Introduction

Recent Developments in the Theory of Dendritic Solidification

J.S. Langer 1

Fundamentals of Dendritic Growth

M.E. Glicksman 11

Directional Solidification of Alloys

R. Trivedi 33

Fundamentals of Rapid Solidification Microstructures

W. Kurz and R. Trivedi 67

High Pressure Induced Slow and Rapid Solidification

G.M. Reddy and J.A. Sekhar 83

Nonequilibrium Processing with Lasers

J. Mazumdar and A. Kar 139

Laser Surface Cladding

W.M. Steen 163

Fundamental Analysis of the Continuous Casting Process for Quality Improvements

J.K. Brimacombe and I.V. Samarasekera 179

Some Unresolved Theoretical Problems in Crystal Growth Part II: Consequences of Properly Accounting for Surface Creation

W.A. Tiller 223

Modeling the Formation of Eutectic Microstructures

A. Karma 243

Thermodynamics and Kinetics of Glass Formation

A.L. Greer and P.V. Evans 257

Terminal Solid Solubility Extension under Rapid Solidification

K.C. Russell, F.H. Froes and Y.W. Kim 273

Supercooling and Rapid Solidification Using EM Levitation

S.P. Elder and G.J. Abbaschian 299

Influence of Surface Oxidation upon Marangoni Convection Effects during Directional Solidification

J.D. Verhoeven, M.A. Noack, W.N. Gill and R.M. Ginde 331

Channel Formation during Alloy Solidification

A. Hella Well 347

Convective and Morphological Instabilities during Directional Solidification

S.R. Coriell and G.B. McFadden 365

Phase Selection in Non-Equilibrium Processing

R.J. Schaeffer 381

Thin Film Sensors

K. Rajanna, S. Mohan and E.S.R. Gopal 395

Computer Modeling of Solidification Processes in Metal Casting/Joining

O. Prabhakar, R. Krishnakumar, K. Madhusudana and P. Nagendra 405

Mathematical Modeling of Solidification Processes

J.A. Dantzig 437

Electromagnetics in Metallurgical Processing

K.V. Rama Rao and J.A. Sekhar 455

Numerical Modeling of Melting and Solidification Processes

B. Basu and A.W. Date 473

Processing of Titanium and Its Alloys at DMRL, Hyderabad

N.C. Birla, A. Dutta, R.L. Saha and R.B. Subramanyam 513

Infrared Acousto-Optic and Opto-Electronic Materials: Crystal Development, Characterization and Applications

N.B. Singh 529
