Preface

Chapter 1: Research and Design of Machines and Equipment

Improving the Sound Absorption Characteristics of Micro-Perforated Panel Absorber through Multi-Cavities Arrangement D.K. Agarwalla and A.R. Mohanty	3
Drying Kinetics of Irish Potato Slices Dried in an Arduino-Controlled Convective Heat Dryer C.V. Ikwuagwu, I.E. Okoh and K. Adeyemi	13
An Inverse Heat Transfer Based Technique for Estimating Thermal Contact Conductance and its Validation with Experiments E. Ajul, E. Kishor and S. Chanda	27
Process Development for Evaluation of Vibration Fatigue Applied to Automotive Heat Exchangers N. Pankaj and N. Shrikant	39
Design and Fabrication of Volume Holographic Gratings with Large Angular Bandwidth and High Diffraction Efficiency Q.B. Feng, Y.S. Guo and G.Q. Lv	51

Chapter 2: Mechatronics

Design of Smart Vehicle Security System Using Finger Print Authentication with Integrated GSM and GPS Modules I. Yazdhaan, S.T. Ambujam and N.A. Munaf	61
Smart Automated Evaporator Coil Cleaning System for Ceiling-Mounted Air Conditioning Units M. Zidhan Hassan and S.T. Ambujam	71
Sensor-Based Motorcycle Restrain System with an Integrated Automatic Brake System M. Mohamed, G.J. Das Dasaian and U.A. Latheef	87

Chapter 3: Digital Signal and Image Processing

Estimation of Ionospheric Spatial Gradient in Mid Latitudes by Satellite-Pair Method T. Srilatha, M. Ravi Kumar, S. Raghunath and D. Venkata Ratnam	101
Multipath Mitigation Technique Based on Successive Variational Mode Decomposition Using NAVIC Receiver Data P. Sravanthi and D. Venkata Ratnam	113
Pipeline and Wave Pipeline Based Comparative Analysis for FIR - Wallace Tree Multiplier for ECG Signal Denoising J. Prasad, A.S. Stevany Faryl, K. Rajeshwaran and G. Sekar	125
Built-In Error Resilient FPGA Based CIC Filter Design for Satellite Communication M. Kalamani and S. Deepthi	139
Convolutional Neural Network Based Quality Analysis of Fruits and Vegetables G. Sekar, B. Mansingh, J. Prasad and R. Nallakumar	151
