Preface

Chapter 1: Physical and Chemical Phenomena in Inorganic Materials under the Influence of Radiation, Electrical and Thermal Fields

Computer Simulation of Vacancy Clusters Distribution by Depth in Molybdenum Irradiated by Alpha Particles A.I. Kupchishin, N.A. Voronova, T.A. Shmygaleva and A.A. Kupchishin	3
Technological Features of the Thick Tin Film Deposition by with Magnetron Sputtering Form Liquid-Phase Target M. Makarova, K. Moiseev, A. Nazarenko, P.A. Luchnikov, G. Dalskaya and N. Katakhova	8
Radiation Defects in HCC Materials at Atomic Spatial Level V. Ivchenko	14
Acquiring MIS Structures Based on $\text{Ba}_{0.8}\text{Sr}_{0.2}\text{TiO}_3$ Ferroelectric Films and their Properties M.S. Afanasyev, A. Nabiev, G. Chucheva and D. Guseinov	20
Dose Dependences of the Mechanical Strength of Polymer Materials A.I. Kupchishin, B.G. Taipova, N.A. Voronova, A.A. Kupchishin and K. Shakhanov	25
Investigation of Thermal Explosion Formation in Heterogeneous Systems A.I. Sechin, A.A. Sechin, Y. Amelkovich, I. Mezenceva and T. Zadorozhnaya	30
Effect of Temperature on the Magnetic Permeability of Hexagonal Ferrites O. Dotsenko, K. Frolov, D. Wagner, V. Dotsenko and D. Aksentev	36
Influence of Morphology of the Press Powder Particles and Thermal Annealing on the Structure and Microhardness of Palladium Obtained by Solid-Phase Sintering G. Bondarenko, A. Gaidar, E. Gorelova and N. Kashirina	41
Investigation of Injection- and Radiation-Thermal Processes in Thin Gate Dielectric Films of MIS Structures D. Andreev, G. Bondarenko, V. Andreev and A. Stolyarov	47
The Structure and Mechanical Properties of Multilayer Metal-Carbon Coatings Deposited in Pulse Plasma of Arc Discharge D.G. Pilipstou, A.V. Rogachev, A.S. Rudenkov, E. Kulesh and A. Luchnikov	53
Study of the Influence of Uniaxial Strain and Electron Irradiation on the Deformation of Polytetrafluoroethylene Film A.I. Kupchishin, M.N. Niyazov, S.A. Ghyngazov, N.A. Voronova and A.A. Kupchishin	58
High Chromium Steel Modification by the Intense Discrete Electron Beam: Structure and Properties Y.F. Ivanov, V. Klopotov, A.A. Klopotov, E.A. Petrikova, Y.A. Abzaev, O.V. Ivanova and A.D. Teresov	64
Modification of Strength Properties of Oxide Materials by Ion Irradiation S.A. Ghyngazov, V. Kostenko, S. Shevelev, A.I. Kupchishin and A. Kondratyuk	70
Electron-Ion-Plasma Doping of Aluminum Surface with Copper and Titanium - A Comparative Analysis of the Formed Structure and Properties Y.F. Ivanov, A.A. Klopotov, A.I. Potekaev, O.V. Krysina, P. Moskvina, E.A. Petrikova, O.V. Ivanova, N. Tsvetkov and O.S. Tolkachev	76
Dynamics of Surface Heating and Quenching of Titanium by a Submillisecond Intense Electron Beam A.D. Teresov, T. Koval, P. Moskvina, C.M. Kim An and N. Koval	82
Modification of Wood Properties by Highly-Concentrated Plasma Flow G.G. Volokitin, N. Skripnikova, O. Volokitin, V. Shekhovtsov, P. Balobanov and A. Pfuch	88

Chapter 2: Research Methods and Properties of Materials

Surface Doping of Steel with an Intense Pulsed Electron Beam G.G. Volokitin, Y.F. Ivanov, A.A. Klopotov, A.D. Teresov, V. Shugurov, E.A. Petrikova and O.V. Ivanova	95
---	----

Structure and Phase Composition of a Ti Film–Al Substrate System Irradiated with an Intense Pulsed Electron Beam Y.F. Ivanov, O.V. Krysin, P. Moskv, E.A. Petrikova, O.V. Ivanova and O.S. Tolachev	101
Criterion for Controlling the Stress-Strain State of Composite Dielectric Materials Using the Effective Filtration Method V. Surzhikov and P. Fedotov	108
The Heat of Sublimation of Small Cluster Systems G. Melnikov	114
Mechanochemical Synthesis of Hexagonal Ferrites BaFe₁₂O₁₉ V. Zhuravlev, A. Nevmyvaka, V. Itin and D. Velikanov	119
Resource-Saving Microsphere Technology for Friction Composite Materials V. Shekhovtsov, O. Volokitin, G.G. Volokitin, N. Skripnikova, Y. Vlasov and E. Spirin	125
Multicycle Surface Alloying of Aluminum with Titanium: Structure and Properties Y.F. Ivanov, N. Koval, O.V. Krysin, P. Moskv, E.A. Petrikova and O.S. Tolachev	131
The Packing Coefficient of Particles in Structure Cluster Systems G. Melnikov, S. Emelyanov, N. Ignatenko and O. Manzhos	137
Plasma Technologies in Construction Industry G.G. Volokitin, V.A. Vlasov, N. Skripnikova, O. Volokitin and V. Shekhovtsov	143
Magnetic Nanocomposites Based on Opal Matrices A.F. Belyanin, A. Bagdasarian, S. Bagdasarian, P.A. Luchnikov and N. Katakhova	149
Possibility of Evaluating a Depth of Defects as a Hole in a Composite Dielectric Sample by the Parameters of Electric Response to Pulse Mechanical Excitation P. Khorsov, A.P. Surzhikov, V. Surzhikov and R. Laas	155
Epoxy Composites Filled with Sodium Bicarbonate: Thermal and Mechanical Properties Y. Murashkina and D. Lipchansky	159
Surface Geometry Model of the Capillary when Filling it with Liquid A.N. Kalinichenko, I.S. Lobanova, V. Meshcheryakov and A.P. Surzhikov	165
Specific Features of Obtaining of Metal Nanowires by Replication of Pores of Track Etched Membranes D. Zagorskiy, I. Doludenko and A. Shatalov	170
On the Issue of an Ash Microsphere Application as a Framework Forming Filler in Composite Materials A. Atyaksheva, R. Niyazbekova, Y. Sarsikeev, M. Konkanov and A. Atyaksheva	176

Chapter 3: Environmental Engineering, Biochemistry and Technologies of Food Processing

Increasing the Efficiency of the Operation of the Facilities for the Thermal Processing of Raw Materials by Exposure to Electromagnetic Radiation D. Lukina, V. Belov, O. Lukina, A. Volkov, A. Mayorov and I. Smirnova	185
Influence of Radiation Various Doses on Food Products and Feeds Y. Kurbangaleev, G. Konyukhov, R. Nizamov, N. Vasilevskiy, N. Tarasova, V. Velikanov and R. Aslanov	190
Influence of Photochemical Reactions on the Content and Transformation of Mineral Nitrogen in Sod-Podzol Soil S. Novoselov	195
Photodegradation of Methylene Green in the Presence of Polypropylene Microfiber Material A. Petrova, O. Tchaikovskaja and I. Plotnikova	200
The Effectiveness of Sulfatozifan in the Case of External Gamma Irradiation G. Konyukhov, K. Papunidi, N. Vasilevskiy, N. Tarasova, R. Nizamov and Y. Kurbangaleev	206
The Study and Exposure of Laws of Distribution Protein Substances in Uroliths O. Golovanova	211
