

Table of Contents

Preface

Keynote Lectures

Influence of Carbon Nanotubes and Processing on Cyclic Fatigue and Final Fracture Behavior of a Magnesium Alloy T.S. Srivatsan, C. Godbole, M. Paramsothy and M. Gupta	3
Potential Composite Structures for NASA Future Launch Vehicles and Crew Spacecraft J.P. Gyekenyesi	17
Life Cycle Monitoring of Curved Composite Parts Using Embedded Fiber Bragg Grating Sensors N. Takeda, S. Minakuchi, T. Umehara and I. Yusaku	18
Multifunctional Nanomaterials for Alternative Energy	22
Grading of Biofibres for Use in Natural Fibre Composites A. Crosky, M. Loo, M. Zakaria, P. Parmar, A. Beehag and K.H. Leong	23
Plant Fiber Reinforced Composites and their Applications Y. Li	24
Multi-Functional Soft Smart Materials and their Applications J.S. Leng	25
Electrospun Nanofibre Cores Containing Graphene Oxide for Sandwich Films: Manufacturing and Analysis S. Rao, D. Liu, P. Jaiswal, S. Ray and D. Bhattacharyya	26
The System of Solar Energy & its Key Materials C.C. Ge	31
Compressive Strength Characterization of Polyester Based Fillers C.S. Sirimanna, W. Lokuge, M.M. Islam and T. Aravinthan	32
Advances in Semiconductor Nanostructures for Photonic Applications P.K.L. Yu, E.T. Yu and D.L. Wang	36

Chapter 1: Natural Fibre and Biocomposites

The Effects of Fiber Architecture and Fiber Surface Treatment on Physical Properties of Woven Sisal Fiber/Epoxy Composites S. Srisuwan and P. Chumsamrong	39
Composite Materials Based on Natural Rubber Modified Epoxy Resin and Sisal Fiber S. Srisuwan, N. Prasoetsopha, N. Suppakarn and P. Chumsamrong	43
Flame Retardancy, Thermal Stability, and Mechanical Properties of Sisal Fiber/Organoclay/Polypropylene Composites W. Chanprapanon, N. Suppakarn and K. Jarukumjorn	47
Poly(lactic acid)/Poly(butylene adipate-co-terephthalate) Blend and its Composite: Effect of Maleic Anhydride Grafted Poly(lactic acid) as a Compatibilizer A. Teamsinsungvon, Y. Ruksakulpiwat and K. Jarukumjorn	51
Crystallization Behavior of Vetiver Grass Fiber-Polylactic Acid Composite S. Boonying, W. Sutapun, N. Suppakarn and Y. Ruksakulpiwat	55
Comparison between Mechanical and Thermal Properties of Polylactic Acid and Natural Rubber Blend Using Calcium Carbonate and Vetiver Grass Fiber as Fillers P. Juntuek, C. Ruksakulpiwat, P. Chumsamrong and Y. Ruksakulpiwat	59
Sisal Fiber/Natural Rubber Composites: Effect of Fiber Content and Interfacial Modification W. Wongsorat, N. Suppakarn and K. Jarukumjorn	63
Effect of Wood Flour on Structural and Thermal Properties and Antibacterial Activity of PLA Filled with Triclosan C. Prapruddivongs and N. Sombatsompop	67

Effect of Heat Treatment on Chemical Structure of a Bio-Filler from Vetiver Grass W. Sutapun, Y. Ruksakulpiwat and N. Suppakarn	71
Anti-Fungal and Anti-Algal Performances of Biocides Filled PVC and Wood/PVC Composites A. Kositchaiyong and N. Sombatsompop	75
Modulation of Behaviours of Cultured Cells on Polycaprolactone/Chitosan Blended Biomaterials T.H. Young	79
Effect of Acrylic Acid Treated Rice Husk Silica on Properties of Poly (butylene adipate-co-terephthalate) (PBAT) Composites J. Phosee, J. Wittayakun and N. Suppakarn	81
Thermal Properties, Biodegradability and Cytotoxicity of PLA/Sericin Films S. Rakmae and N. Suppakarn	86
Physical Properties of Rice Husk Fiber/Natural Rubber Composites L. Srisuwan, K. Jarukumjorn and N. Suppakarn	90
Supramolecular Polymers for Potential Biomedical Applications J. Li	94
Emulsion Electrospinning of Nanofibrous Delivery Vehicles for the Controlled Release of Biomolecules and the <i>In Vitro</i> Release Behaviour of Biomolecules C. Wang and M. Wang	98
Microwave Joining of Natural Fiber Reinforced Green Composites I. Singh, P.K. Bajpai, D. Malik, J. Madaan and N. Bhatnagar	102
A Study on the Dynamic Mechanical Properties of Silk Fibre Composites M.P. Ho, H. Wang, C.K. Ho and K.T. Lau	106
Assessing Heat-Treatment Effects on Bovine Cortical Bones by Nanoindentation M.L. Lau, K.T. Lau, H. Ku, D. Bhattacharyya and J.H. Lee	110
Fire Performance of Flax Laminates and their Hybrids S. Rao, A. Bhardwaj, A. Beehag and D. Bhattacharyya	114
Conventional Electrospinning vs. Emulsion Electrospinning: A Comparative Study on the Development of Nanofibrous Drug/Biomolecule Delivery Vehicles C. Wang, S.N. Tong, Y.H. Tse and M. Wang	118
Surface Treatment Influence on the Mechanical Behavior of Jute Fiber Reinforced Composites J.M. Byeon, G.B. Nam, J.W. Kim, B.S. Kim and J.I. Song	122

Chapter 2: Nanocomposites

Europium Complex with Functionalized Carbon Nanotubes: A New Lanthanide Photoluminescence Nanomaterial X.F. Li, Y. An, K.T. Lau, W.G. Li and Y.S. Yin	129
On the Influence of Carbon Nanotubes and Processing on Tensile Response and Fracture Behavior of a Magnesium Alloy T.S. Srivatsan, C. Godbole, M. Paramsothy and M. Gupta	133
Study on the Effect of Thickness on Structural and Optical Properties of Nanocrystalline Bismuth Ferrite (BiFeO₃) Thin Films S.B. Singh, N.B. Singh and H.B. Sharma	142
Nafion-Peptized Laponite Clay Nanocomposite Membrane for PEMFC A.K. Mishra, S.H. Bae, N.H. Kim, K.T. Lau and J.H. Lee	148
Preparation and Characterization of High Performance LLDPE/Graphene Nanocomposites T. Kuila, B.J. Jung, X.F. Yi and J.H. Lee	152
Interfacial Bonding in a Nanoclay/Polymer Composite M.L. Chan, K.T. Lau and T.T. Wong	156
Effect of MWCNT on Mechanical Properties of γ-Irradiated UHMWPE during Shelf Ageing Process P.S. Sreekanth, N.N. Kumar and S. Kanagaraj	160
Characterization of Polystyrene (PS)/Organomodified Layered Double Hydroxide (OLDH) Nanocomposites Prepared by <i>In Situ</i> Polymerization B. Sahu and G. Pugazhenth	164

Fabrication of Multiwalled Carbon Nanotube-Titania Nanocomposite for Dye-Sensitized Solar Cell	
W.J. Lin, C.T. Hsu, Y.C. Lai, W.C. Wu, T.Y. Hsieh and Y.C. Tsai	168

Chapter 3: Metal and Metal/Matrix Composites

The Influence of Processing on Microstructural Development, Tensile Response and Fracture Behavior of Aluminum Alloy 5083	
T.D. Topping, Y. Li, E.J. Lavernia, K. Manigandan and T.S. Srivatsan	175
Vacuum Brazing Porous W and Mo Using Ti-Ni-Nb Braze Alloys	
C.C. Lin, C. Chen, R.K. Shiue, H.J. Shy and C.S. Chang	187
Developing Corrosion-Resistant Joints Applied in the Plate Heat Exchanger	
C.H. Shu, H.W. Hsu, T.Y. Yeh, W.S. Chen and R.K. Shiue	191
Effect of Tool Angle on Friction Stir Welding of Aluminum Alloy 5052: Role of Sheet Thickness	
P.J. Reddy, S.V. Kailas and T.S. Srivatsan	196
The Extrinsic Influence of Tool Plunge Depth on Friction Stir Welding of an Aluminum Alloy	
K. Kandasamy, S.V. Kailas and T.S. Srivatsan	206
Effect of h-BN Content on the Sintering of SS316L/h-BN Composites	
S. Mahathanabodee, T. Palathai, S. Raadnui, R. Tongsri and N. Sombatsompop	216
Adsorption of Ammonium Sulfate Using Fabricated Zeolite from Waste Sludge of Water Treatment Plant	
K. Sombatsompop, T. Jeensawak, P. Sonpai, A. Wangbooncong, J. Wongwichien and S. Asavapisit	220
Synthesis and Characterization of Al-Alloy/SiC_p Nanocomposites Employing High Energy Ball Milling and Spark Plasma Sintering	
S. Bathula, R.C. Anandani, A. Dhar and A.K. Srivastava	224
Characterization of Precipitated Calcium Carbonate from Eggshell Powder	
W. Sutapun, Y. Ruksakulpiwat, N. Suppakarn, R. Jeencham and A. Aontee	228
Modeling of Anisotropic Plastic Behavior of Advanced High Strength Steel Sheet TRIP 780	
S. Panich, V. Uthaisangsuk, S. Suranuntchai and S. Jirathearant	232
Effect of Cryogenically Treated Electrode during AEDM of Nickel Based Super Alloy 718 for Surface Quality Improvement	
A. Kumar, S. Maheshwari and C. Sharma	236
Aging Behaviors of Al 6061 and Al 6061/SiC_p Composite	
S.M.R. Ourang, A. Ekrami, S.M.S. Reihani and S.M.R.M. Abarghouie	240
Evaluation of Surface Quality during Electrical Discharge Machining of Inconel 718 with Powder Metallurgy Electrodes	
N. Beri, S. Maheshwari and C. Sharma	245
Optimization of the Process Parameters for Drilling of Metal Matrix Composites (MMC) Using Taguchi Analysis	
S. Singh, A. Singh, I. Singh and A. Dvivedi	249
The Effect of Mn Addition on the Microstructure and Mechanical Properties of Gas-Atomized Al-20Si-5Fe-3Cu-1Mg Powder	
P. Moazzenipoor, M. Rajabi and P. Davami	253
Study on Mechanical Properties of 2024 Al Sheet Treated by SMAT	
K.P. Cheung, J. Silvanus, S.Q. Shi and J. Lu	257
Finite Element Modeling for Hot Forging Process of AISI 4340 Steel	
A. Sanrutsadakorn, V. Uthaisangsuk, S. Suranuntchai and B. Thossatheppitak	263
Comparative Study to Analyze the Effect of Tempering during Cryogenic Treatment of Tungsten Carbide Tools in Turning	
N.S. Kalsi, R. Sehgal and V.S. Sharma	267
Structural Evolution of Manganese Oxides via Surfactant-Free Solvothermal Routes	
Y.L. Zhang, W.H. Wang, F.H. Zhang, Y. An, T. Liu, Y.S. Yin and L.H. Dong	271
Magnesium Matrix Composites: State-of the-Art and what's the Future	
H. Dieringa and K.U. Kainer	275

Burr Size Reduction in Drilling of Al/SiC Metal Matrix Composite by Ultrasonic Assistance M.A. Kadivar, R. Yousefi, J. Akbari, A. Rahi and S.M. Nikouei	279
Deformation Mechanism Maps for Al-Cu-Mg Alloys Micro-Alloyed with Tin P.S. Robi, S. Banerjee and A. Srinivasan	283
Formability Evaluation of FSW Blanks Made of Aluminum Sheet: Influence of Welding Speed and Tool Rotation Speed P. Janaki Ramulu, R. Ganesh Narayanan, S.V. Kailash and J. Reddy	287
Cutting Model in Machining of Al/SiC_p Metal Matrix Composite S.M. Nikouei, R. Yousefi, M.A. Kouchakzadeh and M.A. Kadivar	291
Welding Heat Transfer Analysis Using Element Free Galerkin Method R. Das, K.S. Bhattacharjee and S. Rao	298

Chapter 4: Polymeric Fibre Composites

Modeling the Flexural Properties of SLG Reinforced Phenol Formaldehyde Composites Using Langrage's Method H. Ku, H. Zhou, P. Wong, G. Su and J. Vadher	305
Flexural Properties of Epoxy Composites Filled with Glass Powder: Preliminary Results H. Ku, P. Wong, J. Huang, H. Fung and M. Trada	309
Study on the Relationship between the Hydrogen Bond and Damping Properties of Nitrile-Butadiene Rubber/Hindered Phenol Composites by Molecular Dynamics Simulation T. Hu, Q. Bo, X.Y. Zhao and S.Z. Wu	313
Dynamical Response of Sandwich Plates with Strength Graded Cores to Blast Loading B. Yu, F.X. Xin and T.J. Lu	317
Numerical Simulations for Hail Impact on Lightweight Sandwich Structures B. Han, F.X. Xin, F. Jin and T.J. Lu	321
UV Weathering Effect on Antibacterial Performance in Silicone Rubber Compounds K. Taptim and N. Sombatsompop	325
Study of <i>B. Mori</i> Silk Fabric and <i>B. Mori</i> Silk Reinforced Epoxy Composite N. Chaisomkul, N. Suppakarn and W. Sutapun	329
Tribological Properties of Flame Sprayed Hexagonal Boron Nitride/Polyetheretherketone Coatings J. Tharajak, T. Palathai and N. Sombatsompop	333
The Preparation of Poly(lactic acid) via Chain Linked Hydroxy-Terminated Lactic Acid Prepolymer S. Songprateepkul, S. Rakmae, C. Deeprasertkul, N. Suppakarn and P. Chumsamrong	337
Reaction Injection Molding Process and Fireproof Property of Phenolic Foam Sandwich Panel X.F. Li, K.T. Lau, Y.S. Yin, Y. An, S.S. Shen, F.H. Zhang, Y. Zhou and Y.J. Zhang	341
Molding of C-FRP Plate with Using Induction Heating E. Nakanishi, S. Maki and S. Matsumoto	345
Compressive Behavior of Glass Fiber Reinforced Plastic Laminates with Drilled Hole P.K. Rakesh, I. Singh and D. Kumar	349
Development and Characterisation of Lightweight Sandwich Panel for Table Tennis Table A.P. Penneru, R. Lin, P. Antcliff and H. Choi	353
Effects of PPV-g-PSFu Graft Copolymer on Morphology and Power Conversion Efficiency of Bulk Heterojunction Solar Cell Base on P3HT/C₆₀ Blends N. Seeponkai, J. Wootthikanokkhan and C. Thanachayanont	357
Duct Noise Control by Using Very Light Composite Plate Y.S. Choy, Y. Liu and K.T. Lau	361
Characterisation of Energy Generating PolyVinylidene Fluoride (PVDF) Based Piezoelectric Filament D. Vatansever, R.L. Hadimani, T. Shah and E. Siores	366
Spandex Fiber Reinforced Shape Memory Polymer Composites and their Mechanical Properties J. Sun, Y.Y. Xu, Y.J. Chen, Y.J. Liu and J.S. Leng	370

Chapter 5: Processing and Manufacturing

Study of the Effect of Frequency in Pulse Electrodeposition on Au-Ni from Cyanide-Citrate Electrolyte by the Aim of Design of Experiment R.S. Moakhar, I. Imanieh, M. Ghorbani and A. Dolati	377
Fabrication of the Nanoparticles of the Cu (II), Zn (II) Complexes with Pyrithione Derivative and their Marine Biological Activities W.G. Li, Y. An, X.F. Li, Y.S. Yin, Y.H. Wen, Y.L. Zhang and G.Q. Wang	382
Effects of Emulsion Electrospinning Parameters on the Morphology and Structure of Core-Shell Structured PLLA Fibers X. Zhang and M. Wang	386
A Comparative Study on Conventional Electrospinning and Emulsion Electrospinning of PLLA Nanofibers X. Zhang, M. Wang, X.Y. Yuan and J.C. Kang	390
