

Table of Contents

Preface

Chapter 1: Composites, Polymers and Ceramic Materials

Studying Breakdown and Electrical Hardening of Crystal Materials with Proton Conductivity V.M. Timokhin	3
Research of the Brittleness and Crack Resistance of Samples Made of Highly Hardened Silicon Carbide Ceramics O. Dushko, G. Voronkova and S. Rekunov	13
Epoxy Compositions Modified with Ammonium Polyphosphate and Boric Acid S.G. Shuklin, L. Makarova and M. Eremina	21
Prospects of Using Hyperelastic Elastomer Materials in Vehicle Suspension Systems E.V. Stepanov, Y.I. Molev, S.M. Ogorodnov and L.N. Orlov	28

Chapter 2: Structural Metals and Alloys

Cast High-Strength Wear- and Corrosion-Resistant Austenitic Nitrogen Steel for Fittings Used in Shipbuilding S. Muradyan, M.V. Kostina, V.S. Kostina, L. Rigina and V.M. Timokhin	41
Using the Method of Measuring the Microhardness of Different Zones of Welded Joints to Assess the Strength Properties V.S. Kostina, M.V. Kostina, S. Muradyan and V.M. Timokhin	48
Temperature Influence on Readability of the QR-Code on Titanium Alloy D.A. Konchus, E.M. Salpagarov and A.V. Sivenkov	54
Microstructure and Eddy-Current Analysis of Aluminum 01570 Welded Joints Obtained by Friction Stir Welding V.N. Malikov and A.V. Ishkov	60
Effect of Electrotransport on Concentration Distribution in Melts Formed by Contact Melting A.M. Bagov, A.I. Khasanov and M.V. Zubkhadzhev	70
Thermal Properties of Zn5al and Zn55al Alloys with II a Group Elements Z. Nizomov, Z.I. Avezov, R.K. Saidov, F.M. Mirzoev and M.B. Akramov	76

Chapter 3: Coatings and Surface Engineering

Features of the Structure Formation of the Machine Parts' Surface Layer in the Conditions of Hybrid Processing V. Skeebea, V. Ivancivsky and E.A. Zverev	87
Determining the Residual Stresses in High-Chromium Cast Iron Plasma Coatings E.A. Zverev, V. Skeebea, V. Ivancivsky, N.V. Vakhrushev, K.A. Titova, D. Lobanov and N.V. Martyushev	94
Protection against Atmospheric Corrosion by Means of Coatings Based on a Fluorine-Containing Surfactant S. Gaidar, M.Y. Karelina and H. Quang	101
Surface Modification Techniques for Steel Components Working in Wear and Corrosion Conditions L.G. Petrova and P. Demin	108
Detonation Spraying of Composite Targets Based on Ni, Cr and B₄C for Magnetron Multi-Functional Coating V.V. Sirota, S. Zaitsev, D. Prokhorenkov, M. Limarenko, A. Skiba and M.G. Kovaleva	115

Chapter 4: Tribology

Ferromagnetic Lubricants in a Bearing with a Porous Coating of a Base Ring A. Opatskikh	123
Friction Impact on the Accuracy of the Dependence of Micro-Hardness on Plastic Deformation in Testing Metals under Uniaxial Compression Y. Tsvetkov, E. Gorbachenko and R. Larin	132
Tribological Properties of Coating Obtained by Magnetron Sputtering of the Composite Target Ni-Cr-B₄C V.V. Sirota, M. Limarenko, S. Zaitsev, D. Prokhorenkov, M.G. Kovaleva and A.I. Gorodov	139

Chapter 5: Materials for Opto- and Microelectronics

Electrophysical Properties of N-CuInse Based Heterostructures A.K. Matiyev, R.T. Uspazhiev, T.A. Matieva, L.I. Israilova, A.D. Israfilov, A.X. Shankhoeva and A.K. Yusupov	149
Thin SiC and Gan-Based Films and Structures: Production and Properties A.V. Sankin, V.I. Altukhov and Z.I. Dadasheva	156
Study of IR Spectroscopy of Crystalline Materials Structure Used in Laser Shutters V.M. Timokhin, V.M. Garmash and V.A. Tedgetov	162
Electro-Optical Properties in β- $Tl_{1-x}Cu_xInS_2(0 \leq x \leq 0,015)$ Crystals A.K. Matiyev, R.T. Uspazhiev, T.A. Matieva, K.I. Khamsurkaev, L.I. Israilova, A.D. Israfilov, K.I. Dolakova and A.K. Yusupov	169

Chapter 6: Materials and Technologies in Construction

Compositions for Limestone Restoration V. Loganina and M.V. Zaytseva	177
Properties of a Composite Cement Binder Using Fuel Ashes V.V. Strokova, I.Y. Markova, A.Y. Markov, M.A. Stepanenko, S.V. Nerovnaya, D.O. Bondarenko and L.H. Botsman	184
High-Strength Cement Composites Modified with a Complex Additive Hyper Plasticizer - Bentonite A.M. Abdullaev, R.M. Abdullaev, M.A.V. Abdullaev, D.K.S. Bataev, P.D. Bataeva and R.S. Dzhambulatov	191
