

## Table of Contents

<b>The Growth and Development of Plutonium Fuels Technology in India</b> P.R. Roy	1
<b>Fabrication of Fuel for Water Reactors</b> G.V.S.R.K. Somayajulu, N. Swaminathan, R. Rajendran and K. Balaramamoorthy	9
<b>Development of Cladding and Structural Materials for Thermal and Fast Reactor Programme in India</b> C.V. Sundaram, P. Rodriguez, S.L. Mannan and S. Venkadesan	21
<b>Choice of Fuel Material for India's Fast Reactor Programme</b> S.R. Paranjpe	49
<b>Super Phenix Core Fabrication</b> R. Vandevor	63
<b>Main Options for Super-Phenix Core Assemblies Design</b> F. Rouches and J.C. Nervi	73
<b>Design Aspects of Metallic Fuel for Research Reactors and Ceramic Fuel for Boiling Water Reactors</b> S.K. Metha, K. Anantharaman, S.M. Chaudhary and K.R. Srinivasan	95
<b>Design Aspects of PHWR for Improved Performance</b> M. Das	109
<b>Thorium Utilisation in Indian Power Programme</b> K. Balakrishnan and C. Ganguly	125
<b>Manufacture of the First Charge for the Super-Phenix Reactor</b> J. Pajot, M. Beche and M.J. Heyraud	139
<b>Fabrication of (U, Pu)C and (U, Pu)N Fuels for FBTR and PFBR</b> C. Ganguly, P.V. Hegde, G.C. Jain and U. Basak	153
<b>Alternative Fuels for the French Fast Breeder Reactors Programme</b> H. Bailly, H. Bernard and B. Mansard	175
<b>Modifications in the "Powder-Pellet" Route for Higher Recovery and Reduced Fuel Fabrication Cost of UO<sub>2</sub>/MOX Fuel</b> S. Majumdar, M.R. Nair, R. Ramachandran and H.S. Kamath	185
<b>Zirconium Alloys as Cladding and Structural Materials for Water Cooled Reactors</b> M.K. Asundi and S. Banerjee	201
<b>MOX Fuel Plans in LWRs</b> G. Lebastard	221
<b>MOX Fuel Fabrication Experience and MOX Plant</b> D.S.C. Purushotham	231
<b>Experience in BARC on the Preparation of Gel Microspheres of Uranium, Thorium and Plutonium Fuels</b> D.D. Sood and V.N. Vaidya	245
<b>Encapsulation of Plutonium Based Fuel Pins</b> G.L. Goswami, M.S. Sargunam, K.N. Kedia, A. Chatterjee, V.R. Nair and O.L. D'Souza	257
<b>Engineering &amp; Safety Features in Plutonium Fuel Fabrication Facility</b> K.G. Phadke, V. Suryanarayanan, T.S. Balan, A.G. Deshmukh and K.N. Mahule	269
<b>Health Physics Aspects of Plutonium and Uranium Fuel Fabrication</b> S.D. Soman	287
<b>The Status of Development of LEU-Fuels for Research Reactors</b> S. Nazare	297
<b>Development and Fabrication of Al-U<sup>233</sup> and Al-Pu Plate Fuel Elements for PURNIMA III/KAMINI</b> G.J. Prasad, K.V.J. Asari and C. Ganguly	315
<b>Experiences in the Fabrication of the Aluminium Clad Metallic Uranium Fuel</b> R. Vijayaraghavan	329
<b>Quality Assurance and Quality Control in Water Reactor Fuel Production</b> V.A. Chandramouli, T.S. Krishnan and K. Balaramamoorthy	347

<b>Inspection and Quality Control Experience of FBTR and KAMINI Fuels</b> J.K. Ghosh, J.P. Panakkal, V.D. Pandey, S. Muralidhar, K.N. Chandrasekharan, T.R.G. Kutty and A. Subramanian	355
<b>Chemical Quality Control of Nuclear Fuels</b> S.K. Patil	371
<b>Atomic Spectroscopy for Trace Metallic Assay of Nuclear Fuels</b> M.D. Sastry	381
<b>Performance of PHWR and BWR Fuels</b> S.K. Chatterjee	393
<b>Manufacturing Quality, Performance and Inspection Results of the VVER-440 UO<sub>2</sub> Fuel at the Loviisa NPS</b> J. Moisio, R. Kvarnström and T. Planman	403
<b>Post Irradiation Examination of DHRUVA, TAPS and MAPS Fuels</b> K.S. Sivaramakrishnan and K.C. Sahoo	425
