

Table of Contents

Preface

Chapter 1: Materials and Technologies for Fire Protection and Flame Retardation

Research of Fireproof Capability of Coating for Metal Constructions Using Calculation-Experimental Method	
A. Kovalov, V. Slovinskyi, M. Udianskyi, I. Ponomarenko and M. Anszczak	3
Consideration of Thermodynamic Processes Formation of Compressed-Air Foam in Design Compressed Air Foam Systems	
A. Kodrik, O. Titenko, S. Vinogradov and S. Shakhov	11
Protection of Wood from Burning with Paints on Alkaline Aluminosilicates-Based	
S.G. Guzii, I. Bazhelka, N. Svitlychna and V. Lashchivskiy	19
Formation of Fire Retardant Properties in Elastic Silica Coatings for Textile Materials	
O. Skorodumova, O. Tarakhno, O. Chebotaryova, Y. Hapon and F.M. Emen	25
Research of Mechanism of Fire Protection with Wood Lacquer	
Y. Tsapko, V. Lomaha, O.P. Bondarenko and M. Sukhanevych	32
Epoxidized Dinaphthol Application as the Basis for Binder with Advanced Carbonation Level to Reducing its Flammability	
K. Afanasenko, A. Romin, Y. Klyuchka, V. Lypovyi and K. Hasanov	41
Features of some Polymer Building Materials Behavior at Heating	
A. Vasilchenko, O. Danilin, T. Lutsenko, A. Ruban and D. Nestorenko	47
Improvement of Fire Resistance of Polymeric Materials at their Filling with Aluminosilicates	
O. Blyznyuk, A. Vasilchenko, A. Ruban and Y. Bezuhla	55
Study Insulating and Cooling Properties of the Material on the Basis of Crushed Foam Glass and Determination of its Extinguishing Characteristics with the Attitude to Alcohols	
A. Kireev, D. Tregubov, S. Safronov and D. Saveliev	62
Mathematical Modeling of Fire-Proof Efficiency of Coatings Based on Silicate Composition	
A. Chernukha, A. Teslenko, P. Kovalov and O. Bezuglov	70

Chapter 2: Emergency Prevention and Safety Assessment of Structural Elements in Construction

Analysis of Forced Longitudinal Vibrations of Columns Taking into Account Internal Resistance in Resonance Zones	
Y. Krutii, A. Kovrov, Y. Otrosh and M. Surianinov	79
Influence of the Fire Temperature Regime on the Fire-Retardant Ability of Reinforced-Concrete Floors Coating	
A. Kovalov, Y. Otrosh, O. Semkiv, V. Konoval and O. Chernenko	87
Methodology of Estimation of Fire Separation Distances between Construction Facilities by Calculation	
V. Nizhnyk, Y. Feshchuk and V. Borovykov	93
Concrete and Fiber Concrete Impact Strength	
M. Surianinov, V. Andronov, Y. Otrosh, T. Makovkina and S. Vasiukov	101
Improvement of the Assessment Method for Fire Resistance of Steel Structures in the Temperature Regime of Fire under Realistic Conditions	
T. Shnal, S. Pozdieiev, O. Nuianzin and S. Sidnei	107
Numerical Modelling of Gas Explosion Overpressure Mitigation Effects	
Y. Skob, M. Ugryumov and Y. Dreval	117
The Amplitude Calculation Massive Foundations of Machines Taking into Account the Damage	
O.V. Mykhailovska and M.L. Zotsenko	123

On Providing an Assessment Monitoring System for Especially Essential Structures V. Kolokhov, L. Kushnerova, L. Moroz and T. Pavlenko	130
Major Issues of Theory and Practice of Fire Resistance of Reinforced Concrete Structures and Buildings S. Fomin, Y. Bondarenko, S. Butenko and S. Koliesnikov	136
Determination of Integrated Safety of High-Risk Structures According to Criteria of Acceptable and Manageable Risks S. Azarov, S. Yeremenko, R. Shevchenko, S. Shcherbak and V. Mashkov	143
Calculation of Lateral Soil Pressure at the Hydraulic Construction and its Sustainability on the Stone Bed I.A. Karpiuk, V.M. Karpiuk and F.R. Karpiuk	149
Scientific Research Basics of Fire Resistance Testing for Reinforced Concrete Structures and Buildings S. Fomin, S. Butenko, I. Plakhotnikova and S. Koliesnikov	158
Methodology for Calculating the Technical State of a Reinforced-Concrete Fragment in a Building Influenced by High Temperature O. Bashynska, Y. Otrosh, O. Holodnov, A. Tomashevskyi and G. Venzhego	166
Designing of Structural Construction and Orthotropic Slabs from Steel Reinforced Concrete O. Lapenko, D. Baranetska, V. Makarov and A. Baranetskyi	173
Treatment of Determination Method for Strength Characteristics of Reinforcing Steel by Using Thread Cutting Method after Temperature Influence A. Kovalov, Y. Otrosh, E. Rybka, T. Kovalevska, V. Togobytska and I. Rolin	179

Chapter 3: Materials and Technologies for Environmental Engineering

Influence on Environmental Safety of the Drinking Water of Nitrification in Water Reservoir Being a Source of Water Supply and Filter Filling Materials in Water Treatment Facilities V. Iurchenko, M. Radionov, O. Melnikova, O. Rachkovskiy and L. Mykhailova	187
Using of Production Wastes in Stormwater Drainage Purification A. Grytsenko, O. Rybalova, A. Matsak and S. Artemiev	194
Environmental Safety of Waste Detergent Solutions N. Bukatenko and M. Zinchenko	202
Monitoring of the Environmental Technogenic Hazard of the Oil Extraction Plant S. Nemenushcha, Y. Kotliar, O. Fesenko and V. Lysyuk	208
Adsorption Properties of Sorbents Used for Air Cleaning in Protective Structures of Civil Protection V. Kovalenko and R. Likhnyovskyi	214

Chapter 4: Materials Properties and Processing Technologies

Physic-Mechanical Properties of Composites Based on Secondary Polypropylene and Dispersed of Plant Waste Y. Danchenko, A. Kariev, V. Lebedev, E. Barabash and T. Obizhenko	227
Technology of Safe Galvanochemical Process of Strong Platings Forming Using Ternary Alloy Y. Hapon, D. Tregubov, O. Tarakhno and V. Deineka	233
Investigation of the Gas Sensitive Properties of Tin Dioxide Films Obtained by Magnetron Sputtering I. Chub, O. Pirogov, O. Myrgorod and S. Rudakov	239
Use of Palladium-Modified Polyaniline Electrode as a Sensitive Element of Fire Sensor I. Ryshchenko, L. Lyashok, A. Vasilchenko, V. Asotskyi and L. Skatkov	245
Assessment of Electrochemical Compatibility of Structural Materials of some Dental Products M. Shyogoleva, O. Sevidova, A. Vasilchenko and I. Stepanova	253
Design and Research of Eco-Friendly Polymer Composites V. Lebedev, T. Tykhomyrova, I. Litvinenko, S. Avina and Z. Saimbetova	259

Study of Methods for Producing Flexible Solar Cells for Energy Supply of Emergency Source Control N. Deyneko	267
Development and Evaluation of the Possibility of Using Epoxyurethane Mastic in Railway Transport A. Skripinets, N.V. Saienko, O. Hryhorenko and A. Berezovskiy	273
