

Table of Contents

Preface

Displacement Cascades in Metals

C.A. English, A.J.E. Foreman, W.J. Phythian, D.J. Bacon and M.L. Jenkins 1

Mechanisms of Defect Production and Atomic Mixing in High Energy Displacement Cascades: A Molecular Dynamics Study

T. Diaz de la Rubia and M.W. Guinan 23

Freely-Migrating Defects: Their Production and Interaction with Cascade Remnants

L.E. Rehn and H. Wiedersich 43

Evolution of Defect Cluster Distributions during Irradiation

H. Wiedersich 59

Role of Interstitial Clustering and Production Bias in Defect Accumulation during Irradiation at Elevated Temperatures

B.N. Singh, C.H. Woo and A.J.E. Foreman 75

Dislocation Motion Influence on Bias Factor in Binary Alloys under Irradiation

S.I. Golubov, V.P. Ginkin and A.M. Strokova 97

Cascade Localization Induced Bias Effect for Void Growth

T. Yoshiie and M. Kiritani 105

Radiation Damage Cascades: The Liquid Drop Model with the Lattice at Finite Temperature

M. Alurralde, A. Caro and M. Victoria 111

Computer Simulation of Radiation Damage Processes in Stressed Metals

V.V. Kirsanov 117

Collision Cascades as Multifractals

G. Bárdos and F. Kun 127

The Modified Two-Interstitial Model

W. Schüle 133

Correlation of High-Energy Particle Irradiation by Use of the Recoil Energy Spectrum

M. Kiritani 141

Fraction of Freely Migrating Defects in Metals under Ion Irradiation at Elevated Temperatures

V. Naundorf, M.P. Macht and H. Wollenberger 157

In Situ Observation of Heavy Ion Radiation Damage in some FCC Metals

S. Ishino, N. Sekimura, H. Sakaida and Y. Kanzaki 165

Cascade Effects Revealed by Low-Energy Ion Irradiations of Copper and Gold

A.F. Calder, D.J. Bacon, W.J. Phythian and C.A. English 183

The Interaction of HVEM-Generated Point-Defects with Dissociated Dislocations

S.L. King, M.L. Jenkins, M.A. Kirk and C.A. English 191

Dislocation Evolution in Unalloyed V and V-5%Ti Alloy Doped with Boron

H. Kawanishi, Y. Arai and S. Ishino 201

Vacancy Clusters in Irradiated Metals Studied by Positron Annihilation Technique

V.S. Mikhalev 207

A New Method to Study the Interaction of Irradiation Induced Point Defects with Structural Sinks in Metals

A.L. Suvorov, Y.V. Trushin, D.E. Dolin and Y.N. Yeldishev 217

Radiation Induced Structural Changes in α -Cu-Zn Alloys

W. Schüle 223

The Recovery of the Electrical Resistivity of Transition Metal Silicides after Low-Temperature Electron-Irradiation

L. Zimmermann, U. Dedek and F. Dworschak 229

Simulation of Displacement Cascade Collapse in HCP-Zirconium

V.G. Kapinos, Y.N. Osetskii and P.A. Platonov 235

Radiation-Altered Phase Stability

H. Wollenberger 241

Instability of Solid Solutions under Irradiation Y.M. Platov, V.M. Lazorenko, S.V. Simakov, V.I. Tovtin and V.V. Ivanov	253
Radiation Induced Phase Separation in Fe-Based Copper Containing Alloys G. Solt, W.B. Waeber, F. Frisius and U. Zimmermann	273
Evolution of Second-Phase Precipitates during Irradiation with Neutrons and Charged Particles O.V. Borodin, V.V. Bryk, I.M. Neklyudov, P.V. Platonov, V.N. Voyevodin, A.S. Bakai and A.A. Turkin	299
Nucleation and Growth of Precipitates of New Phases under Cascade Damage A.S. Bakai	307
Radiation Defects and Instability of Ni-S Alloys V.L. Arbuzov, S.E. Danilov, A.P. Druzhkov and S.M. Klotsman	317
Microchemistry of Neutron Irradiated 12%CrMoVNb Martensitic Steel E.A. Little, T.S. Morgan and R.G. Faulkner	323
Microstructural Features of Embrittlement in Irradiated Steels and Alloys V.S. Neustroev, A.V. Povstyanko and V.K. Shamardin	329
Radiation Damage Microstructure of Cr-Mo-V-Type Ferritic Steel J. Kocík and E. Keilová	337
Phase Diagrams of Binary Alloys under Cascade-Producing Irradiation A.A. Turkin, A.S. Bakai and A.V. Buts	343
Electron Irradiation Effects on Cu Precipitation in Iron-Based Dilute Alloys A. Barbu, T.N. Lé, N. Lorenzelli, F. Maury and C.-. De Novion	351
Effects of Damage Rate and/or He/DPA Ratio on Microstructural Evolution in Ion Irradiated Austenitic Steel Y. Katoh, A. Kohyama and Y. Kohn	359
Small Angle X-Ray Scattering of Helium Bubbles in Nickel H. Schroeder and H.-. Haubold	367
Influence of Carbon and Titanium on Helium Bubble Microstructure in Nickel under Helium Ion Bombardment B.A. Kalin, I.I. Chernov, A.G. Bogachev, A.N. Kalashnikov, A.V. Markin, I.V. Reutov and S.N. Korshunov	373
Positron Annihilation and Mössbauer Studies of Neutron Irradiated Reactor Pressure Vessel Steels G. Brauer, M. Matz, L. Liszkay, B. Molnár and R. Krause	379
Cr Distribution Effects and Swelling Resistance of Manet Steel P. Gondi, R. Montanari and R. Coppola	387
Mössbauer Study of Irradiation Effect in $\text{Ni}_{80}^{57}\text{Fe}_{19}$ Amorphous Alloys G. Principi, C. Tosello, E. Kuzmann and A. Vértes	393
Fundamental Problems of Materials Research for Fusion P. Schiller	397
Tensile and Irradiation Creep Properties of Austenitic Stainless Steels for First Wall Alloys for Near-Term Fusion Devices M.L. Grossbeck and L.K. Mansur	407
Investigation and Simulation of Radiation Damage in Metals by Charged Particle Beams V.F. Zelenskij and I.M. Neklyudov	429
Helium in Metals: Effect on Mechanical Properties H. Ullmaier and H. Trinkaus	451
Effects of Helium Implantation Rate on Microstructure and Helium Embrittlement H. Schroeder	473
A Study of Swelling in Dispersion-Strengthened Copper Alloys V. Barabash, A.A. Gervash, A.V. Naberenkov, E.V. Nesterova and S.A. Fabritsiev	483
Irradiation Creep by Climb-Enabled Glide Driven by Transient Point Defect Processes L.K. Mansur	489
Point-Defect Migration to Cracks during Irradiation R. Bullough	499
Texture-Based Plasticity Modelling of Biaxial Creep of Zircaloy Cladding: Application to In-Reactor Prediction K. Linga Murty	511

Synergistic Effects of Interstitial-Impurity-Atoms and Radiation-Induced Defects on Deformation and Fracture Characteristics of Ferritic Steels K. Linga Murty	519
Survey of Irradiation Embrittlement Effects on the Mechanical Properties of Alloyed Steels F. Gillemot	527
Improvement of the Mechanical and Frictional Properties of Steels by Continuous and Pulsed Ion Irradiation I.G. Romanov	533
Radiation Damage Studies with Intermediate Energy Protons M. Victoria, M. Alurralde, A. Caro, A. Horsewell and S. Proennecke	541
Irradiation of Metallic Targets with High-Energy Heavy Ions: High Electronic Excitation Induced Effects A. Dunlop and D.R. Lesueur	553
Phase Transformations in Metallic Targets Submitted to Very High Electronic Excitations A. Barbu, A. Dunlop, J. Henry, D.R. Lesueur and N. Lorenzelli	577
In which Metals are High Electronic Excitations Able to Create Damage? P. Legrand, A. Dunlop, D.R. Lesueur, N. Lorenzelli, J. Morillo and S. Bouffard	587
Contribution of Electronic Energy Losses to Radiation Damage in Austenitic Alloys C. Dimitrov, P. Legrand, A. Dunlop and D.R. Lesueur	593
High-Energy Heavy-Ion Irradiation of Pure Gallium E. Paumier, M. Toulemonde, J. Dural, J.P. Girard, P. Bogdanski, C. Dufour, R. Carin, A. Hairie, D. Julienne, M. Levalois, R. Madelon and M.N. Metzner	599
Defect Recovery in FCC Metals Irradiated with 0.5-126 MeV Energetic Ions A. Iwase, T. Iwata, T. Nihira and S. Sasaki	605
Transient Magnetic Fields under Heavy-Ion Bombardment of Ferromagnetic Solids K.-. Speidel, J. Cub, W. Karle, U. Reuter, H. Busch, S. Kremeyer and J. Gerber	615
Plastic Flow of Amorphous Materials Induced by Swift Heavy Ions S. Klaumünzer	623
Effects of Electronic Energy Loss in Amorphous Fe-B Alloy Irradiated with High-Energy Heavy Ions A. Audouard, E. Balanzat, J.C. Jousset, G. Fuchs, D.R. Lesueur and L. Thomé	631
Impurity Profile Modification Induced in Amorphous Metallic Alloys by High-Energy Heavy-Ion Irradiation L. Thomé, J.C. Dran, F. Garrido, A. Benyagoub, S. Klaumünzer and A. Dunlop	641
A Possible Mechanism of Formation of Radiation Defects in Amorphous Metals Bombarded with High-Energy Heavy Ions G. Szenes	647
High-Energy Ar, Ne and B Irradiation Effects in Copper K. Havancsák, G. Szenes, L. Murgás, V.N. Voyevodin and V.A. Shchegolev	653
Damage of Monocrystalline Si, GaP and W Produced by Swift Heavy Ions S.A. Karamian and V.N. Bugrov	659
Energetic Heavy-Ion Irradiation Effects Studied by Mössbauer Spectroscopy E. Kuzmann and I.N. Spirov	665
Mössbauer Study of Steel Irradiated with Energetic Heavy Ions E. Kuzmann, I.N. Spirov and A.Y. Didyk	671
New Cross-Section Method for Investigation of Heavy-Ion Irradiation Effects A. Bermudes, V.N. Chernikov, A.Y. Didyk and V.A. Skuratov	677
Radiation Damage of Molybdenum by High-Energy Light Charged Particles V.F. Reutov	681
Three Regimes of Fast Particle Movement in Metals and in other Crystalline Solids: Kinetic Effects Y.A. Kashlev	689
Irradiation Effects in Surface Layers of Aluminium Alloys and Austenitic Steels G.G. Bondarenko	695
Sputtering of Aluminium Alloys by Bombardment with 0.5 keV Neon Ions A.P. Korgiaviy, D.N. Sigov, G.G. Bondarenko and S.I. Kucheryaviy	719
Sputtering Stability of Light Alloys G.G. Bondarenko and A.P. Korgiaviy	725

Sputtering Dynamics of Au and U₃O₈ Layers under Fission Fragment Irradiation D.K. Daukeev and Z.R. Zhotabaev	729
Ion-Beam Simulation of Surface and Bulk Radiation Effects in Fusion Reactor Materials A.P. Komissarov, V.A. Poliakov and A.I. Tsaljuk	735
Cascadeless Radiation Effects in Thin Films on Metal Surfaces A.L. Suvorov	743
Theoretical Study of the Ion Irradiation of Periodically Inhomogeneous Metal Targets in Glow Discharges A.P. Korgiaviy and V.I. Kristya	753
Macroscopic Surface Deformations on Ni Single Crystal Induced by High Dose MeV Energy He Implantation F. Pászti and A. Manuaba	757
The Analysis of Neutron-Induced Transmutation and Activation in Nuclear Materials C. Ponti, P. Rocco and M. Zucchetti	763
'Activa' Software for Estimation of Nuclear Transmutations of Elements under Neutron Irradiation V. Ivanov, V.P. Kolotov, V.V. Atrashkevich and P.M. Nagy	769
Summary of the Discussion Session on Atomic Scale Probes for Investigation of Defects and Defect Clusters C.A. English	775
Summary of the Round-Table Discussion on the Effect of Electronic Energy Losses of Energetic Ions on Defect Production and its Consequences L. Thomé	779
Summary of the Round-Table Discussion on Simulation and Correlation H. Ullmaier	783
Summary of the Plenary Discussion Session on the Formation of Defect Structures in Metals during Irradiation H. Wiedersich and V. Naundorf	787
