## Preface, Scientific Committee, Organizers and Sponsors

## Chapter 1: Microstructure Analyses and Materials Research

<b>Development of Forming Processes for MoNiCr Alloy</b> Z. Novy, J. Džugan, P. Wangyao and L. Kraus	3
<b>Effect of Alloying Modification in Arc Melted Hastelloy X on Microstructures and Oxidation Resistance at Elevated Temperatures</b> P. Srigiofun, P. Wangyao and T. Rojhirunsakool	8
<b>Effect of Pre-Weld Heat Treatment Temperatures on TIG Welded Microstructures on Nickel Base Superalloy, GTD-111</b> T. Rojhirunsakool, D. Thongpian, N. Chuankrerkkul and P. Wangyao	14
<b>Effect of Thermal Exposure on Long-Term Heated Microstructures at 900°C of Nickel Base Superalloy Turbine Blade, Grade Inconel 738</b> P. Wangyao, S. Polsilapa, S. Singmaneesakulchai and A. Promboopha	19
<b>Effect of Thermal Exposure on Long-Term Heated Microstructures at 900°C of Nickel Base Superalloy Turbine Blades, Grade Udimet 500</b> P. Wangyao, S. Polsilapa, A. Srimek and A. Promboopha	25
<b>Effects of Isothermal Aging on Microstructure Evolution of Biomedical Co-Cr-Mo Alloy</b> P. Khaimanee, P. Choungthong and V. Uthaisangsuk	31
<b>Direct Observation of Liquation in Ni-Base Superalloy by Using Confocal Laser Scanning Microscopy</b> N. Phuraya, I. Phung-On, H. Terasaki and Y. Komizo	36
<b>Atmospheric Corrosion Behavior Assessment of Carbon Steel Pipes Using Cyclic Salt Spray Test</b> P. Chatisathien and N. Suttitam	42
<b>Determination of 3D Ductile Failure Criteria for Advanced High Strength Steel Sheet</b> K. Charoensuk and V. Uthaisangsuk	53
<b>Effect of Copper and Zinc on Microstructures, Melting Points and Corrosion Resistance of Sn-Zn-Cu-Bi Soldering Alloys</b> W. Terdthaichairat, P. Senthongkaew and R. Techapiesancharoenkij	59
<b>Effects of Beryllium and Tin on Spring Property of Aged Silver Alloys 935 without Solutionization Treatment</b> N. Chairerk, S. Imurai, T. Chairuangsi and E. Nisaratanaporn	64
<b>Effects of Cooling Rate and Carbon Content on Mechanical Property of Sintered Fe-Cr-Mo Alloys</b> W. Kiatdherarat, P. Mungsantisuk, R. Tongsi, S. Mahathanabodee, K. Sirivedin, R. Krataitong, M. Morakotjinda, T. Yotkaew and N. Tosangthum	69
<b>Effects of Destabilisation Heat Treatment on Microstructure, Hardness and Corrosion Behaviour of 18wt.%Cr and 25wt.%Cr Cast Irons</b> A. Wiengmoon, T. Chairuangsi and J.T.H. Pearce	76
<b>Flow Curves Prediction of Heat Treated Boron Alloy Steels for Hot Stamping Process</b> P. Srithananan, P. Kaewtatip and V. Uthaisangsuk	81
<b>Improvement of Slurry Aluminide Coating on Ferritic Stainless Steel AISI430 for High-Temperature Oxidation Resistance</b> P. Promdirek, M. Boonpensin and T. Rojasawasatien	86
<b>Influence of Flux-Core Arc Welding Parameters on Erosion Resistance of Stellite 12</b> P. Lertvijitpun and P. Promdirek	91
<b>An Automatic Selection of Segment Width for the Single Sensor Differential Thermal Analysis (SS-DTA) Based on Piecewise Linear Approximation Technique</b> W. Nieampradit, S. Wongsai and I. Phung-On	96
<b>Assessment of Electricity Generation on Different Inorganic and Metallic Embedded in Solar Photovoltaic Panels: Cases of Thailand</b> P. Peerapong and B. Limmeechokchai	101

<b>Determination of Mechanical Adhesion Energy of Thermal Oxide Scales on Steel Produced from Medium and Thin Slabs Using Tensile Test</b> T. Nilsonthi	106
<b>Effect of Type and Coating Time of Interlayer on Properties and Morphology of Cr-Zr-N Film Prepared by DC Magnetron Sputtering PVD on H13 Steel</b> K. Taweesup, R. Lertsakwanit, J. Jirawanichkul, N. Yongvanich, G. Lothongkum and P. Visuttiptitukul	111
<b>Wear of Diamond Grinding Wheel during Low Speed Dressing by Alumina</b> T. Luangvaranunt, N. Tangkaratanakul and P. Sakultantimetha	120
<b>The Role of Fluorosurfactant on Cu-Sn Electrodeposition from Methanesulfonic Acid</b> N. Pewnim and S. Roy	125
<b>A Study on Spirituous Liquor Efficiency Using Direct Alcohol Fuel Cell</b> N. Wongyao, A. Therdthianwong and S. Therdthianwong	129

## Chapter 2: Materials Processing Technology

<b>Developments of Metallic Foams in Thailand</b> S. Asavavisithchai	135
<b>Effect of Electrolytes on Quality Characteristics of Glass during ECDM</b> P. Kumar Gupta, A. Dvivedi and P. Kumar	141
<b>Mechanical Properties Improvement of Semi-Solid State Joining of Aluminum Alloys SSM A356</b> A. Geaowdee and P. Muangjunburee	146
<b>Microstructure and Mechanical Properties of Welding Repair of 5083 Aluminum Alloy</b> S. Sukawet and P. Muangjunburee	151
<b>The Decomposition of Zinc Ferrite in Electric Arc Furnace Dust by Carbon</b> S. Polsilapa, P. Intakuean and A. Promboobpa	156
<b>The Influence of Current Density for Zinc Electrodeposition on Color Appearance of Black Trivalent Chromate Conversion Coatings</b> N. Pintuperakovit, W. Mohammed, P. Visuttiptitukul, S. Sukkasi and Y. Boonyongmaneerat	161
<b>Wear Behavior of Hardfacing Deposits on 3.5 % Chromium Cast Steel</b> B. Srikarun and P. Muangjunburee	167
<b>Wear Behavior of Hardfacing Deposits on Hadfield Steel</b> C. Dumrudkarn and P. Muangjunburee	172
<b>Drilled Hole Technique for Created Single Point Incremental Forming Limited Diagram</b> K. Rattanachan	177

## Chapter 3: Nano Materials and Technology

<b>Effects of Ageing Periods on Compositions and Sizes of Titanium Dioxide Particles Synthesized by Sol-Gel Technique</b> O. Jongprateep and R. Puranasamriddhi	185
<b>Synthesis and Characterization of PdCoNi Nanocomposites Supported on Graphene as Anodic Electrocatalysts for Methanol Oxidation in Direct Methanol Fuel Cell</b> S. Meeyng, P. Viravathana, A. Wongchaisuwat and S. Tangbunsuk	190
<b>Determination of Stress-Strain Curve of Dual Phase Steel by Nanoindentation Technique</b> S. Punyamueang and V. Uthaisangsuk	195
