

Table of Contents

Preface

Diffusion in the Lattice and Interfaces of Real Engineering Materials: A Unified Approach	1
D. Gupta	
The Lattice Monte Carlo Method for Solving Phenomenological Mass and Thermal Diffusion Problems	
I.V. Belova, G.E. Murch, T. Fiedler and A. Öchsner	13
Diffusion and Melting	
G.P. Tiwari and R.S. Mehrotra	23
Thermodynamic Diffusion Coefficients	
G.B. Kale	39
Novel Method of Evaluation of Diffusion Coefficients in Ti-Zr System	
K. Bhanumurthy, A. Laik and G.B. Kale	53
Diffusion in Cu(Al) Solid Solution	
A. Laik, K. Bhanumurthy and G.B. Kale	63
A Probabilistic Approach to Analyze Austenite to Ferrite Transformation in Fe-Ni System	
G. Mohapatra and S.S. Sahay	71
Recrystallization Kinetics in 17Cr 1Mo Ferritic Steel	
M.N. Mungole, P.C. Trivedi, S. Sharma and R.C. Sharma	79
Effect of Thermal Aging on the Transformation Temperatures and Specific Heat Characteristics of 9Cr-1Mo Ferritic Steel	
B. Jeya Ganesh, S. Raju, E. Mohandas and M. Vijayalakshmi	85
Gibbs Free Energy Difference in Bulk Metallic Glass Forming Alloys	
H. Dhurandhar, K.N. Lad, A. Pratap and G.K. Dey	91
Effect of Cerium Addition on the Microstructure and Mechanical Properties of Al-Zn-Mg-Cu Alloy	
A.K. Chaubey, S. Mohapatra, B. Bhoi, J.L. Gumaste, B.K. Mishra and P.S. Mukherjee	97
δ-Hydride Habit Plane Determination in α-Zirconium at 298 K by Strain Energy Minimization Technique	
R.N. Singh, P. Stähle, L. Banks-Sills, M. Ristinmaa and S. Banerjee	105
Calorimetric Studies of Dissolution Kinetics of Ni₂(Cr,Mo) Phase in Ni-Cr-Mo Alloys Using Non-Isothermal Approach	
H.C. Pai, B.C. Maji, A. Biswas, M. Krishnan and M. Sundararaman	111
Kinetics and Mechanism of Growth of β-Solid Solution during Reaction Diffusion in Binary Titanium and Zirconium Alloy Systems	
G.P. Tiwari, O. Taguchi, Y. Iijima and G.B. Kale	117
Effect of Cu Addition on Nanocrystallization Behavior in a Co-Based Soft Magnetic Metallic Glass	
A.P. Srivastava, D. Srivastava, K.G. Suresh and G.K. Dey	125
Alpha to Omega Transition in Shock Compressed Zirconium: Crystallographic Aspects	
G. Jyoti, R. Tewari, K.D. Joshi, D. Srivastava, G.K. Dey, S.C. Gupta, S.K. Sikka and S. Banerjee	133
Selection of Lattice Invariant Shear in Dilute Zr-Nb Alloy for bcc-hcp Martensitic Transformation	
D. Srivastava, G.K. Dey and S. Banerjee	139
Development of a Thermodynamic Criterion to Predict the Alloy Compositions for Amorphous and Nanocrystalline Phase Formation during Mechanical Alloying	
N. Das, S.K. Pabi, U.D. Kulkarni, B.S. Murty and G.K. Dey	147
