

Table of Contents

Preface

Experiments to Detect Damage Progression in Axially Compressed CFRP Panels under Cyclic Loading

R. Degenhardt, D. Wilckens, H. Klein, A. Kling, K. Rohwer, W. Hillger, H.C. Goetting and A. Gleiter

1

An Experimental and Numerical Study of the Static and Fatigue Performance of a Composite Adhesive Repair

R.T. Tenchev and B.G. Falzon

25

Influence of Porosity on the Interlaminar Shear Strength of Fibre-Metal Laminates

C.S. Lopes, J.J.C. Remmers and Z. Gürdal

35

Automatic Insertion of Cohesive Elements for Delamination Modelling

I. Guiamatsia, B.G. Falzon and G.A.O. Davies

53

BEM Analysis of Semipermeable Piezoelectric Cracks

M. Denda

67

A Boundary Element Free Implementation Using NGF to Solve Fracture Mechanics Applications

L.S. Miers and J.C.F. Telles

85

Boundary Element Analysis of Cracked Sheets Repaired with Bonded Anisotropic Patches

J.F. Useche, P. Sollero and E.L. Albuquerque

97

Dual Boundary Element Analysis for Time-Dependent Fracture Problems in Creeping Materials

E. Pineda and F. M.H. Aliabadi

109
