

Table of Contents

Preface/Committees

I. Theoretical Calculations

Electron and Positron Densities for Mono Vacancy in SiC A. Rubaszek	1
Influence of Electron-Electron Correlations and Lattice Effects on Positron-Electron Enhancement Factors E. Boroński	5
The Distribution of Slowing-Down Times of Positrons Emitted from ^{22}Na and $^{68}\text{Ge}/^{68}\text{Ga}$ Isotopes into Metals J. Dryzek and P. Horodek	10
A Computational Model for Nano Scale Cavities in the Atomic Structure of Polymer Melt and Comparisons to PALS D. Račko	15
Calculation of Gamma Spectra for Positron Annihilation on Molecules D.G. Green, S. Saha, F. Wang, G.F. Gribakin and C.M. Surko	21
Investigation of Resonances in the Scattering of a Heavy ‘Positron’ by H_2 that Involve Vibrationally Excited Quasi-Bound States E.A.G. Armour	25
Positron Annihilation Characteristics in Superstrong Magnetic Fields S. Lewicka and J. Dryzek	31
Similarity of Primary Processes in Tracks of Fast Electrons, Positrons, Muons and in Blobs of Moessbauer Atoms. Common Model of early Chemical Reactions for Radiation, Positron, Muon Chemistry and Moessbauer Spectroscopy V. Byakov, L.A. Kulikov, Y.D. Perfil'ev and S.V. Stepanov	35

II. Positron Annihilation

Structural Characterisation of Er Implanted, Ge-Rich SiO_2 Layers Using Slow Positron Implantation Spectroscopy W. Anwand, A. Kanjilal, G. Brauer, A. Wagner, M. Butterling, T.E. Cowan, L. Rebohle and W. Skorupa	41
Defects in Martensitic Stainless Steel 1.4031 (EN) Exposed to Friction as Seen by Positron Annihilation P. Horodek and J. Dryzek	46
Point Defect Study in $\text{Fe}_{72}\text{Al}_{28}$ Alloy as a Function of Thermal Treatment by Positron Lifetime Spectroscopy J. Kansy, A. Hanc, M. Jabłońska, E. Bernstock-Kopaczyńska and D. Giebel	50
Studies on Radiation Defects in Tungsten Induced by W Self-Implantation B. Zgardzińska, B. Tyburska and Z. Surowiec	54
Positron Annihilation in Thermally Treated Co-Zr-V Metallic Glasses E. Dryzek, J. Jaworski, E. Fleury and A. Budziak	58
Study of the e^+ Distribution in a Layered Stack Sample Using Positron Lifetime Spectroscopy J. Dryzek and P. Horodek	62

III. Positronium

Localization of Positronium in Polymers Y. Kobayashi and T. Ichikawa	67
Phase Transitions in Polymers Containing Long Self-Assembled CH_2 Sequences in the Side Chain: A Positron Lifetime Study Y. Yu, G. Dlubek, R. Krause-Rehberg, M. Beiner and E. Hempel	71
Positron Annihilation Studies in Gamma Irradiated Polyesters G. Consolati, M. Mariani and F. Quasso	75

Effect of Dynamic Vulcanization on the Structure and Properties of Polypropylene/Rubber Mixtures Studied by Positron Annihilation and Thermostimulated Luminescence Techniques	
E. Belousova, V. Gustov, T. Medintseva, A. Polyakova, E. Prut and V.P. Shantarovich	81
The Effect of Impact Pressure on Positron Lifetime in Ultra High Molecular Weight Polyethylene (PE-UHMW)Chirulen®1120	
R. Pietrzak and R. Szatanik	85
Depth of Electron Traps in N-Alkanes	
M. Pietrow and J. Wawryszczuk	89
Positronium in Normal Alkanes. Selected Problems	
B. Zgardzińska, T. Goworek, R. Zaleski and J. Wawryszczuk	93
Preliminary Positron Lifetime Results on Free Volumes in Cyclodextrins	
M.F. Ferreira Marques, A.M.G. Moreira Da Silva, P.M. Gordo and Z. Kajcsos	99
Ortho-Positronium Reactions in Water Studied by Positron Annihilation Age-Momentum Correlation	
T. Hirade, T. Oka and L.J. Jae	103
Incorporation of the Magnetic Quenching Effect into the Blob Model of Ps Formation. Finite Sized Ps in a Potential Well	
S.V. Stepanov, D. Zvezhinskiy, G. Duplâtre, V. Byakov, Y.Y. Batskikh and P.S. Stepanov	109
Positron Annihilation in Undercooled Water and Ice	
O. Šauša, M. Iskrová, B. Sláviková, V. Majerník and J. Krištiak	115
Water in Montmorillonites	
B. Sláviková, M. Iskrová, V. Majerník, O. Šauša, J. Krištiak and K. Jesenák	119
Influence of Atmospheric Gases Present in the Pores of MCM-41 on Lifetime of Ortho-Positronium	
R. Zaleski and M. Sokół	123

IV. Experimental Methods

Precise Measurement of Hyperfine Splitting of Positronium Using the Zeeman Effect	
A. Ishida, G. Akimoto, Y. Sasaki, T. Suehara, T. Namba, S. Asai, T. Kobayashi, H. Saito, M. Yoshida, K. Tanaka and A. Yamamoto	129
New Experiment for the First Direct Measurement of Positronium Hyperfine Splitting with Sub-THz Light	
A. Miyazaki, T. Yamazaki, T. Suehara, T. Namba, S. Asai, T. Kobayashi, H. Saito, T. Idehara, I. Ogawa, Y. Urushizaki and S. Sabchevski	133
A New Version of LT Program for Positron Lifetime Spectra Analysis	
D. Giebel and J. Kansy	138
Electronic Structure via 1D Electron Momentum Densities	
G. Kontrym-Sznajd, M. Samsel-Czekala and S. Kaprzyk	142
What Else for Improvement of Reconstructed Densities?	
M. Biasini and G. Kontrym-Sznajd	147
Reconstruction of Momentum Density Distribution from 2D ACAR Data via Maximum Entropy and Cormack Methods	
M. Pylak, L. Dobrzyński and G. Kontrym-Sznajd	151
Testing an Ortec Lifetime System	
A. Karbowski, J.D. Fidelus and G.P. Karwasz	155
