

Table of Contents

Preface

Chapter 1: Friction, Wear and Vibration Processes in Materials Processing

Forging Process of Graphite Lubricated LED Lamp Heat Sink T.S. Yang and M.W. Ke	3
Ductile Fracture Analysis of Lubricated Magnesium Alloy Sheet during Hemispherical Deep Drawing Process at Elevated Temperatures T.S. Yang and G.Z. Cheng	11
Feasibility Study of Friction Stir Drilling of Pet Recycled Nonwoven Sheets C.T. Liu, Y.P. Chang, J.T. Guo and W.L. Kuo	17
Fatigue Life Prediction of a CNC Machine Spindle Support Shaft under Realistic Loading Using RecurDyn Simulation Y.L. Hwang and A. Munir	23
Dynamic Analysis of CNC Machine Tool Structures Using FBGMT and R-Flex Flexible Multibody Dynamics Approaches Y.L. Hwang and N. Ahmad	33
Assessing Barely Visible Impact Damage in Thermoplastic Composites through the Logarithmic Slope Histogram Sequence P. Dhar, M. Rijal, D. Amoateng-Mensah, R. Amevorku and M. Sundaresan	45
Failure Analysis of Cast Iron Overlay Material in Grinding Rollers by SEM/EDS and XRD Characterization N.M. Chaouki	61

Chapter 2: Physical Metallurgy

Vacancy Formation and Trapping by Carbon in Ferritic Iron: A FirstPrinciples Study O. Kulitckaya and V. Kulitckii	75
Influence of Nickel on Microstructure and Property in Die-Cast Ductile Iron N. Wanmai, A. Wanalerkngam, K. Sriboonrueang, W. Boonyarit, K. Amatachaya, S. Mangmee, K. Worakhut and S. Boonmee	83
Vacancy Formation and Diffusion in FeCr Alloys O. Kulitckaya and V. Kulitckii	89
Conjugate Heat Transfer Analysis of Teflon-Coated Steel Surfaces Exposed to Premixed Flame Jets P. Kamma, K. Loksupapaiboon and J. Phromjan	95
Comparative Study of Rhodium Recovery from Plating Solutions via Cementation, Chemical Precipitation and Electrowinning T. Patcharawit, C. Kansomket, N. Mahiwan, S. Chailoi, T. Chandakhiaw and L. Sriklang	101

Chapter 3: Heat and Mass Transfer Phenomena in Engineering Systems

A Numerical Simulation on Effect of Surface Roughness towards Heat Transfer Performance H.H.A. Ahmed	113
Statistical Characterisation of Pressure Drop Fluctuation in Two-Phase Air-Water Flow Downstream of a Minichannel T-Junction U.S. Dharma, I.G.N.B. Catrawedarma, I. Indarto and D. Deendarlianto	123
Multiphase Flow Analysis of Hydraulic Conveying of Coal Reject from Pulverized Coal Combustion A.K.N. Sartono, H. Kusumaningsih and W. Winarto	147

Thermal Characteristics and Heat Balance Analysis of the FASSIP-06 Ver.3 Rectangular Natural Circulation Loop under Single-Phase Flow Conditions S. Kharisma, D. Deendarlianto, S.A. Maryadi, K. Prayogo, A.A. Budiman, A.E. Pamungkas, P.H. Setiawan and M. Juarsa	157
Heat Transfer Characteristics Simulation Based on Power Input Variation in a Natural Circulation U-Top Rectangular Loop S.A. Maryadi, D. Deendarlianto, S. Kharisma and M. Juarsa	165
The Effect of Variations in Mass Fraction of Al₂O₃ Nanofluid on Thermal and Electrical Efficiency in Photovoltaic Thermal Systems Using Computational Methods A.B. Othman, H. Barrie and R. Bintarto	177
Turbulent Flows of Kerosene, Water, and Air through Copper Ducts with Variable Outlet Geometries: Insight into Turbulent-Mixing, Stress-Redistribution, Pressure-Losses, Secondary-Flows, and Energy-Dissipation I.L. Animasau	189
Enhancement of Thermal Performance of a Solar Chimney Power Plant Using Phase Change Material: A Numerical Study H.M. Sefiani, F. Bouzit and M. Bouzit	227
Comparative Numerical Analysis of Melting Enhancement in a Triplex Tube Latent Heat Storage Unit Using Rectangular Fins and Copper Nanoparticles A.A. Lasri, F. Bouzit and M. Bouzit	241
Thermal Regulation of Photovoltaic Panels Using Aluminum Fins and RT Phase Change Materials: A Numerical Study A. El Ouassidi, A. Mir, M. Alla, H. Talbi, O. Ghoulam, K. Amghar, I. Driouch and B. El Monhim	257
Coupled Effects of MHD, Solar Radiation, and Arrhenius Chemical Reaction on Third-Grade Hybrid Nanofluid Mixed Convection Flow through a Porous Medium O.A. Ajala, O. Adebisi, A.O. Akindele, A.A. Yahaya, A.D. Ohaegbue, M.O. Afolabi and A.W. Ogunsola	277
Transient Flow Conjugated with Mixed Convection in a Vertical Channel S. Boulkroune, A. Belaid, A. Filali, O. Kholai, T. Chekifi, M. Guermoui and R. Khelifi	301
