

Table of Contents

Preface

Metallurgical Aspects of Quasicrystals

D. Shechtman 1

"Textures"

A.L. Mackay 11

Some Elastic and Structural Properties of Quasicrystals

P.J. Steinhardt 23

Structure Defects in Quasicrystal Alloy Phase Observed by High-Resolution Electron Microscopy

M. Hirabayashi and K. Hiraga 45

Atomic Arrangements in Quasicrystals

T.R. Anantharaman 55

The Fog Phase: A Quasicrystalline Liquid Crystal Phase?

R.M. Hornreich and S. Shtrikman 65

Icosahedral Coordination and Orientation in Crystalline Metallic Phases

D.P. Shoemaker and C.B. Shoemaker 67

Fivefold Aggregates in Complex Intermetallic Compounds

S. Samson 83

Periodic and Aperiodic Arrangements of Icosahedral Columns in Pentagonal Frank-Kasper Phases and Analogs

H.Q. Ye 103

Electron Microscopy of Incommensurate Structures

J. Van Landuyt, G. Van Tendeloo and S. Amelinckx 115

Some New Icosahedral and Decagonal Quasicrystals

K.H. Kuo 131

Octagonal Quasicrystal and Eightfold Twins in a Rapidly Solidified Cr-Ni-Si Alloy

N. Wang and K.H. Kuo 141

Structural Relationship between Crystalline and Quasicrystalline Phases in Al-Mn System

L.A. Bendersky 151

Quasicrystalline and Crystalline Structures in a Rapidly Solidified V-Ni-Si-Alloy

D.S. Zhou, H.Q. Ye, D.X. Li and K.H. Kuo 163

On the T, Pseudo-Five-Fold and $\text{Al}_{86}\text{Mn}_{14}$ Phases Formed in Al-Mn Alloys

J. Reyes-Gasga, G. Vázquez-Polo, J.G. Pérez-Ramírez and M. José-Yacamán 175

Symmetry of Three-Dimensional Quasicrystals

T. Ogawa 187

A 2D Quasiperiodic Structure with Eightfold Symmetry

Z.M. Wang 201

Three Dimensional Quasilattice with Cubooctahedral Symmetry

Y. Watanabe, T. Soma, M. Ito and T. Betsumiya 213

Periodic and Aperiodic Lattices

K.N. Ishihara 223

Frequency of Vertex Configurations and Imperfections in a Semi-Periodic Three-Dimensional Penrose Tiling

R. Lück 231

Structure Models of the Icosahedral Phase Al_6CuLi_3

P. Guyot and M. Audier 247

Structural Properties of Icosahedral and Decagonal Phases

D. Romeu 257

Phase Transitions of a Predominantly Icosahedral Material

S.M. Anlage 269

An Atomistic Model for the Decagonal Phase of Al-Fe Alloy

V. Kumar 283

Atomic Structure of Quasicrystals Determined by X-Ray and Neutron Scattering T. Egami and S.J. Poon	295
Real Time Study of the Crystallization of Aluminium-Base Icosahedral Phases by Neutron Powder Diffraction J.M. Dubois, J. Pannetier and C. Janot	311
Neutron Diffraction of Quasiperiodic Structures: Contrast Variation, Isomorphism and Pseudo-Symmetries C. Janot, J.M. Dubois and J. Pannetier	329
Phasons and Scattering from Quasicrystals M.V. Jaric	345
Structure and Disorder in the Al-Pd Decagonal Phase S. Idziak, P.A. Heiney and P.A. Bancel	353
X-Ray Measurements of Phason Distortion in ION-Implanted Al-Mn J.D. Budai	369
Phonons, Phasons and Dislocations in Al-Mn Quasicrystals Studied by Electron Microscopy D.N. Wang, T. Ishimasa, H.U. Nissen and S. Hovmöller	381
Possible Approach to the Phase Problem in Quasicrystals F.H. Li, L.C. Wang and H.F. Fan	397
Dynamical Theory of Electron Diffraction and Its Application to the Rocking Curve Simulation for Quasicrystals R.H. Wang and Y.F. Chen	409
Experimental Evidence for Structural Units in the Icosahedral Phase and Their Interconnections E.A. Stern and Y. Ma	423
Local Atomic Configuration Studied by Mössbauer Spectroscopy and Crystallographic Texture in Al-Mn Based Quasicrystals H. Ino, K. Edagawa, K. Kimura, S. Takeuchi and S. Nasu	437
Critical Magnetic Properties of two Dimensional Penrose Lattice G. Ananthakrishna, G. Amarendra and G. Athithan	453
Anomalous Electronic Structure in 2-D Penrose Lattice T. Fujiwara, T. Tokihiro and M. Arai	459
Electrical Properties of Single Phase Al-Based Quasicrystals K. Kimura, H. Yamane, T. Hashimoto and S. Takeuchi	471
One-Dimensional Quasicrystal Obtained from a Crystal by Successive Application of Periodic Modulation T. Ninomiya	483
Research on Quasiperiodic Superlattice D. Feng, A. Hu, K. Chen and S.J. Xiong	489
Electronic Properties of Fibonacci Quasicrystals Y.Y. Liu	499
Thermal Stability of Quasicrystals U. Köster and B. Schuhmacher	505
Phase Transitions between Quasicrystalline, Crystalline and Amorphous Phases in Alloys K. Urban, M. Bauer, Á. Csanády and J. Mayer	517
Production of Al-Based Ternary and Quaternary Icosahedral Phases H. Yamane, K. Kimura, T. Shibuya and S. Takeuchi	539
TEM Study of the Icosahedral Quasicrystal in a Rapidly Solidified FeTi₂ Alloy C. Dong, K.H. Kuo and K. Chattopadhyay	555
Microstructural Observations of the Growth of the Icosahedral Phase T₂(Al₆CuLi₃) and its Alloys E. Ryba, D.W. Yuan, M. Puglia and C. Bartges	565
"Al₆CuLi₃-T₂: A Stable Icosahedral Phase?" N. Yu, R. Portier, D. Gratias, K. Yu-Zhang and J. Bigot	579
Study of Large Size Quasicrystal in Al₆Li₃Cu Alloy Z.H. Mai, B.S. Zhang, M.J. Hui, Z.R. Huang and X.X. Chen	591
Growth and Characterization of Quasicrystals: I. Thin Films and II. Fine Particles Y. Saito and K. Mihama	601

Icosahedral Phase Formation in Vacuum Deposited Thin Films Á. Csanády, P.B. Barna, G.Z. Radnóczy and K. Urban	617
Icosahedral Phase Formation in Low Mn Content Al-Mn Alloys K. Yu-Zhang	627
The Nature of the Early Stages of Decomposition of Icosahedral Quasicrystals K. Chattopadhyay and N.K. Mukhopadhyay	639
