

# Table of Contents

## Preface/Committees

## I. Theoretical Calculations

<b>Electron and Positron Densities for Mono Vacancy in SiC</b>	1
A. Rubaszek	
<b>Influence of Electron-Electron Correlations and Lattice Effects on Positron-Electron Enhancement Factors</b>	5
E. Boroński	
<b>The Distribution of Slowing-Down Times of Positrons Emitted from <math>^{22}\text{Na}</math> and <math>^{68}\text{Ge}</math>\mathbf{ }^{68}\text{Ga Isotopes into Metals}</b>	10
J. Dryzek and P. Horodek	
<b>A Computational Model for Nano Scale Cavities in the Atomic Structure of Polymer Melt and Comparisons to PALS</b>	15
D. Račko	
<b>Calculation of Gamma Spectra for Positron Annihilation on Molecules</b>	21
D.G. Green, S. Saha, F. Wang, G.F. Gribakin and C.M. Surko	
<b>Investigation of Resonances in the Scattering of a Heavy ‘Positron’ by <math>\text{H}_2</math> that Involve vibrationally Excited Quasi-Bound States</b>	25
E.A.G. Armour	
<b>Positron Annihilation Characteristics in Superstrong Magnetic Fields</b>	31
S. Lewicka and J. Dryzek	
<b>Similarity of Primary Processes in Tracks of Fast Electrons, Positrons, Muons and in Blobs of Moessbauer Atoms. Common Model of early Chemical Reactions for Radiation, Positron, Muon Chemistry and Moessbauer Spectroscopy</b>	35
V. Byakov, L.A. Kulikov, Y.D. Perfil'ev and S.V. Stepanov	

## II. Positron Annihilation

<b>Structural Characterisation of Er Implanted, Ge-Rich <math>\text{SiO}_2</math> Layers Using Slow Positron Implantation Spectroscopy</b>	41
W. Anwand, A. Kanjilal, G. Brauer, A. Wagner, M. Butterling, T.E. Cowan, L. Rebohle and W. Skorupa	
<b>Defects in Martensitic Stainless Steel 1.4031 (EN) Exposed to Friction as Seen by Positron Annihilation</b>	46
P. Horodek and J. Dryzek	
<b>Point Defect Study in <math>\text{Fe}_{72}\text{Al}_{28}</math> Alloy as a Function of Thermal Treatment by Positron Lifetime Spectroscopy</b>	50
J. Kansy, A. Hanc, M. Jabłońska, E. Bernstock-Kopaczyńska and D. Giebel	
<b>Studies on Radiation Defects in Tungsten Induced by W Self-Implantation</b>	54
B. Zgardzińska, B. Tyburska and Z. Surowiec	
<b>Positron Annihilation in Thermally Treated Co-Zr-V Metallic Glasses</b>	58
E. Dryzek, J. Jaworski, E. Fleury and A. Budziak	
<b>Study of the <math>e^+</math> Distribution in a Layered Stack Sample Using Positron Lifetime Spectroscopy</b>	62
J. Dryzek and P. Horodek	

## III. Positronium

<b>Localization of Positronium in Polymers</b>	67
Y. Kobayashi and T. Ichikawa	
<b>Phase Transitions in Polymers Containing Long Self-Assembled <math>\text{CH}_2</math> Sequences in the Side Chain: A Positron Lifetime Study</b>	71
Y. Yu, G. Dlubek, R. Krause-Rehberg, M. Beiner and E. Hempel	
<b>Positron Annihilation Studies in Gamma Irradiated Polyesters</b>	75
G. Consolati, M. Mariani and F. Quasso	

<b>Effect of Dynamic Vulcanization on the Structure and Properties of Polypropylene/Rubber Mixtures Studied by Positron Annihilation and Thermostimulated Luminescence Techniques</b>	
E. Belousova, V. Gustov, T. Medintseva, A. Polyakova, E. Prut and V.P. Shantarovich	81
<b>The Effect of Impact Pressure on Positron Lifetime in Ultra High Molecular Weight Polyethylene (PE-UHMW)Chirulen®1120</b>	
R. Pietrzak and R. Szatanik	85
<b>Depth of Electron Traps in N-Alkanes</b>	
M. Pietrow and J. Wawryszczuk	89
<b>Positronium in Normal Alkanes. Selected Problems</b>	
B. Zgardzińska, T. Goworek, R. Zaleski and J. Wawryszczuk	93
<b>Preliminary Positron Lifetime Results on Free Volumes in Cyclodextrins</b>	
M.F. Ferreira Marques, A.M.G. Moreira Da Silva, P.M. Gordo and Z. Kajcsos	99
<b>Ortho-Positronium Reactions in Water Studied by Positron Annihilation Age-Momentum Correlation</b>	
T. Hirade, T. Oka and L.J. Jae	103
<b>Incorporation of the Magnetic Quenching Effect into the Blob Model of Ps Formation. Finite Sized Ps in a Potential Well</b>	
S.V. Stepanov, D. Zvezhinskiy, G. Duplâtre, V. Byakov, Y.Y. Batskikh and P.S. Stepanov	109
<b>Positron Annihilation in Undercooled Water and Ice</b>	
O. Šauša, M. Iskrová, B. Sláviková, V. Majerník and J. Krištiak	115
<b>Water in Montmorillonites</b>	
B. Sláviková, M. Iskrová, V. Majerník, O. Šauša, J. Krištiak and K. Jesenák	119
<b>Influence of Atmospheric Gases Present in the Pores of MCM-41 on Lifetime of Ortho-Positronium</b>	
R. Zaleski and M. Sokól	123

#### **IV. Experimental Methods**

<b>Precise Measurement of Hyperfine Splitting of Positronium Using the Zeeman Effect</b>	
A. Ishida, G. Akimoto, Y. Sasaki, T. Suehara, T. Namba, S. Asai, T. Kobayashi, H. Saito, M. Yoshida, K. Tanaka and A. Yamamoto	129
<b>New Experiment for the First Direct Measurement of Positronium Hyperfine Splitting with Sub-THz Light</b>	
A. Miyazaki, T. Yamazaki, T. Suehara, T. Namba, S. Asai, T. Kobayashi, H. Saito, T. Idehara, I. Ogawa, Y. Urushizaki and S. Sabchevski	133
<b>A New Version of LT Program for Positron Lifetime Spectra Analysis</b>	
D. Giebel and J. Kansy	138
<b>Electronic Structure via 1D Electron Momentum Densities</b>	
G. Kontrym-Sznajd, M. Samsel-Czekała and S. Kaprzyk	142
<b>What Else for Improvement of Reconstructed Densities?</b>	
M. Biasini and G. Kontrym-Sznajd	147
<b>Reconstruction of Momentum Density Distribution from 2D ACAR Data via Maximum Entropy and Cormack Methods</b>	
M. Pylak, L. Dobrzański and G. Kontrym-Sznajd	151
<b>Testing an Ortec Lifetime System</b>	
A. Karbowski, J.D. Fidelus and G.P. Karwasz	155
