

Table of Contents

Preface

Chapter 1: Metal Physics

Peculiarities of Transient Anelastic Relaxation in Fe-27%Ga Alloy with Different Metastable and Equilibrium Structures	
I.S. Golovin, A.A. Shcherbakov, J.C. Bauzà, N.Y. Samoylova and A.M. Balagurov	3
Transformation Response and Interface-Mediated Damping in High-Temperature Shape Memory Alloys Containing Ductile Second Phases	
S.W. Zhang, Q.A. Li, M.J. Jin, Y.T. Zhu and W.J. Lu	11
Transient Anelastic Effects Caused by Diffusion-Controlled Structural Transitions	
I.S. Golovin and D. Mari	19
Magneto-Mechanical Damping and Phase Transformations in Iron-Based Alloys	
I. Tkalec, D. Mari, M. Kabchou and I.S. Golovin	39
Characterization of High-Purity Nickel Single Crystals by Mechanical Spectroscopy before Irradiation Creep Tests	
A. Nastruzzi, D. Mari, R. Schaublin, J.C. Chen and M.A. Pouchon	47

Chapter 2: Functional Materials

CT-Based Reconstruction of Closed-Cell Aluminum Foams	
V.A. Chang'a and T. Mankovits	63
Enrichment of Rare Earth Elements and Noble Metals in Thermal Treatment Residues of Different Base Materials – A Review	
A.A. Gobosho and H. Kovács	73
Synthesis and Ionic Conductivity of $\text{Li}_{1.3}\text{Al}_{0.3}\text{Ti}_{1.66}\text{Ta}_{0.04}(\text{PO}_4)_3$ Solid Electrolyte	
A.S. Sanda, S.A. Gene, S. Umar, A.S. Abdullahi, A.I. Adegbola and E. Nyiekaa	85
Enhancing Multifunctional Properties of Geopolymer Composites through Graphene Oxide Incorporation: Insights from Thermoelectric, Microstructural, and Mechanical Analysis	
A. Susanto, A. Haris and M. Saleh	93

Chapter 3: Synthesis and Properties of Nanocomposites for Photocatalytic Applications

Fabrication of Microcrystalline Cellulose/Nano-TiO Composite: Photocatalytic Performance and the Role of Active Species	
Z.A.M. Hir, N.N.A.S. Rosli, M.A.A.M. Mahadi, S. Daud, H.A. Rafaie and M. Chijioke- Okere	109
Synthesis and Application of nZVI Supported on Granular Activated Carbon (nZVI/GAC) Catalyst for the Degradation of Paraquat in Wastewater	
P. Assawasaengrat, W. Narkrugsa, J. Lamlert, C. Tutiyaakul and P. Sriprom	115
Synthesis of Graphene Oxide/Titanium Dioxide Nanocomposites with Varying Graphene Oxide Contents: Morphological and Optical Band Gap Analysis	
A. Aeimbhu, J. Amonkosolpan, W. Boonyaratgalin, N. Supanam and C. Wongwanitwattana	121
