

Table of Contents

Preface

The Effect of Combined Loads on the Destruction of Rocks with a Granular Structure V.S. Romanova and V.V. Gabov	1
Influence of the Microstructure on the Damping Properties of Stress-Strain Tool Systems in the Processing of Welded Structures from Dissimilar Steels V.V. Maksarov, A.E. Efimov and A.I. Keksin	7
Mechanical Properties and Mineralogical Composition of Potash Ore as a Factor in Selecting the Processing Method Y.V. Kuskova and N.A. Lipnitsky	17
Analysis of the Transient Contact Resistance of Composite Copper-Graphite Material Obtained Using Plasma Spraying Technology P. Derevyankin and V. Frolov	27
Color Identification Mark by Laser Processing of Silver Surface V.V. Romanov, T.A. Nguyen, N. Shchedrina, D. Lutoshina, V. Mikhailovskii, D. Danilov, M. Sergeev and G. Odintsova	35
Analysis of the Structure of Viscous Oil Flow for the Development of a System to Prevent the Formation of Paraffin Deposits in Pipelines A.V. Kopteva, A. Dementyev and V. Koptev	42
Prediction of Deformation Processes of Polymeric Materials Taking into Account Plastic Irreversible Deformation A.V. Demidov, A.G. Makarov and N.V. Pereborova	52
Machinability of Heat-Resistant Titanium Alloys during Turning T. Larionova, S.A. Lyubomudrov and E. Larionov	62
Studying the Relationship between the Strength and Stress-Related Characteristics of Concrete as a Conglomerate and the Properties of its Components E. Shcherban', S. Stel'makh, A. Sysoev and A. Chernil'nik	71
Studying the Effect of some Factors on the Stress-Strain Behavior of the Rostov Region Limestones in the Course of their Production and Use M. Kholodnyak, S. Stel'makh, E. Shcherban' and M.P. Nazhnev	80
Study of the Composition and Properties of Coatings being Formed during Combustion of Al + B₂O₃ Mixtures on Steel Substrates A. Shegolev, A. Ishkov and V.N. Malikov	87
Direct Laser Deposition Method of Multilayer Coating on High Manganese, Non-Magnetic Steel D.V. Masaylo, S.D. Igoshin, A.V. Orlov and A.A. Popovich	97
Analysis of Promising Areas for Creating Materials of Micromechanical Devices S. Bibikov, M. Kalinkina, A. Kuznetsov, A. Pevneva, O. Pirozhnikova and V. Tkalic	105
A Surface Structure Formation of Stainless Steel Using a Laser D.A. Konchus and A.V. Sivenkov	112
Structure Formation of Butt Joints Made of Aluminum Alloys to Ensure the Quality of Mechanical Engineering Products D.M. Sharapova, M.G. Sharapov and N.I. Sharonov	119
Influence of the Composition of Boriding Mixture on the Saturation of the Surface of Various Steels with Boron during High-Speed HFC-Boriding A. Ishkov, V.N. Malikov and A. Shegolev	127
Influence of the Material Structure and Properties on the Wear Resistance of Gears with Different Geometries S.L. Ivanov and P. Shishkin	136
Increasing the Rigidity of Thin-Walled Machine Parts Made of Aluminium Alloys by Reducing its Grain Size by Two-Way Ultrasonic Smoothing H. Chibukhchyan, A. Balasanyan and B. Balasanyan	142
Perspective Composite Material Made of Volume Fabric - Experimental Tests V.E. Rogov and A.S. Chermoshentseva	152

Application of Titanium Alloy and Titanium-Based Coatings in a Gate Valve during Oil Production	
S.I. Mirgorodskiy, S.A. Lyubomudrov, G.D. Bitsoyev, L. Mirgorodskiy and O.Y. Shiripa	159
Phase Formation in Contact Melting in a Cadmium-Indium System Doped with Sodium	
A.M. Bagov, A.I. Khasanov and M.A.V. Zubkhadzhev	168
Influence of Doping with Indium onto Contact Melting of Tin and Bismuth	
A.M. Bagov, A.I. Khasanov and M.A.V. Zubkhadzhev	174
Application of Galvanic Zinc-Iron Coating in the Repair of Transport and Technological Machines	
D.M. Rozhkov, E.V. Eltoshkina, P.I. Ilyin and O.A. Svirbutovich	181
Concentration Dependence of the Surface Tension of Three and Four-Component Systems with Peculiarities in the Surface Tension Isotherms of Lateral Binary Melts	
R.K. Dadashev and R.A. Kutuev	194
Synthesis, Study of Dielectric Properties, Thermogravimetric Analysis and Hemolytic Effect of Copolymers Based on Various Derivatives of Styrene and α-Methylstyrene	
I.S. Dolgin, P.P. Purygin, Y.P. Zarubin and A.V. Samorodov	203
The Effect of Particle Sizes on the Concentration Dependence of the Surface Tension of Aqueous Suspensions of Bentonite	
R.K. Dadashev, R.S. Dzhambulatov, Z.S. Khasbulatova and K.S. Talkhigova	212
Rate and Driving Forces of Grain-Boundary Migration in Solid-State Alloys	
V.S. Novosadov, R.K. Dadashev, D.Z. Elimkhanov and R.S. Dzhambulatov	218
Surface Properties of Copper-Aluminum Alloys	
R.A. Kutuev, V.A. Sozaev and A.K. Shermetov	224
