

# Table of Contents

## Preface

## Chapter 1: Metallurgy and Processing of Steel and Alloys

<b>New Electroslag Technology for Producing Manganese-Containing Titanium Alloys</b> I. Protokovilov, V. Porokhonko and Y. Titkov	3
<b>Effect of Chemical Composition and Heat Treatment on the Mechanical Properties and Electrical Conductivity of Al–Mg–Si Alloys with a Mg/Si Ratio of 1</b> N. Zakharova, M. Iefimov, V. Goncharuk, V. Kuprin, A. Sameliuk and O. Muzyka	11
<b>Study of Temperature Dependence of the Contact Angle in the Liquid Tin–Tungsten Substrate System</b> Y. Syrovatko and E. Shtapenko	19
<b>Microstructure Characterization of a Dissimilar 14MoV6-3/T91 Weld after Long-Term Service Exposure at 580°C</b> V. Vodárek, R. Palupčíková and P. Váňová	27
<b>Evaluation of the Operational Degradation of ESW Pipeline Welds</b> Z. Vávrovcová, Z. Veselka and J. Bajer	35
<b>Evaluation of Interface between Alumina Dispersion Strengthened Copper Composite and Precipitation Strengthened Copper</b> F. Kromka, O. Milkovič, J. Szabo, K. Ďurišínová, J. Ďurišin and I. Pethryshynets	41

## Chapter 2: Green Building Materials

<b>Mechanical Evaluation of Adobe Reinforced with Wool and Corn Husk Fibers for Rural Housing</b> A.C.C. Cabanillas, V.C. Espinoza Julcapoma and C.A. Eyzaguirre Acosta	49
<b>Effect of Waste Type and Bio-Resin Addition on Flexural Strength of Constructional Composites: A Full Factorial Experimental Design Study</b> H. Sezgin and I. Yalcin-Enis	61
<b>Optimization of Thermal Insulation and Air Permeability of Recycled Polyamide-Based Fibrous Building Panels through Full Factorial Experimental Design</b> I. Yalçın-Eniş and H. Sezgin	69
<b>A Review of Mycelium-Based Composites as a High Fire-Rated Construction Material</b> A. Akintunde, F. O'Flaherty and O. Ojedokun	75
<b>Study of the Mechanical Behavior of Adobe Stabilized with Crushed Barley Straw</b> R.C. Shedan and F.L. Fernandez Da Silva	83
<b>Comparative Analysis on the Flexural Performance of Concrete Reinforced with Abaca Fiber, Banana Fiber and Ramie Fiber</b> K.D. Marcos, M.G. Calamba, M.J. Alfredo Jr. and M.M.C. Rodriguez	89
<b>Synthesis of Additive Modifiers to Enhance the Performance Properties of Asphalt Concrete</b> A. Meymaryan and N. Chilingaryan	97

## Chapter 3: Structural Engineering

<b>A Proposed Design of Disaster-Resilient Housing by Adopting Botong Bamboo (<i>Dendrocalamus latiflorus</i>) in Davao Oriental</b> J.G. Recorte, R.M.D. Jusain, J.D.P. Bisnar, M.M.C. Rodriguez and K.D. Marcos	105
<b>Bending and Buckling Performance Analysis on Structure of a 2D Honeycomb Lattice Pocket Beam</b> M.U. Uysal	113
