

Table of Contents

Preface, Scientific Committee

Chapter 1: Producing Technologies and Properties of Modern Concretes

Hybrid Alkali Activated Concretes - Conception and Development for Practical Application V. Bilek, J. Hurta, P. Done, L. Zidek and T. Žajdlík	3
Concrete with Fluidized Bed Combustion Fly Ash Based Light Weight Aggregate R. Hela, M. Ťažký, V. Vachuška and T. Ťažký	8
Research of Fire Resistance of Tunnel Lining Concrete A. Hubáček and V. Ondryášová	14
Concrete with High Content of Fly Ash Intended for Constructions with Long Durability A. Hubáček and R. Hela	21
Lightweight Fibre Reinforced Concrete M. Hubertová and R. Hela	28
Fire-Resistant Structures for Tunnels Using Light Concrete II V. Junek, T. Micka, J. Kolísko, M. Kroc and I. Bradáčová	33
Verification of Rheological Properties of Self-Compacting Concrete with Reinforcement K. Křížová and P. Novosad	41
Effects of Axial Stress on Air Permeability of HPFRC P. Paulík, I. Hudoba and P. Ševčík	46
The Influence of Glass Fibers as Dispersed Reinforcement on Hydric Properties of Concrete R. Pernicová, D. Dobiáš and T. Mandlík	52
Impact of Steel Fibers on Workability and Properties of UHPC M. Rydval, T. Bittner, J. Kolísko and Š. Nenadálová	57
Development of Cement Based Composites with PVA Fibers M. Rydval, J. Kolísko and Š. Nenadálová	62
Properties of Lightweight Concretes Made of Aggregate from Recycled Glass M. Sedlmajer and J. Zach	67
Experimental Analysis of the Impact on the Durability of Concrete Additions V. Suchánek and K. Hájková	73
Basalt Fibers as New Material for Reinforcement and Confinement of Concrete E.R. Thorhallsson and J.T. Snaebjornsson	79
Issues of Testing of Cementitious Composites in Uniaxial Tension M. Tipka and J. Vašková	85
Applying Method of Acoustic Emission for Monitoring of Different Concrete Mixture during Setting and Hardening L. Topolář, P. Misák, D. Kocáb and M. Matysík	91
Concrete Resistance to Cracking due to Shrinkage L. Zvolánek and I. Terzijski	96
Experimental Investigation of Residual Stress in the Concrete Caused by Volume Changes with Consideration of Environmental Effect L. Zvolánek, I. Terzijski, M. Kratochvíl and J. Kadlec	102
Flexural Strength of the Reactive Powder Concrete M. Ženíšek, T. Vlach and L. Laiblová	108
Strength Classes of Concrete versus Strength Classes of Fibre Concrete J. Vodička, V. Křístek and V. Ráček	112
Effect of Density on Compressive Strength of Ultra High Performance Fiber Reinforced Concrete (UHPFRC) Using Design of Experiment M.A. Mosaberpanah and O. Eren	119
New Model for Concrete Creep and Shrinkage Prediction and its Application V. Kolínský and J.L. Vítek	125

Comparison of Methods of Dosage and Effect of the Composition on the Properties of Fresh and Hardened Self-Compacting Concrete S. Juradin and T. Radović	131
Study Replacement of Cement with Recycled Cement Powder and the Environmental Assessment T. Pavlů, V. Kočí and M. Šefflová	136
Evaluation of Wedge Splitting Fracture Tests Using the Double-<i>K</i> Model: Analysis of the Effect of Hemp Fibre Dosage and Length in Concrete Specimens H. Šimonová, I. Havlíková, J. Sobek, A. Abdulrahman, Z. Keršner and I. Merta	142
Effect of Amorphous Silicon Dioxide Amount on the Mechanical Fracture Parameters of Cement Mortars H. Šimonová, J. Zahálková, P. Rovnaníková, Z. Keršner and P. Schmid	147

Chapter 2: Design and Research of Concrete Structures

The Calculation of Time Dependent Losses of Prestress for Pre- and Post-Tensioning I. Abrahoim	155
Distribution of Stresses in Masonry Pillar with Fully Filled and Unfilled Perpend Joints P. Bílý and J. Fládr	160
Comparison and Review of Concrete-to-Concrete Interface Shear Resistance According to Major Design Codes Đ. Cairović, F. Gírgle, V. Kostihá, J. Kadlec and P. Štěpánek	166
Assessment of Load Bearing Capacity of Concrete Bridges after Exceeding the Design Life J. Doležel, M. Šomodíková, D. Lehký and D. Novák	173
Punching Resistance Verification of Footings L. Fillo, T. Augustín, V. Knapcová and J. Vaskova	179
Verification of Concrete Slender Columns Resistance L. Fillo, V. Knapcová and T. Augustín	185
Numerical Modeling of Reinforcement Corrosion on Bond Behaviour I. Holly, J. Bilčík and K. Gajdošová	191
Model Uncertainties of FEM Nonlinear Analyses of Concrete Structures L. Kadlec and V. Červenka	197
Experimental Analysis of Slender Concrete Columns at the Loss of Stability P. Kendický, V. Benko and T. Gúcky	203
Analysis of Long-Term Observation of Highway Arch Bridge Oparno V. Kolínský and J.L. Vítek	209
Design of Approach Slab of Road Bridges K. Laco and V. Borzovič	215
Study of Flat Slabs Strengthening against Punching Shear J. Nováček and M. Zich	221
Experimental Evaluation of Properties of 120 Years Old Concretes at Two Concrete Bridges in Slovakia P. Paulík, M. Bačuvčík, P. Ševčík, I. Janotka and K. Gajdošová	227
Dynamic Characteristics of Multi-Story Reinforced Concrete Buildings J.T. Snaebjornsson and E.R. Thorhallsson	235
Design of Ceiling Structures with Regards to Deflection J. Šmejkal and J. Procházka	241
Modelling of Hygro-Thermal Processes in Steel-Concrete Composite Columns Exposed to High Temperatures R. Štefan and J. Procházka	246
Calculation of Bending Stiffness and its First Derivatives Related to Optimization of a Steel-Reinforced Concrete Cross Section J. Venclovský and P. Štěpánek	253
Experimental Tests of I Profile Made from UHPC Reinforced with Textile Glass Fibres T. Bittner, P. Bouška, Š. Nenadálová, M. Rydval and D. Čítek	261
Application of UHPC Joints in Precast Structures J.L. Vítek, D. Čítek, J. Kolísko, R. Coufal and P. Jursík	267

Concrete Cover Effect on Bond Behaviour of UHPC D. Čítek, J. Kolísko, S. Řeháček and T. Mandlík	273
Influence of Static and Dynamic Loads on the Behavior of Prestressed Concrete Railway Sleepers A. Jokūbaitis, J. Valivonis and G. Marčiukaitis	278
The Effectiveness of Strengthening of Reinforced Concrete Column Confined by FRP Wrapping V. Kostiha, F. Girgle, Đ. Čairović and P. Štěpánek	284
Numerical Modeling of the Interaction of Subsoil and Reinforced Concrete Slab J. Vaskova and R. Čajka	290
Effect of Reduced Bond of Prestressed Strands J.L. Vítek and D. Čítek	296
Experimental Verification of Subtle Frame Components Prototypes from High Performance Concrete for Energy Efficient Buildings C. Fiala, J. Hejl, V. Bílek, J. Růžicka, T. Vlach, M. Novotná and P. Hájek	301

Chapter 3: Significant Construction Projects and Realizations

R35 Sedlice - Opatovice, Construction of the Flyover SO 206.2 at the R35 Expressway km 3.15 - 4.10 R. Hofírek	309
Excavation of the Ejpovice Tunnels Š. Ivor, M. Staš and J. Schneider	315
UHPC Footbridge over the Opatovický Canal J. Tichý, D. Čítek, J. Kolísko, J. Komanec, B. Slánský, M. Hubka and S. Řeháček	320
Experimental Research into Demountable Joints of a Precast System J. Witzany, T. Čejka, J. Karas, A. Polák and R. Zigler	325
