

Table of Contents

Preface

Chapter 1: Materials Processing

Destruction Aspects of the Surface Layer of Metal Surfaces during Shot Blasting O. Goryk, S. Koval'chuk, O. Brykun and S. Kamyshov	3
Experimental Analysis of the Mechanical Behaviour of 3D Printed Elements: The Role of Fibre Orientation in the Material Structure S. Kutsyk, O. Mikulich and Y. Feshchuk	13
Increasing the Durability of Cutting Tools through Additional Low-Temperature Heat Treatment after Sharpening T. Chumachenko, A. Bespalova and O. Knush	25

Chapter 2: Composite Materials

Luminescent Metal-Ceramic Phosphor Composite L.H. Kan, C.Y. Wu, H.F. Chen and H.Y. Chang	39
Fabrication and Characterization of NaOH-Treated Nito (<i>Lygodium circinnatum</i>) Fiber-Reinforced Composite E.T.T. Aranas, J.C. Sayurin, C.S. Emolaga and J.C. Millare	45

Chapter 3: Nanomaterials and Nanotechnologies

SelfPropelled Nanomotor Probe Enabled Lateral Flow Immunoassay for Sensitive Detection of Inflammatory Factors J.C. Guo, Y.M. Zhang, Y.S. Fu, C.H. Ren and J.S. Duan	53
Development of Cross-Linked Chitosan Films Reinforced with Chitin Nanofibers S. Tanpichai and K. Yuwawech	59
Prediction of Wear Rate for Aluminium-Based Nano and Hybrid Nano-Composites Using Machine Learning V.P. Krishna, T.G.S. Nandan, V.K. Verma and S.V. Komarina	65
Tensile Strength Prediction for Crystalline Nanocellulose-Polyvinyl Alcohol Composites Using Machine Learning Algorithms C. Massay, M. Cornejo and H. Baykara	71
Low-Cost Furnace-Grown Silicon Nanoparticles on Nanographite: A New Pathway to Produce LIB Anodes R. Patil, M. Phadatare, M. Hummelgård, D. Brandell and J. Örtengren	79

Chapter 4: Functional Materials

Tribo-Corrosion and Wear Resistance of Biomedical Materials: A Comprehensive Review D.R. Jadhav, P.G. Damle and S.R. More	87
Advances in Magnetic Spinel Ferrites as photocatalysts for waste water treatment: A Review G.A. Basha, C.V.K. Reddy, D. Gollapudi, L.E. Reddy and G.V. Ramesh	103

Chapter 5: Building Materials

Retention Time Enhancement of Concrete with Gluconic Acid: An Evaluation of Fresh and Hardened Concrete Properties G. Choudhary and S.P. Wanjari	119
--	-----

Enhancement of *Bambusa blumeana* Fiber-Reinforced Concrete's Structural Performance through Alkali-Silane Treatment

M. Dayao, D.R. De Leon, C.S. Emolaga and J.C. Millare

131
