

Table of Contents

Preface

Chapter 1: Metal Processing

- Assessment of Mechanical Strength of A36 Steel with Flux Cored Arc Welding Process**
R.A.S. Cabural, F.M.J. Garcia, P.G.I. Rivera, D.G.F. Valentino, R.G. Tayactac, E.B.O. Ang, R.D. Umali and G.M. Escalona 3

- Influence of Reinforcing nano-Al₂O₃ Particles on Microstructure and Hardness Properties of HVOF Sprayed 80Ni20Cr Coatings**
S. Pokwitidkul, S. Chaleawlert-umpon, P. Thongyoug, K. Kamonsuangkasem, S. Wannapaiboon and J. Tungtrongpairoj 11

Chapter 2: Functional Materials

- Structure, Magnetic and Magnetocaloric Properties of Attempted P Substitutions in LaFe_{11.5}Si_{1.5} Giant Magnetocaloric Material**

J.Y. Xue, H. Yibole and F. Guillou 21

- The Influence of Sn Addition on the Magnetocaloric Effects, Magnetic and Mechanical Properties of Fe₂P-Type Mn-Fe-P-Si Compounds**

T.C. Zhang, X.R. Zhao, Q.Y. Bu, Y.J. Jiang and Z.Q. Ou 29

- Preparation and Characterization of Black Phosphene/Titanium Dioxide Composite Nanomaterials by Liquid-Stripping and Solution Mixing Method**

T.N. Bao, A. Bolag, J.Y. Li and O. Tegus 41

Chapter 3: Reprocessing and Reusing of Biowaste

- Developing New Natural Surfactant from Date Seeds for Different Field Applications**

N. Al Otaibi, M. Aly and T. Moawad 53

- Comparative Study of Mechanical Behavior between an Adhesive Made from Date Palm Waste and FM-73 Adhesive**

S. Maachou, A. Benbakhti and A. Moulgada 65

- Lignocellulose Composition of Preparation of Porous Carbon Materials and CO₂ Adsorption Performance Research**

B. Wurentuya, W. Ren and B. Agula 71

- Producing Animal Originated Charcoal Production and its Characterization Analysis Compared to Brown Coal**

E. Sukhbaatar, N. Ganbold, B. Saruultuya, B. Norov, M. Ganbold, R. Dashzeveg, E. Ganbold, A. Bayarsaikhan, R. Tschaggelar and M. Sambuu 85

- Preparation and Characterization of Urea-Modified Lignin-Derived Porous Carbon Materials and their CO₂ Adsorption Properties**

S. Bao, L.Z. Gong and B. Agula 95

- Detailed Analytical EPMA Study of the OPC Pastes Prepared with the Addition of Raw and Milled Fly Ashes**

J. Temuujin, C.H. Ruescher, J. Erdenebayar and T. Ogata 107
