
Table of Contents

Comparative Study of MgFeO and ZnFeO Nanoparticles Synthesized by Different Methods for Use in Magnetic Bioactive Glass for Hyperthermia Treatment T. Boonchoo, P. Promkrajang, C. Pitipoomsuksan and W. Leenakul	1
Green Synthesis of <i>Azadirachta Indica</i>- Based Silver Nanoparticles for Antimicrobial Orthodontic Applications R.R. Ali, J.Z. Chan, S. Rajendran and M.S.N. Salleh	7
Compression and Shear Response of 3D Pierced Fabric Cf/C Composite G. Ramaguru, A.R. Bhagat and K. Saraswathamma	13
Development of Sustainable Composites for Automotive Applications S. Shetty, H. Pawar, P. Reddy, R.V. Dhananjai, D. Padmanabhan and K. Kadam	25
Optimized Synthesis of Graphene Oxide-Based Hydrogel Composite Beads for Efficient Methyl Orange Removal from Aqueous Solutions E.C.R. Lopez	33
Multifunctional TiO₂ Nanocomposites for Treatment of Black Limestone at Sultan Hasan Mosque F.M. Helmi and Y.K. Hefni	45
Ternary Nanocomposite as a Charge Transport Layer for High-Efficiency Perovskite Solar Cells M.S. Sadiq and M. Imran	65
Stability Analysis and RSM Approach on MHD Radiative Hybrid Nanofluid Flow between Squeezing Circular Porous Disks S. Akter, M.S. Alam and A. Awal	75
