

Table of Contents

Preface, Committees, Sponsors

Chapter 1: Nanomedicine and Nanopharmacology

Conjugates of α-Cobratoxin with CdSe Quantum Dots: Preparation and Biological Activity Y.N. Utkin, I.Y. Cherepakhin, E.V. Kryukova, I.V. Shelukhina, Y.V. Makarova, I.E. Kasheverov, A.K. Mukherjee, A.A. Gusev and D.V. Kuznetsov	3
Novel Baddeleyite-Based Zirconia Ceramics for Biomedical Applications A.I. Tyurin, A.O. Zhigachev, A.V. Umrikhin, V.V. Rodaev and T.S. Pirozhkova	9
Long-Term Creep and Impact Strength of Biocompatible 3D-Printed PLA-Based Scaffolds K.V. Niaza, F.S. Senatov, A. Stepashkin, N.Y. Anisimova and M.V. Kiselevsky	15
Graphene-Modified Heat-Accumulating Materials and Aspects of their Application in Thermotherapy and Biotechnologies A.V. Shchegolkov, A.V. Shchegolkov, E.V. Galunin, A.A. Popova, R.M. Krivosheev, N.R. Memetov and A.G. Tkachev	21
Ce_{1-x}Gd_xO_y Nanoparticles Stimulate Proliferation of Dental Pulp Stem Cells <i>In Vitro</i> A.L. Popov, O.G. Tatarnikova, N.R. Popova, I.I. Selezneva, A.Y. Akkizov, A.M. Ermakov, O.S. Ivanova and V.K. Ivanov	26
Comparative Characteristics of Nanodisperse Labels for Immunochromatographic Test Systems N.A. Taranova, A.N. Berlina, A.A. Semeykina, A.V. Zherdev and B.B. Dzantiev	32
Germicidal Adhesives with Nanoparticles of Metals for Prevention of Recurrence of Caries G.A. Frolov, Y.N. Karasenkova, A.A. Gusev, O.V. Zakharova, A.Y. Godymchuk, D.V. Kuznetsov, N.V. Latuta and V.K. Leont'ev	39
Gold Nanoflowers and Gold Nanospheres as Labels in Lateral Flow Immunoassay of Procalcitonin K.V. Serebrennikova, J.V. Samsonova, A.P. Osipov, D. Senapati and D.V. Kuznetsov	47
Magnetic Nanoparticles as Carriers for Immunoassays A.E. Urusov, A.V. Petrakova, A.V. Zherdev and B.B. Dzantiev	54
Mechanical Properties and Biocompatibility of the Ti-Based Low-Alloys Minor Alloying by the Noble Metals V.Y. Zadorozhnyy, X.T. Shi, T. Wada, H. Kato and D.V. Louzguine-Luzgin	63
Regenerative Heat Exchanger Based on Graphene-Modified Paraffin for Portable Respiratory Devices A.V. Shchegolkov	69
Cu₂O Water Dispersions and Nano-Cu₂O/Fabric Composite: Preparation by Pulsed Laser Ablation, Characterization and Antibacterial Properties V.A. Svetlichnyi, D.A. Goncharova, A.V. Shabalina, I.N. Lapin and A.L. Nemoykina	75
Examination the Properties of Lipopeptide Liposomes Modified by Glycoconjugates O.O. Koloskova, U.A. Budanova, I.C. Shchelik, I.P. Shilovskii, M.R. Khaitov and Y.L. Sebyakin	82

Chapter 2: Nano- and Bio-Nanotechnology in Agriculture and Ecology

Biologically Active Nanomaterials in Potato Growing M.V. Samoylova, D.G. Churilov, A.A. Nazarova, S.D. Polishchuk and N.V. Byshov	91
Research of Influence of Nanotubes Created by Mechanical Activation of Amorphous Carbon on Sprouting of Seeds V.P. Reva, V.Y. Yagofarov, D.A. Gulevskii, A.E. Filatenkov and V.G. Kuryavyi	96
Influence of Superfine Materials on the Vegetative Reproduction of Black Currant S.A. Suchkova, T.P. Astafurova, S.I. Mikhailova and Y. Morgalev	102
Influence of Nickel Nanoparticles on Biological Activity of Humus Layer of Subboreal Forest I.V. Lushchaeva, Y. Morgalev and S.V. Loiko	108

Investigation of Platinum and Nickel Nanoparticles Migration and Accumulation in Soils within the Southeastern Part of West Siberia S.P. Kulizhskiy, S.V. Loiko, Y. Morgalev, G.I. Istigechev, A.V. Rodikova and T.A. Maron	115
Physiological and Biochemical Parameters of Holstein Heifers when Adding to their Diet Bio-Drugs Containing Cuprum and Cobalt Nanoparticles P.M. Makarov, I.A. Stepanova, A.A. Nazarova, S.D. Polishchuk and G.I. Churilov	123
Theoretical Aspects of Construction of Turning up and Loading Machine with Disinfection Option for Agricultural Waste by Carbon Nanostructures Modified Sodium Acetate A.V. Shchegolkov, B.S. Trufanov, V.D. Hmyrov, V.B. Kudenko, Y.V. Guryanova and D.V. Guryanov	130
Synthesis of Composites Based on Polyaniline-Modified Dispersed Nanocarbon Supports and Prospects of their Application as Sorbents T.P. Dyachkova, I.V. Anosova, E.V. Galunin, N.V. Orlova and A.G. Tkachev	135
Influence of ZnO and Pt Nanoparticles on Cucumber Yielding Capacity and Fruit Quality T.P. Astafurova, A.A. Burenina, S.A. Suchkova, A.P. Zotikova, S.P. Kulizhskiy and Y. Morgalev	142
Influence of Biodrugs with Nanoparticles of Ferrum, Cobalt and Cuprum on Growth, Development, Yield and Phytohormone Status of Fodder and Red Beets V.V. Churilova, A.A. Nazarova and S.D. Polishchuk	149
Dose-Dependent Effects of the Action of Sulfur Nanoparticles on the Growth Response and Seed Production of Typical Steppe Phytocenoses Z.N. Ryabinina, M.V. Ryabukhina and M.V. Kolodina	156
Features of Light Conversion Process with Covering Materials Containing Quantum Dots and their Application in Agriculture S.A. Pavlov, N.E. Sherstneva, S.L. Koryakin, E.Y. Maksimova, V.V. Makovetskiy, V.V. Krikushenko and E.M. Antipov	162
Comparative Analysis of the Activity of Silver Nanoparticles against Native Microflora from Poultry Processing Plants Wastes A.I. Piskaeva, Y.Y. Sidorin and A.Y. Prosekov	176
CuO Nanowhiskers-Based Photocatalysts for Wastewater Treatment A.Y. Kozlov, M.V. Dorogov, N.V. Chirkunova, I.M. Sosnin, A.A. Vikarchuk and A.E. Romanov	183
New Sorption Materials on the Basis of Aluminosilicates for Wasterwater Treatment K.K. Abdugaffarova, M.V. Dorogov, A.A. Vikarchuk, V.V. Zabolotskikh and V.S. Firsov	190

Chapter 3: Nano Safety and other Aspects of Use the Nanotechnology

Accumulation of Silver Nanoparticles in Brain and Testes during Long-Term Ingestion to Mammals Y.P. Buzulukov, I.V. Gmoshinski, A.A. Antsiferova, V.A. Demin, V.F. Demin and P.K. Kashkarov	199
Determination of Silver Nanoparticle Concentration Ratio in the Blood and Brain of Rats for Different Administration Routes V.Y. Soloviev, A.A. Antsiferova, S.S. Fatkina, V.A. Demin and V.F. Demin	206
Tolerance of Hydrobionts to CeO₂ Nanoparticles Y. Morgalev, T.G. Morgaleva, I.A. Gosteva, S.Y. Morgalev and A.A. Nazarov	211
Methodological Aspects of the Health Risk Assessment in Application to Safety of Nanomaterial A.A. Antsiferova, V.A. Demin and V.F. Demin	219
Short-Time Effect of Multi-Walled Carbon Nanotubes on Some Histological and Biochemical Parameters in Marine Bivalves <i>Crenomytilus grayanus</i> (Dunker, 1853) and <i>Swiftopecten swifti</i> (Bernardi, 1858) A.A. Anisimova, O.N. Lukyanova, V.V. Chaika, A.A. Kalitnik, S.A. Danilenko, V.L. Kuznetsov and K.S. Golokhvast	225
3D-Modeling of the Distribution of Welding Aerosol Nano- and Microparticles in the Working Area K.Y. Kirichenko, V.A. Drozd, A.V. Gridasov, S.P. Kobyljakov, A.S. Kholodov, V.V. Chaika and K.S. Golokhvast	232
Antimicrobial Activity of Differently Concentrated Nanoparticle Dispersions G.A. Frolov, Y.N. Karasenkova, A.A. Gusev, O.V. Zakharova, A.Y. Godymchuk, D.V. Kuznetsov and V.K. Leont'ev	239

Cerium Oxide Nanoparticles are Nontoxic for Mouse Embryogenesis <i>In Vitro</i> and <i>In Vivo</i> A.S. Chernov, D.A. Reshetnikov, A.L. Popov, N.R. Popova, I.V. Savintseva and V.K. Ivanov	248
Influence of Metal-Containing Nanoparticles on the Content of Photosynthetic Pigments of Unicellular Alga <i>Chlorella vulgaris</i> Baijer Y. Morgalev, A.V. Kurovsky, I.A. Gosteva, T.G. Morgaleva, S.Y. Morgalev and A.A. Burenina	255
The Effects of Nanosilver, Encapsulated in a Polymeric Matrix, on Albino Rats Brain Tissue L.M. Sosedova and T.M. Filippova	263
Students of Humanities about the Nanotechnology Modernization Results M.S. Chvanova, M.V. Khramova and D.Y. Morev	268
Range of Resistance of Hydrobionts to Medium Contamination with Manufactured Nanoparticles T.G. Morgaleva, Y. Morgalev, I.A. Gosteva and S.Y. Morgalev	279
Study on the Elemental Composition of Environmental Nanoparticles Separated in a Rotating Coiled Column: How Hazardous May Be Urban Dust and Volcanic Ash P.S. Fedotov and M.S. Ermolin	288
Cerium Oxide Nanoparticles Protect Primary Embryonic Mouse Fibroblasts from Oxidative Stress Induced by Low-Temperature Argon Plasma Treatment N.R. Popova, A.M. Ermakov, A.L. Popov, I.I. Selezneva, A.Y. Akkizov, O.S. Ivanova and V.K. Ivanov	294
PBPK-Model Biodistribution of Gold and Silver Nanoparticles in the Body of Laboratory Animals and Humans at Different Ways of Income E.S. Kormazeva and V.Y. Soloviev	301

Chapter 4: Emerging Materials for Multipurpose Applications

Composite Powders TiO_x/CdS Synthesis and the Study of their Optical and Photocatalytic Properties E.A. Gavrilenko and A.A. Biryukov	309
Development of Nanostructured Polymer-Immobilized Anti-Corrosion Barrier-Type Materials, Applied and Operated in Adverse Conditions N.A. Apanovich, A.V. Borovkova, N.E. Sherstneva, S.L. Koryakin, E.Y. Maksimova, E.I. Kavokin and L.A. Onosova	316
Graphene-Based Nanocomposites for Enhanced Pb²⁺ Adsorption A.E. Kucheroва, I.V. Romantsova, A.E. Burakov, N.R. Memetov and M.N. Krasnyansky	323
Electrochemical Synthesis and Photocatalytic Activity of Differently Shaped CuO_x Particles A. Ulyankina, I. Leontyev and N.V. Smirnova	330
Kinetic Study on Pb(II) Adsorption from Aqueous Solutions on Carbon Materials A.E. Kucheroва, I.V. Romantsova, A.E. Burakov, A.V. Babkin, E.A. Neskornaya and M.N. Krasnyansky	334
Evaluating Hydrogen Uptake for Two Types of Multi-Wall Carbon Nanotubes from Nitrogen Adsorption/Desorption Data D.S. Muratov and S. Gromov	341
Preparation of TiO₂/Carbon Nanotubes Composites and a Study of their Adsorption on Organic Dyes I.V. Romantsova, A.E. Burakov, A.V. Babkin, E.A. Neskornaya and A.G. Tkachev	348
Improvement of the Mechanical Properties of AZ91D Magnesium Alloys by Deposition of Thin Hydroxyapatite Film E.S. Melnikov, M.A. Surmeneva, A.I. Tyurin, T.S. Pirozhkova, I.A. Shuvarin, O. Prymak, M. Epple and R.A. Surmenev	355
