

Table of Contents

Preparation and Characterizations of High Quality InGaAs/GaAs Strained Multi-Quantum Wells Grown by MBE J.M. Zhou, H.Q. Hou and Y. Huang	1
Influence of Growth Parameters on the Surface Morphology of MBE Grown GaAs and $\text{Al}_x\text{Ga}_{1-x}\text{As}$ Layers S.V. Ivanov, P.S. Kop'ev and N.N. Ledentsov	9
Optical Switching of Double-Barrier Resonant Tunneling AlGaAs/GaAs Diode S.V. Ivanov, P.S. Kop'ev, V.I. Korol'kov, N.N. Ledentsov, M.E. Lutsenko, B.Y. Mel'tser, T.S. Tabarov and S.V. Shaposhnikov	13
Sb Delta-Type Doping in Si-MBE Superlattices A.I. Nikiforov, B.Z. Kanter, S.I. Stenin and S.V. Rubanov	17
Molecular Beam Heteroepitaxy on Silicon Substrates A. Zehe	21
MBE Growth, Properties and Applications of Epitaxial Dielectric Fluoride Films on Semiconductors N.S. Sokolov	29
Evaporation and Incorporation of Gallium Atoms and Ions during Si MBE with a Sublimating Source A. Kozhukhov	37
Comparison of Growth Kinetics and Source Material Utilization Efficiency in MBE under Conventional and Ale Conditions J. Aarik, J. Lembra and H. Siimon	41
PED Mechanism Studied by Molecular dynamic Computer Simulation B. Fritzsche, B. Wolf and A. Zehe	45
Growth of Aluminum and Copper on Silicon by Molecular Beam Epitaxy M. Büschel, T. Gantz, A. Thomas and A. Zehe	49
MBE System for Research M. Laznicka	53
Optical Simulation of the Effusion Molecular Beams in Epitaxy Technology B. Adamczyk, L. Michalak and E. Radzka	57
The Liquid Metal Ion Source for Molecular Beam Epitaxy of Silicon V. Avrutin and A.F. Vyatkin	61
Prior to Growth Examinations of the Quality of GaAs Substrates M. Cukr, J. Kub, J. Pastrňák, J. Oswald and V. Mísková	65
The Advantages of Selectively Delta-Doped III-V Heterostructures for HEMT Applications P.S. Kop'ev, A.A. Budza, S.V. Ivanov, N.N. Ledentsov, B.Y. Mel'tser, M.Y. Nadtochy and V.M. Ustinov	67
III-V Heterostructure Lasers with Short Period Superlattice Recombination Region A.M. Vasil'ev, A.A. Dzamashvili, S.V. Ivanov, P.S. Kop'ev, N.N. Ledentsov, B.Y. Mel'tser and V.M. Ustinov	75
AlGaAs/GaAs Heterojunction Photodiodes Grown by MBE F. Riesz, B. Szentpáli, I. Mojzes, A. Salokatve, H. Asonen and M. Pessa	81
An Extension of the Interfacial Layer Theory for Mixed Phase Metal-Semiconductor Contact T.Q. Tuy, I. Mojzes, B. Szentpáli and I. Cseh	85
Electrophysical Parameters of the Metal-Semiconductor Interface in MBE and VPE Grown GaAs Schottky Contacts Z.E. Horváth, B. Kovács, M. Németh-Sallay and B. Pécz	99
The Dependence of Schottky Barrier Height of Metal-Semiconductor Contacts on the Ratio of Interfacial Area Occupied by Different Metal Components T.Q. Tuy, I. Mojzes and B. Szentpáli	101
MBE Grown Planar Doped Barrier Diodes for Microwave Purposes V.V. Tuyen, B. Szentpáli, I. Mojzes, A. Salokatve, H. Asonen and M. Pessa	107
Interface Symmetry and Heteroepitaxy A.V. Andreeva	111

MBE Growth and Investigation of Heteroepitaxial CdTe, ZnTe Layers and CdTe-ZnTe Superlattices	
J.M. Tchekochinin, S.M. Roomyantseva and V.S. Roodnev	115
Raman Scattering by Phonons in Short-Period GaAs/AlAs Superlattices	
I. Gregora, V. Vorlíček, K. Kokesová and K. Ploog	119
Temperature Dependence of Raman Scattering in Monocrystals and Epitaxial Thin Films of ZnSe	
W. Bala, M. Kozielski and M. Drozdowski	123
Low Temperature Photoluminescence of ZnSe Strained Thin Layers Grown on GaAs by MBE	
W. Bala	127
Computer Simulation of Interdiffusion Processes on II-VI Superlattices	
V.A. Potesnikov, Y.M. Shchekochihin and E.B. Tsaviva	131
MBE Growth and Properties of Si/GeSi Superlattices on Si (111)	
V.A. Markov, O.P. Pchelakov, A.B. Talochkin, V.N. Sherstyakova and V.N. Shumskiy	135
The Pair-Doped Delta-Superlattice: An Inner Probe to Measure Monolayer Doping Fluctuations in Semiconductors	
A. Zehe	139
Eu²⁺ and Sm²⁺ Ions as a Photoluminescent Probe in Epitaxial CaF₂ Films on Semiconductors	
S.V. Novikov, N.S. Sokolov and N.L. Yakovlev	151
Low-Temperature Anomalies of 2D Electrons n-Al_xGa_{1-x}As/GaAs Transfer Phenomena	
V.I. Kadushkin and A.P. Senichkin	155
In Situ REM Study of Silicon Surface during MBE Processes	
A.V. Latyshev and A.B. Krasilnikov	159
Investigation of Sublimation Process of (111) and (100)CdTe Films by Rheed Intensity Oscillation	
S.A. Dvoretzkiy, V.V. Kalinin, V.D. Kuzmin and Y.G. Sidorov	163
Composition of Oxides on (100) GaAs Produced by Oxygen Ion Bombardment	
M. Láznicka	167
Characteristics and Application of Thin Epitaxial Dielectrics Formed by MBE	
M. Maeder, F. Sellam and A. Zehe	171
SEM Investigation of Defects on InP	
R. Fellenberg and W. Erfurth	175
Characterization of MBE Grown Si Doped GaAs Layers on (100) GaAs and Si Substrates by Photoluminescence	
J. Pastrňák, A. Bosacchi, A. Salokatve, J. Varrio and M. Láznicka	179
Ultrahigh Vacuum System	
V.I. Kratenko	183
GaAs and GaSb Treatment for MBE	
L. Pramatarova, G.M. Michev, H. Naradikjan and L.M. Trendafilov	189
