

Table of Contents

Preface

Chapter 1: Composites and Polymers

Effect of Borax on Self-Healing Properties of Microcrystalline Cellulose Reinforced Epoxidized Natural Rubber Composites B. Junyam, T. Chantaramanee, S. Tanpichai and A. Boonmahitthisud	3
The Ageing Behavior of Traditional Bamboo Paper: Structure and Properties Z.R. Zhu, K. Zhang, Y. Xue, Z.M. Liu, R.Y. Lin, M.Q. Xu, P. Liu and X.X. Ji	9
Fabrication of a Hybrid Natural Fiber Composite via Nito Fiber and Multi-Walled Carbon Nanotube Reinforcement R.S.B. Sosa, C.S. Emolaga and J.C. Millare	17
Possibility of Using Nanoparticle-Loaded Polyester Fibers as a Triboelectric Generator T. Nakamura, T. Hayashi, M.R. Harada and H.T. Uchida	25
High Performance Recycled Polypropylene Composites Reinforced with Corn Cob Pith Powders S. Maestro, B.A. Basilia and M.C. Marquez	33
Enhancing the Properties of PVA-Based Hydrogel with Cellulose Nanofibers and Tartaric Acid for Safe Paper Conservation W. Leksomboon and K. Pacaphol	45

Chapter 2: Metal Surface Modification, Coatings and Corrosion Resistance

Influence of Thermal Treatments on the Corrosion Behaviour of Nickel-Aluminum Bronze in Freshwater-Like Aqueous Environment P. Linhardt, M.V. Biezma, S. Strobl and R. Haubner	55
New Approaches for Evaluating the Resistance of Clads under High Temperature Corrosion Conditions J. Brezinová, J. Viňáš and J. Brezina	63
Novel ASC Refractory Design and Installation for Improved Energy Efficiency and Corrosion Resistance in Industrial Applications A. Mašlejová, D. Chudíková, B. Bul'ko, P. Demeter, J. Legemza, M. Hrubovčáková and L. Sobotova	71
The Impact of Final Turning on the SCC Susceptibility of Austenitic Stainless Steel AISI 304 and AISI 321 M. Kudláč, M. Dománková, K. Bártová, M. Gavalec and D. Slněk	77
Effects of Composition and Layer Number on the Mechanical Properties of Multilayered Si-DLC / DLC Coatings A. Okano and A. Nishimoto	85
Investigation of Al-Si Coating Behavior on 22MnB5 Boron Steel during Heat Treatment A. Ducháč and P. Kejzlar	93
Metallographic and Fractographic Analysis of Plastic Deformation of Austenitic Stainless Steel AISI 304 after Static and Dynamic Loading V. Chvalníková, M. Uhrčík, M. Slezák, J. Belan and T. Vlach	99
Metallographic Analysis of the Cutting Zone and Comparison with Numerical Simulation M. Martinkovič, M. Necpal, T. Vopát and M. Dománková	107
