

Table of Contents

Preface

Mathematical and Geomechanical Model in Physical and Chemical Processes of Underground Coal Gasification

G. Pivnyak, R. Dychkovskiy, O. Bobyliov, E.C. Cabana and A. Smoliński 1

Influence of Particle Size and Calcination Temperature on the Abrasiveness of Garnet for Water Jet Cutting of Tough Materials

M. Rabah 17

Shielded Development of Marine Bottom Gas Hydrates by Fracking a Layer

H. Haiko, Y. Ogorodnyk, L. Pyha and J. Durove 27

Methodical and Applied Aspects of Hydrodynamic Modeling of Options of Mining Operation Curtailment

I. Sadovenko, A. Zahrytsenko, O. Podvigina, N. Dereviahina and S. Brzeźniak 36

Influence of Dispersed Systems on Exploratory Well Drilling

M. Dudlia, J. Pinka, K. Dudlia, V. Rastsvietaiev and M. Sidorova 44

Automated Monitoring of Physical Processes of Formation of Burden Material Surface and Gas Flow in Blast Furnace

A. Golovchenko, Y. Pazynich and M. Potempa 54

Coal Seam Gasification in Faulting Zones (Heat and Mass Balance Study)

V. Lozynskiy, R. Dichkovskiy, P. Saik and V. Falshtynskiy 66

Physico-Mechanical and Chemical Characteristics of Amber

Z. Malanchuk, V. Moshynskiy, Y. Malanchuk and V. Kornienko 80

The Methodology of Use of the Mobile Crushing-and-Sorting Radiometric Complex in the Iron-Ore Pit

V. Azaryan 90

Substantiation of Mineral Extraction from Man-Made Deposits

D. Maltsev, O. Vladyko and K. Kokowski 100

Rock Mass Strength Estimation Using Structural Factor Based on Statistical Strength Theory

D. Babets 111

Technological Solutions for the Realization of NGH-Technology for Gas Transportation and Storage in Gas Hydrate Form

M. Pedchenko, L. Pedchenko, T. Nesterenko and A. Dyczko 123

Examination of Phase Transition of Mine Methane to Gas Hydrates and their Sudden Failure – Percy Bridgman's Effect

V. Bondarenko, I. Kovalevska, D. Astafiev and O. Malova 137

Physical and Chemical Methods of Methane Utilization in Ukrainian Coal Mines

E. Maksymova, M. Ovchynnikov, R. Lysenko and S. Kostrytska 147

Classification of Theories about Rock Pressure

O. Khomenko, M. Kononenko and J. Bilegsaikhani 157

The Mathematic Model and Method for Solving the Dirichlet Heat-Exchange Problem for Empty Isotropic Rotary Body

M. Berdnyk 168

Formation of Physic and Mechanical Composition of Dust Emission from the Ventilation Shaft of a Coal Mine as a Factor of Ecological Hazard

V. Kolesnyk, A. Pavlychenko, O. Borysovska and Y. Buchavyy 178

Stress-Strain State of a Flat Tractive-Bearing Element of a Lifting and Transporting Machine at Operational Changes of its Parameters

D. Kolosov, O. Bilous, H. Tantsura and S. Onyshchenko 188

Changes in Density of Carbon Atomic Packing in Natural Formations

V. Lukinov, V. Prykhodchenko, O. Prykhodchenko and V. Tykhonenko 202

Integrated Evaluation of the Worked-Out Area Partial Backfill Effect of Stress-Strain State of Coal-Bearing Rock Mass

D. Malashkevych, V. Sotskov, V. Medyanyk and D. Prykhodchenko 213

Innovative Approach to the Integrated Use of Energy Resources of Underground Coal Gasification	
P. Saik, M. Petlovanyi, V. Lozynskyi, K. Sai and A. Merzlikin	221
Respiratory Protection Provided by Negative Pressure Half Mask Filtering Respirators in Coal Mines	
S. Cheberiachko, O. Yavors'ka, D. Radchuk and A. Yavorskyi	232
Obtaining Proton-Exchange Membranes of Fuel Cells from Natural Filling Agents to be Used for Vehicles	
O. Svetkina, S. Bartashevskyi, V. Nikolsky, K. Bas, P. Chlens and V. Zaharchuk	241
Complex Processing of Brown Coal in Ukraine: History, Experience, Practice, Prospects	
O. Bielov, O. Shustov, A. Adamchuk and O. Hladun	251
