

Table of Contents

Unconventional All-Carbon Networks M. Kryszewski	1
Synthesis of Low Band Gap Polymers- A Challenge for Organic Chemists M. Hanack	13
C₇₀: Electrical and Magnetic Properties of the First Higher Fullerene L. Firlej	21
Mössbauer Spectroscopy Studies of Fullerites Z. Kucharski, P. Byszewski and J. Suwalski	31
Conjugated Network with Dithienothiophene? Z. Borkowska, J. Plochanski, I. Zadrozna and J. Przyluski	37
Synthesis of a Polyaniline/Inorganic Nanocomposite P.G. Hill, P.J.S. Foot and R. Davis	43
Preparation and Properties of Polypropylene/Polypyrrole Composite M. Omastová, J. Pionteck, S. Košina and L. Häussler	47
The X-Ray Diffraction and Computer Modelling Study of the Molecular Conformation of Poly(3-Alkylthiophenes) W. Luzny, S. Nizioł, I. Kulszewicz-Bajer and A. Pron	53
The Structure and Thermal Stability of Mixed Crystals Containig C₆₀ and Amines P. Byszewski, R. Diduszko and E. Kowalska	61
The Theory of Regular Solution and the Extractibility of Higher Fullerenes J. Fröhner and L. Dunsch	65
Bond Alternation in π-Conjugated Materials D. Baeriswyl and E. Jeckelmann	71
Electronic Properties and Bond Alternation in C₆₀ G. Stollhoff and H. Scherrer	81
Influence of Temprature Evolution of the Electronic Band Sturcture on Transport Properties in Doped Regioregular Polyalkylthiophenes P. Barta, P. Dannetun, S. Nizioł, W.R. Salaneck, M. Zagorska and A. Pron	91
Electronic Transport in Polyconjugated Materials B. Movaghar	101
Comparison of Graphite Intercalation Compounds and Doped Fullerenes: Superconducting Properties K. Lüders	119
Fractional Quantum Point Contact Conductance Quantization Produced by an Electric Field A.I. Onipko, L.I. Malysheva and Y.A. Klimenko	129
Low Pressure Dependence of the Electrical Conductivity in Doped Polypyrrole V. Skákalová, P. Fedorko, J. Annus, D. Végh and M. Landl	135
Properties of Junctions Formed by Conductive Polymer Systems J.K. Jeszka	141
Micro- and Nanoelectronic Aspects in Conjugated Systems C.M. Fischer, M. Burghard and S. Roth	149
Raman Spectroscopy of Conjugated Carbon Systems: Polymers, Carbynes and Fullerenes J. Kastner, J. Winter and H. Kuzmany	161
Carbon Onions: Optical Investigation of Electron Beam Irradiated Carbon Materials P. Fedorko, V. Skákalová, O. Foltin, F. Kolenic and V. Šmatko	171
Photoexcitations in Conjugated Polymers W. Graupner and G. Leising	177
Photoconductivity and Photoexcitation Spectra of Acceptor Substituted Poly(3-Butyl)Thiophene Y. Greenwald, G. Cohen, J. Poplawski, E. Ehrenfreund, S. Speiser and D. Davidov	187
Electroluminescence in Conjugated Polymers and Fullerenes A.T. Werner, G. Grem, H.J. Byrne, G. Leising and S. Roth	195

Potentiostatic Pulse Measurements at Conducting Polymers O. Genz and M.M. Lohrengel	207
Localisation of Photoactivated Processes in Poly-Bithiophene T. Morgenstern, U. König and J.W. Schultze	213
Film Initiation and Growth in Electropolymerisation J. Lukkari	219
Polymerization of Thin Pyrrole Films on Poly(Ethylene Oxide) - FeCl₃ Coordination Complex J.F. Rabek, L.Å. Lindén, E. Adamczak, J. Sanetra, F. Starzyk and J. Pielichowski	225
Polymer Films Containing Metal Particles- Nobel Metals in Polyaniline L.M. Abrantes and J.P. Correia	235
Electrochemical and Optical Studies of Metallic Ion Insertion in Polypyrrole Films S. Pruneanu, R. Turcu, M. Brie and G. Mihailescu	241
Poly-1,8-Diaminonaphthalene: Sensor for Heavy Metal Ions K. Jackowska, A. Kudelski and J. Bukowska	247
Electrochromic Polyquinoxaline Oligomers P.J.S. Foot, V. Montgomery and P. Spearman	251
New Model for the Mechanism of Current-Producing Processes in Polyaniline-Type Conductive Polymers V. Barsukov and S. Chivikov	257
Development of Rechargeable Metal-Free Battery of the Novel Electrochemical System "Graphite/HBF₄/Anthraquinone" I. Barsukov, T. Motronyuk and V. Barsukov	261
Porous Graphite Intercalation System for Rechargeable Batteries I. Barsukov	265
