

Table of Contents

Preface, Organizing Committees and Sponsors

I. Advanced Materials: Synthesis, Structure and Application

Bimetallic Ni-Mo Nitride as the Carbon Dioxide Hydrogenation Catalyst D.V. Leybo, N. Kosova, K.O. Chuprunov, D.V. Kuznetsov and I.A. Kurzina	3
Catalysts Based on Nanopowders Supported on Foam Materials for Deep Oxidation of Organic Substances A. Pstryakov and V. Petranovskii	10
Complex Catalysts for Direct Synthesis of Dimethyl Ether from Synthesis Gas. Part I: Study of the Catalytic Properties N. Kosova, P. Musich, I.A. Kurzina and A. Vosmerikov	15
Complex Catalysts for Direct Synthesis of Dimethyl Ether From Synthesis Gas. Part II. The Interaction of the Process Reactants and Products with the Catalyst Surfaces N. Kosova, I.A. Kurzina and L.N. Kurina	23
Fragmentation, Texturing and Plastic Flow in the Subsurface of Friction-Processed Copper Single Crystal A.V. Chumaevsky, D.V. Lychagin, S.Y. Tarasov and A. Melnikov	30
Mechanical and Tribotechnical Characteristics of Nanocomposites Based on Mixture of Ultrahigh Molecular Weight Polyethylene and Polypropylene S. Panin, L. Kornienko, M.A. Poltarannin, T. Mandoung and L.R. Ivanova	36
Influence of Ultradispersed Fraction of Boron Carbide Powder on Strength Properties of the Ceramics Manufactured by SPS Method O.L. Khasanov, E.S. Dvilis, A.O. Khasanov, Z.G. Bikbaeva, V.V. Polisadova and T.V. Milovanova	45
Modeling the Cluster Organization of Al₂O₃ for Obtaining more Perfect Materials A. Klishin, A. Kovancev, A. Zakutaev and V. Vereshchagin	52
Pattern of the B₄C Ceramics Surface Deformation at Local Loading E.S. Dvilis, O.L. Khasanov, Z.G. Bikbaeva, V.V. Polisadova, V.K. Struts, G.J. Omarov and A.O. Khasanov	60
Peculiarities of Surface Fracture of B₄C Ceramics under Loads V.K. Struts, O.L. Khasanov, Z.G. Bikbaeva, V.V. Polisadova and E.S. Dvilis	65
Production of Precursors for Ceramics Materials on the Base of Aluminum Nanopowders in Mixtures with Some Simple Substances Y. Amelkovich and O. Nazarenko	70
Properties of Silver Nanoparticles Prepared by the Electric Spark Dispersion Method S.P. Zhuravkov, E. Plotnikov, D. Martemyanov, N.A. Yavorovsky, U. Hasse and S. Zander	74
Strengthening of Foam Glass Materials O. Kazmina, B. Semukhin and A. Elistratova	79
Structural State, Phase Composition and Mechanical Properties of Wear-Resistant Cast Iron Modified by Ultrafine Powders A.P. Zykova, I. Kurzina, D.V. Lychagin, A.V. Chumaevsky, A.A. Kachaev and V.A. Bataev	84
Structure and Properties of Leaded Tin Bronze under Different Crystallization Conditions N.V. Martyushev, I.V. Semenkov and Y.N. Petrenko	89
The Influence of the Peptide Molar Ratios on the Functionalization of Gold Nanoparticles M.C. Ramirez-Camacho, I. Tuzovskaya, N. Bogdanchikova, A. Pstryakov, A. Susarrey-Arce and V. Gurin	94
The Influence of Zn₃(PO₄)₂:Mn - Luminophores Synthesis Conditions on their Surface and Luminescent Features T.S. Minakova, M.M. Sychov, V.V. Bakhmetyev, N.S. Eremina, S.P. Bogdanov, I.A. Zyatikov and L.Y. Minakova	106
Impact of Protective Release Coatings with Nanopowders on the Quality of Bronze Castings Surface N.V. Martyushev, I.V. Semenkov and Y.N. Petrenko	112

Influence of Nanostructured Powder Modifiers on the Structure of a Welding Bead	118
M.A. Kuznetsov, S.P. Zhuravkov, E.A. Zernin, D.E. Kolmogorov and N.A. Yavorovsky	
Prospects of Using Nanopowders as Flame Retardant Additives	123
O.B. Nazarenko, Y. Amelkovich, A.P. Ilyin and A.I. Sechin	
Pulsed Cathodoluminescence of ZnWO₄:Eu Single Crystals and Nanocrystals	
V.M. Lisitsyn, D. Valiev, I.A. Tupitsyna, E.F. Polisadova, L.A. Lisitsyna, L. Andryuschenko, A. Dubovik, A. Yakubovskaya and O. Vovk	128

II. Novel Processing for Improving Materials

Activation of Copper and Alumina Powders in Ball Mill	137
N.V. Martyushev and I.V. Semenkov	
Effect of the Gas Composition at the Electrical Explosion of Wires on the Nanopowders Properties	
O.B. Nazarenko, A.P. Ilyin and D.V. Tikhonov	142
Electron Beam Sintering of Zirconia Ceramics	
V. Burdovitsin, E.S. Dvilis, A. Zenin, A. Klimov, E. Oks, V. Sokolov, A.A. Kachaev and O.L. Khasanov	150
Electron-Ion-Plasma Modification of the Surface Layer of Silumin	157
Y.F. Ivanov, E.A. Petrikova, A.D. Teresov and P. Moskvin	
Hardening of the Surface Layer of Silumin by Electron Beam	162
Y.F. Ivanov, E.A. Petrikova, N.N. Cherenda and A.D. Teresov	
Measuring the Force Gradient Acting on a Magnetic Microsphere above a Micro-Magnet Array	167
S. Ponomareva, L.F. Zanini, F. Dumas-Bouchiat, N.M. Dempsey, D. Givord and F. Marchi	
Microstructure Features of Aluminum Alloys Welded Joint Obtained by Friction Stir Welding	
O. Sizova, G.V. Shlyakhova, A. Kolubaev, E.A. Kolubaev, S.G. Psakhie, G. Rudenskii, A.G. Chernyavsky and V. Lopota	174
Phase Composition and Defect Substructure of the Zirconia Nanopowder Modified by the Powerful Ultrasonic Assistance	
O.L. Khasanov, Y.F. Ivanov, E.S. Dvilis and O.S. Tolkachev	180
Physical Base of the Metallic Gradient Surface Layers of Titanium Alloys Formed under Ion Implantation	
I. Kurzina	184
Properties of Copper and Molybdenum Sulfide Powders Produced by Self-Propagating High-Temperature Synthesis	
F. Bozheyev, V. An and Y. Irtegov	191
Properties of WS₂ Films Prepared by Magnetron Sputtering from a Nanostructured Target	197
Y. Irtegov, V. An, P. Vinatier, N. Sochugov and A. Zakharov	
Study of Phase Formation Processes in a Three-Component System of Diopside, Porcelain, Alumina	
V.M. Pogrebenkov and K.S. Kostikov	201
Study of Products of Electrical Explosion of Iron Wires in Argon-Oxygen Mixture	
A.V. Pustovalov	206
The Structure and Properties of Hard Metals Irradiated by High-Energy Electron Beam	
Y.F. Ivanov, V.E. Ovcharenko, A. Belyi and A.D. Teresov	214
Zr⁺ Ion-Beam Surface Treatment of 30CrMnSiNi2 Steel for Improving its Fatigue Durability	
I. Vlasov, S. Panin, V. Sergeev, V. Naidfeld, M.P. Kalashnikov, O. Bogdanov and B. Ovechkin	219

III. Biomedical Aspects of Nanomaterials

Deposition of Biocompatible Coatings from the Ablation Plasma Produced by the Irradiation of the Hydroxyapatite Target with Powerful Ion Beams	
T. Murashkina, S.I. Tverdokhlebov, G. Remnev, A. Pushkarev and I. Khaylov	227
Drug Delivery System of a Radio-Protective Inclusion Complex	
L.A. Heinrich, B. Pajaziti and R. Roziev	231

Effect of Humic Substances and Silicon Ions on Stability of Iron Hydroxide (III) Nanoparticles	
L.N. Shiyan, K.I. Machekhina, E.A. Tropina, E.N. Gryaznova and V. An	237
Formation Hybrid Method of Multilayer Biocoatings, Based on PVD Technology	
S.I. Tverdokhlebov, E.V. Shesterikov and A.I. Malchikhina	241
High Physicochemical Persistence of Aluminum Nanoparticles in Synthetic Body Fluids	
E. Karepina, A.Y. Godymchuk, D.V. Kuznetsov and A.A. Gusev	248
Nonwoven Polylactide Scaffolds Obtained by Solution Blow Spinning and the <i>In Vitro</i> Degradation Dynamics	
S.I. Tverdokhlebov, K. Stankevich, E.N. Bolbasov, I.A. Khlusov, I. Kulagina and K. Zaitsev	257
Surface Acid-Base Characteristics and their Contribution to Aggregative Stability of Nanoparticles	
E. Yunda, A.Y. Godymchuk, N. Kosova, D.V. Kuznetsov and S. Senatova	263
