Committees

An Integrated Approach to Teach Metal Forming and Moulding as per New EHEA Framework

J.A. Sánchez, L.N. López de Lacalle, N. Ortega, A. Lamikiz and S. Plaza 1

Application of New Educational Methodologies Adapted to the EHEA Guidelines for Manufacturing Engineering Teaching in University Curricula

P. Franco, H.T. Sánchez, M. Estrems, S. Monreal and F. Faura 9

CAL-CBT Based Virtual Learning and Training in Machining Engineering. A Case Study: CNC Lathe

M. Batista, M. Álvarez, M. Sánchez-Carrilero, J. Salguero and M. Marcos Bárcena 19

Computer Aided Practical Teaching of the Electro Discharge Machining Process

J.L. Diéguez, G. Araújo, E. Ares, A. Pereira, J.A. Pérez and G. Peláez 29

Computer-Aided System for Teaching Machining with Numerical Control

J.M. Piquero Calleja, E.M. Rubio Alvir and M.A. Sebastián 35

Good Practices in Teaching of Advanced Processes in Mechanical Engineering Projects Learning Groups

E. Ares, J.L. Diéguez, P. Hernández, A. Pereira, J.A. Pérez and G. Peláez 43

Implantation of Virtual Practices about Materials Processing in the Manufacturing Engineering Department of the University of Malaga

L. Sevilla, M.J. Martín, F. Martín and M.J. Cano 51

Manufacturing Process Definition as a Basic Teaching Tool in the EHEA

J.L. Cantero, J.A. Canteli, I. González and H. Miguélez 61

Methodology for Teaching the Material Removal Processes by Using CAD/CAM Software: Turning Processes

C.J. Luis-Pérez, I. Puertas, C. Remirez, J. León and R. Luri 67

Methodology for the Practical Learning of Pelletizing Processes of Biomass Waste

T. Miranda G-Cuevas, I. Montero Puertas, J.I. Arranz Barriga, M. López León and S. Rojas Rodríguez 77

New Virtual Environment for Active Learning on Parameter Adjustment of Plastic Injection Molding

J.J. Marquez, M. Rodriguez, M.L. Martinez and J.M. Perez 83

Study of the Student's Workload for the Manufacturing Related Subjects within the European Higher Education Area

H.T. Sánchez, P. Franco, R. Zamora, M. Estrems and F. Faura 95

Teaching Strategy in Numerical Modelling of Metal Forming Processes

H. Miguélez, N.C. Marín, A. Muñoz and J.L. Cantero 105

The Application of PDAs and Smartphones in the Classroom as Instruments for Improvement of Learning Monitoring

M. Estrems, F. Cerdán, D. García, H.T. Sánchez and P. Franco 113
