

Table of Contents

Preface

Chapter 1: Biomaterials

Developing a Physically Cross-Linked Hydroxyethyl Cellulose Hydrogel for Wound Dressing Applications J. Jamlang, M.T. Marañon, G.J. Rigor and T. Tumolva	3
Exposure-Dependent Antimicrobial Activity and Oxidative Properties of Polymer-Based Graphene Oxide Nanocomposites J.V.D. Perez, J.V.D. Perez, R.D. Rojo, M.L.P. Dalida and D.F. Rodrigues	13
Preparation, Characterization, and Encapsulation Efficiency Test of Simvastatin Microencapsulation Using Polyblend of Poly(Lactic Acid) and Poly(-Caprolactone) R. Hayatunnufus, G.P.E. Wati and E. Budianto	21
Characterization and Efficiency Test of Nifedipine (NIF) Microencapsulation Using Polyblend of Poly(Lactic Acid) and Poly(-Caprolactone) G.P.E. Wati, R. Hayatunnufus and E. Budianto	26

Chapter 2: Carbon Materials

Synthesis and Characterization of Tin Oxide-MultiWalled Carbon Nanotube Composite Material as Carbon Monoxide Gas Sensor B. Yulianto, D.W. Zulhendry, N.L.W. Septiani, Irzaman, Ferdiansjah, M.Z. Fahmi and Nugraha	35
Effect of CS₂ Flow Rate on the Formation of Aligned Carbon Microcoils H.J. Kim and S.H. Kim	40
Novel Preparation and Characterization of Fe₂O₃/CNT Thin Films for Flammable Gas Sensors B. Chaitongrat and S. Chaisitsak	47
Experimental Study on a Chemisorption Refrigeration System Prototype Using Expanded Graphite/Activated Carbon/Lithium Chloride-Ammonia Working Pair in a Solution of 25% NH₃ M. Carmona, E. Pérez, J. Yepes and S. Villalobos	52

Chapter 3: Nanomaterials and Nanotechnologies

Electrospun Ag/WO₃ Composite Nanofiber Photoanodes Prepared by DC Electrophoretic Deposition for Photoelectrochemical Water Splitting T. Thammabut, T. Yuangkaew, C. Chumpanya, T. Tamsenanupap, P. Jaroenapibal and N. Triroj	61
Nano-Structured Silicon: Fabrication, Optical Property, Defect States and Device Application H. Zhong, D.Y. Li, Y.H. Song, W. Li, X.D. Jiang and Y.D. Jiang	66
Plasmonic Resonance Sensitivity in Phase Transition of Ga Nanoparticle Arrays Grown by Glancing Angle Deposition Technique O. Ualibek, A. Tikhonov, A. Kurbanova, G. Demeuova, I.V. Shvets and G. Sugurbekova	71
Hybrid Nanocomposites of Poly(Lactic Acid)/Thermoplastic Polyurethane with Nanosilica/Montmorillonite N. Palawat, P. Chaiwutthinan, S. Limpanart, A. Larpkasemsuk and A. Boonmahitthisud	77
Silica Nanoparticle Synthesis and Multi-Method Characterisation P. Musigapong, S.M. Briffa, I. Lynch, S. Soontaranon, N. Chanlek and E. Valsami-Jones	82
Preparation of Large-Scale CoS₂ Nanowires and their Raman Study P.F. Wu, J.B. Shi, B.C. Cheng, H.S. Lin and H.W. Lee	91

Spectroscopic Analyses of Sputtered Aluminum Oxide Films with Oxygen Plasma Treatments

C. Hom-On, M. Horprathum, P. Eiamchai, S. Limwichean, V. Patthanasetakul, C. Chananonnawathorn, T. Lertvanithphol, P. Songsiriritthigul, H. Nakajima, N. Triroj and P. Jaroenapibal

96

Chapter 4: Functional Materials

Prediction of Hardness in Drawn Copper Wire by Effective Strain from Finite Element Simulation

C.C. Chang, Y.T. Hsieh, C.H. Kao, S.Y. Shao and C.H. Hsu

103

Assistive Electro Discharge Machining of AlN Ceramics

A. Sarsen, A. Bilal, M.R. Sankar, D. Talamona and A. Perveen

109

Bottom-Ash Waste Management for Soil Improvement in Saraburi Province, Thailand

K. Maneeintr, T.T.A. Tran and W. Kaewmaneewan

114

Electrochemical Properties of Ball-Milled Zinc Hexacyanoferrate Cathode Material for Calcium Ion Batteries

D.Y. Kim, H. Lee and S.K. Jeong

119

Evaluations of Absorption Materials Applied in the Noise Reduction: Experiment and Simulation

Y.C. Liu, Y.C. Huang, Y.J. Tang and T.H. Lei

125

Thermoelectric Cell Produced from AA1100 Aluminium Alloy Coating on Metakaolin by Friction Surfacing Process

D. Mingmuang, S. Talangkun, S. Paengson and T. Seetawan

130

Chapter 5: Coatings, Surface Engineering and Tribology

Various Size of Glass Fiber Treated Silane Coupling Agent in Epoxy Primer Coating: Corrosion Behaviour

Z. Ahmad, Hasniraaiman, M. Onn, A.F. Mohamad, M.A. Ikhwan and N. Fatehah

137

Effects of Flame Retardant Nano Bio-Based Filler on Fire Behaviors of Intumescent Coating

M.K. Yew, M.C. Yew, L.H. Saw, J.H. Beh, Y.J. King and R. Durairaj

142

Wear-Resisting Properties of Epoxy/WC-Co/Al Coating on 300M Steel

F. Ding, S.Q. Li, P.Z. Zhang, D.B. Wei, X.H. Chen and S.Y. Wang

148

Experimental Study on Water-Lubricated Bearing Material in Deep Sea Space Station

C.H. Dai, X.S. Lao, Y. Liu and W. Wei

155

Application of Minimum Quantity Lubrication for Drum High Clutch in Turning Process

N. Khumjeen and S. Tangjitsitharoen

160

Performance Study on Modified UHMWPE Composites Water Lubricated Bearing Material

X.S. Lao, C.H. Dai, Y. Liu and W.J. Lv

167

Contact Angle Properties of Bioacrylic Palm Oil Based Polyol for Polyurethane Coating

S.A. Ernie, N.M.N. Nurul, W.H. Farah, S.A. Zubir and M.Z. Norazwani

173

Scratch Hardness Properties of Waste Palm Cooking Oil Based Polycaprolactone Urethane Coatings

N.M. Zain, W.A. Ashraf and S.A. Ernie

178

Chapter 6: Polymers and Composites

Thermal and Morphological Properties of ABS/Muscovite Layered Silicate Composites

N.H. Che Ismail, H.M. Akil and Z.A.S.A. Salim

185

Effect of Die Pressure and Injection Speed on Rheo-Die Casting of A356-SiC Composite

C. Potisawang and S. Talangkun

190

Tensile Properties and Dynamic Mechanical Behaviour of Natural Rubber Compound Filled with Rice Husk Silica Produced via Solvent-Thermal Extraction Method

Z.A.S.A. Salim, A. Hassan, H. Ismail and N.H. Che Ismail

195

Morphology and Mechanical Properties of Poly(Lactic Acid) with Propylene-Ethylene Copolymer and α-Cellulose S. Wacharawichanant, P. Opasakornwong, R. Poohoi and M. Phankokkruad	200
--	-----

Chapter 7: Building Materials

Mixture Proportioning Design of Pervious Concrete Using the Paste Content Ratio Method (Aggregate Gradation 19mm~9.5mm and 9.5mm~4.75mm) J.H. Su, Y.F. Cheng and N.J. Wu	207
Pozzolanic Reactivity of Coal Bottom Ash after Chemically Pre-Treated with Sulfuric Acid A. Kusbianoro, A.H. Ismail and R. Embong	212
Recycled Nanoparticles of Artificial Corundum as Fine-Grained Addition in Concrete Mixture R. Pernicová and T. Kolomaznik	217
Confined Effect of Spiral Steel on the Bond Strength of Tension Lap Splice in SCC Beam C.H. Wu, Y.F. Lin, H.J. Chen and M.Y. Chen	222
Effects of the Reinforcement Positions and Number of Nickel-Titanium SMA Wires on the Structural Properties of HIHFR Beams S.J. Lee and J.M. Park	228
