

Table of Contents

Preface

Chapter 1: Machining Technologies and Properties of Structural Metals

Optimization of Titanium Alloy-Ti-6Al-4V to Minimize Mass, Maximize Stiffness and Frequency in Additive Manufacturing

D.A. Efa, E.M. Gutema, H.G. Lemu and M. Gopal 3

Modeling and Simulation of Friction Stir Welding of Aluminum and Magnesium Alloys Using Finite Element Analysis

D.A. Efa, E.M. Gutema, H.G. Lemu and M. Gopal 15

Chapter 2: Materials for Sensor Engineering

Crystallinity Study of Electrodeposited SnO₂ on FTO Substrate

U. Agasti, S. Karmakar, S.K. Kundu, M. Sarkar and S. Chatterjee 33

DFT + U +V Investigation on Adsorption of Gas Molecules (CO, SO₂, NO, and NO₂) on Ni Doped Bismuth Ferrite Oxide (010)

A. Sambare, R. Pawar and M. Shirsat 41

Poly(O-Phenylenediamine) Reformed Pencil Graphite as the Disposable Electrochemical Sensor for Voltammetric Analysis of Tryptamine

A.S. Murali, C. Harish, S.S. Cherian, G.S. Nair, S.K. Lekshmi, S. Gopidas and B. Saraswathyamma 49

Chapter 3: Functional Materials

Thermoelectric Properties of Spray Coated n-Type PEDOT:PSS Film

C.O. Ugwuoke, A. Abd El-Moneim and M. Ghali 59

Synthesis and Fabrication of Luminescence of CsPbBr₃/PAN Nanocomposite Fiber

T.G. De Yonarosa, A.D. Pramata, F.A. Hutomo and D. Susanti 65

Chapter 4: Materials and Technologies to Ensure Ecological Safety

Evaluation of Recycled Polypropylene (PP) Made from Plastic Cups as Filaments for Additive Manufacturing

R.G.P. Abdon, S.F. Barbastro, K.J.C. Francisco and C.J.D. Quicay 75

Synthesis, Characterization, and Utilization of Water Hyacinth (*Eichhornia crassipes*) Magnetic Biochar for Nitrate Removal from Simulated Wastewater

T.R.L. Panaligan, A.K.S. Lee, C.J. Petareal and J.R. Tadena 81

Morphological and Physico-Chemical Characterization of Soils from Gold Panning in Komabangou, Niger

S. Alassane Boukari, I. Elhadji Daou, A. Garba Neino, Y. Soro, A. Tankari Dan Badjo, K.B. Yao and K.A. Yao 87

Chapter 5: Green Building Materials

Mitigation of Efflorescence and Alkali Leaching in Activated Slag Using Foundry Sand

N.T. Sithole 101

Synthesis of Acid-Based Fly Ash Geopolymer with Pure Phosphoric Acid Compare with P-Leachate Activator

E. Mkhonto, T. Mashifana and N.T. Sithole 109

Chapter 6: Wood in Construction

Development and Characterization of a Micro-Concrete Based on Wood Waste from Sawmills

R.R. Ngono Mvondo, R. Oum Lissouck and S. Grigoletto

129

Signal Processing Technique to Study the Propagation Modes of Ultrasonic Waves in Wood Protected by Layers of Liquid Paint (Cement)

M. Tafkirte and A. Hamine

141

Experimental and Numerical Study of the Physico-Hygrothermal Behavior of Two Tropical Wood Species

C.A. Houngbeme, A. Houngan and A. Djossou

149

Estimating Wood Specific Gravity of *Ravenala madagascariensis* Sonn. Using Near-Infrared Spectroscopy

L.P. Rasoamanana, A.R. Razafimahatratra and T. Ramananantoandro

161
