>Dynamic Simulation of Internal Support of Remote Controlled Weapon Station</b>	
A. Iluk, T. LEWANDOWSKI, J. PTAK and C. BOROWIECKI	200
<b>Geometrical Structure for Endoprosthesis Surface Lubrication and Wear Prognosis</b>	
K. Wierzcholski	206
<b>Braking Current Spectral Characteristics for Linear Induction Motor with Short Secondary Part</b>	
B. Karaliunas, E. Matkevicius and B. MITKIENE	212
<b>Fuzzy Controller for Aircraft Anti-Icing System - Initial Design and Analysis</b>	
N. Grzesik and K. KOWALIK	218
<b>Dynamics of Linkage Mechanism Solved by Means of Contour Graphs and Bond Graphs</b>	
J. Drewniak, P. Garlicka, J. KOPEĆ and S. Zawiślak	224
<b>Development of the Operation Algorithm for a Automated System Assessing the High-Rise Building</b>	
I. KOROBIICHUK, A. SHOSTACHUK, D. SHOSTACHUK, V. SHADURA, M. Nowicki and R. Szewczyk	230
<b>Application of an Automatic Plant Irrigation System Based Arduino Microcontroller Using Solar Energy</b>	
C. ERSİN, R. Gürbüz and A.K. YAKUT	237
