

Table of Contents

Preface

Forming of Multifunctional Corrugated Cup Using Roller Ball Die Y. Harada and S. Okada	1
Experimental Studies and Simulation of TRIP-TWIP Roll Bonding J. Mantel, M. Schmidtchen, M. Seleznev, A. Weidner, H. Biermann and U. Prah	9
Effect of Wire Electrical Discharge Machining on Hole Expansion Ratio of 1 GPa Low Carbon Low Alloyed Steel O. Nousiainen, J. Hannula, J.I. Kömi and A. Kaijalainen	15
<i>In Situ</i> Synchrotron XRD Analysis of Phase Evolution and its Impact on Mechanical Properties in Quenched and Partitioned Medium-Carbon AHSS Z.A. Hafshejani, R.F. Chuproski, S. Ghosh, A. Stark, M. Huttula, S. Urpelainen, J.I. Kömi and V. Javaheri	21
Evaluation of Strain Distribution of Perforated Sheet in Circular Cup Deep Drawing S. Yoshihara, T. Nakagawa, O. Hasegawa and H. Nishimura	27
Effect of Cold-Forming on Mechanical Properties of AHSS Steel T.T. Nyo, L. Autio, J. Tulonen and A. Kaijalainen	33
Finite Element Modeling of Electromagnetic Heating K. Lehtola, J. Ilmola and J. Larkiola	39
Influence of Si and Process Parameters on the Microstructure and Properties of Continuously Annealed Low C-Nb-Ti Strip Steel K.M. Banks, D.R.N. Maubane and M. Netshilema	47
Application of Bi-Modal Milling Process to Fabricate Harmonic Structure Materials S. Suzuki, K. Yagi, M. Kawabata, H. Fujiwara and K. Ameyama	55
Effect of Annealing Process on Microstructures and Mechanical Properties of Cold-Rolled Martensitic Steels for Automotive Structural Parts K.C. Yang, J.F. Tu, T.F. Wu, P.C. Hsieh and P.H. Liu	63
Formulation and Characterization of Stainless Steel-Based Feedstocks for Fused Deposition Modeling: Effects of Binder Composition on Rheology, Printability, Physical, and Mechanical Properties S. Khazaei, R. Boukhili, J. Kostenov, W. Regnaud and E. Martin	69
Laser Surface Hardening of AISI 431 Martensitic Stainless Steel by Using Different Laser Sources O. Aroubi, F. Bourahima, C. Lafarge, R. Ardid and F. Brisset	77
Effect of Intercritical Annealing Temperature to Mechanical Performance of Hot-Rolled Medium Manganese Steel T. Perkiö, P.K. Kantanen and A. Kaijalainen	83
Research on the Microstructural Evolution of Injection Molded AZ91 and Ultralight LAZ561Ca Magnesium Alloys during Solidification and Heat Treatment: Multiscale Characterizations and Multiphase Field Modeling T.C. Su, S.Y. Hu, M.H. Wu, I.A. Chen, L.H. Wu, H.C. Huang and K.Y. Liang	89
Thermomechanical Rolling of Air-Cooled Thick Nb-Ti-V-Ni High Strength Structural Plate D.R.N. Maubane, K.M. Banks and N.T. Luthuli	95
Thermodynamics of Bimetallic Joints between Titanium and Tantalum Produced by Laser Powder Bed Fusion B. Gaskey, R. Montoya, M. Brand, R.A. Bloom and J.S. Carpenter	101
Fabrication and Bonding Properties of Joints Formed by Transient Liquid Phase Diffusion Bonding Using Electroplated Films T. Kobayashi, S. Totsuka and I. Shohji	107
